AN AUTHOR, TITLE, AND ILLUSTRATOR INDEX TO BOOKS FOR CHILDREN AND YOUNG ADULTS

LITERACY CENTERS LEVEL 2

READY! SET! GO!

Teacher Created Materials *With a focus on early literacy skills, this resource supports second grade teachers in their use of centers in the classroom. Included in this book are 10 easy-to-use, research- and standards-based literacy centers that each align with essential second grade skills and that focus on the five areas of reading: Phonemic Awareness, Phonics, Fluency, Vocabulary, and Comprehension. You'll find fun, engaging designs and all the necessary materials needed to implement each center. Each center contains three differentiated activities to meet the needs of all learners, recommended children's literature for additional text support, and a family letter to build a school-home connection. This resource is correlated to College and Career Readiness standards.*

FORECASTING: PRINCIPLES AND PRACTICE

OTexts *Forecasting is required in many situations. Stocking an inventory may require forecasts of demand months in advance. Telecommunication routing requires traffic forecasts a few minutes ahead. Whatever the circumstances or time horizons involved, forecasting is an important aid in effective and efficient planning. This textbook provides a comprehensive introduction to forecasting methods and presents enough information about each method for readers to use them sensibly.*

MEDIA CAPITALISM

HEGEMONY IN THE AGE OF MASS DECEPTION

Springer Nature This book argues that media and capitalism no longer exist as separated entities, and posits three reasons why one can no longer exist without the other. Firstly, mass media have become indispensable to capitalism due to the media's ability to sell the commodities of mass consumerism. Media capitalism also creates pro-capital attitudes among a target population and establishes an ideological hegemony. Thirdly, media capitalism provides mass deception to hide the pathologies of capitalism, which include mass poverty, rising inequalities, and the acceleration of global warming. To illuminate this, the book's historical chapter traces the emergence of media capitalism. Its subsequent chapters show how media capitalism has infiltrated the public sphere, society, schools, universities, the world of work and finally, democracy. The book concludes by outlining how societies can transition from media capitalism to a post-media- capitalist society.

MARKETS, GAMES, AND STRATEGIC BEHAVIOR

AN INTRODUCTION TO EXPERIMENTAL ECONOMICS (SECOND EDITION)

Princeton University Press From a pioneer in experimental economics, an expanded and updated edition of a textbook that brings economic experiments into the classroom Economics is rapidly becoming a more experimental science, and the best way to convey insights from this research is to engage students in classroom simulations that motivate subsequent discussions and reading. In this expanded and updated second edition of *Markets, Games, and Strategic Behavior*, Charles Holt, one of the leaders in experimental economics, provides an unparalleled introduction to the study of economic behavior, organized around risky decisions, games of strategy, and economic markets that can be simulated in class. Each chapter is based on a key experiment, presented with accessible examples and just enough theory. Featuring innovative applications from the lab and the field, the book introduces new research on a wide range of topics. Core chapters provide an introduction to the experimental analysis of markets and strategic decisions made in the shadow of risk or conflict. Instructors can then pick and choose among topics focused on bargaining, game theory, social preferences, industrial organization, public choice and voting, asset market bubbles, and auctions. Based on decades of teaching experience, this is the perfect book for any undergraduate course in experimental economics or behavioral game theory. New material on topics such as matching, belief elicitation, repeated games, prospect theory, probabilistic choice, macro experiments, and statistical analysis Participatory experiments that connect behavioral theory and laboratory research Largely self-contained chapters that can each be covered in a single class Guidance for instructors on setting up classroom experiments, with either hand-run procedures or free online software End-of-chapter problems, including some conceptual-design questions, with hints or partial solutions provided

ADVANCED KOREAN

INCLUDES DOWNLOADABLE SINO-KOREAN COMPANION WORKBOOK

Tuttle Publishing Advanced Korean offers a complete, systematic, and streamlined third-year course in Korean. It is ideal for university students and adult learners with plentiful reading texts and written exercises, all in Korean Hangul. Concise Korean grammar notes in English, extensive glossaries, and an answer key make this book suitable for those studying alone, as well as for classroom use. There are 20 comprehensive lessons, each with a reading text in which new language is introduced in context, followed by vocabulary, grammar points, and exercises. Lessons 5, 10, 15 and 20 are short reviews of the key structural patterns introduced. The focus is on written Korean, but the reading texts are not academic, they are breezy, chatty, and amusing, with illustrations. The textbook comes with a downloadable supplement entitled Sino-Korean Companion. It is for those learners wishing to commence the study of Chinese characters as they are used in the Korean language. The 20 lessons build on the content of the lessons in the main textbook to introduce 500 Chinese characters in their Sino-Korean readings. The emphasis is on giving students the tools they need to decipher unfamiliar Chinese characters on their own, and also on Sino-Korean vocabulary acquisition. Each lesson introduces approximately 25-30 new Chinese characters along with related vocabulary items, and builds on previous characters and vocabulary introduced, demonstrating the cumulative effect on one's vocabulary of paying systematic attention to Sino-Korean.
