WOODWORKING AND WHITTLING FOR KIDS, TEENS AND PARENTS : A BEGINNER'S GUIDE WITH 51 DIY PROJECTS FOR DIGITAL DETOX AND FAMILY BONDING

[Stephen Fleming](#) "The emotional effect of woodworking is that it gives kids that sense of accomplishment. Parents see a happy kid beaming with excitement of possibilities." -A woodworking teacher Three years back, I asked one child psychologist: What is the best way to make a connection with my 8 and 13-year-olds as they are growing up? I was worried about excessive exposure to T.V, Mobile Phones and wanted to do some activity together to be much of an enabler and guide. He said," Why don't you try Woodworking in your backyard? That would serve all your purposes. " That was one of the best pieces of advice I got off late. We hit it off and started with whittling, woodworking with just a wooden stick and a pocket knife. After that, we moved on to woodworking with multiple tools. The kids only used more straightforward tools, and I handled the complicated part. Safety was of utmost priority, and I always led with example. This book entails our journey with 31 Whittling and 20 Woodworking projects. It covers: - Woodworking and Whittling definitions, background, history - Why kids and teenagers should practice it or how they would inculcate various skills while practicing this art which would help them in an extremely dynamic world they would face - Best practices and safety instructions - Tools with details of ways to use them - Processes and Techniques - 51 Starter Projects - Tips, Guidelines, and Online Resources A perfect company for a weekend or holiday! Get this comprehensive 2 in 1 book with Woodworking and Whittling covered for a kid and parent both.

TOTALLY TWEENS AND TEENS

YOUTH-CREATED AND YOUTH-LED LIBRARY PROGRAMS

[Rowman & Littlefield Publishers](#) The library programs featured in this unique collection are those that have been suggested, created, and led by youth with the help and guidance of the supportive adults at their library. Many times, librarians bring ideas to teens in hopes of getting them to buy in and perhaps help them to run programs. In this book, you'll primarily find a role reversal! Tweens and teens lead the way with whatever adult information, support, and supervision they need to see their proposals through. To accomplish this, the youth are encouraged to create new ideas, are empowered to make decisions, and are given control. Plus, the ideas they bring to life are not just peer-focused. The programs, activities, and events they create and lead can be for children, adults, or even for all ages or mixed audiences, as well as for fellow tweens and teens. In addition to finding a wide array of proven ideas, recommendations, and testimonials from real tweens and teenagers, you will discover helpful advice on using the philosophies behind allowing youth to not only have a say but to take action; testimonials from adults who have worked directly with youth having this level of empowerment; suggestions on getting approval and providing funding and other support for youth ideas; ways to evaluate such youth-led programs; and sample forms, flyers, and other materials that can be adapted.
