A key feature of the evolving digital economy is the increasing role of digital data as an economic resource, together with digital platforms as new influential actors, with capacity to collect, process, analyze and monetize data. The report considers policy options for countries to help ensure that they capture a fair part of the value created in the digital economy for inclusive development. Key issues include the market impact of emerging technologies and digital platforms, the impact on smaller businesses in developing countries and the implications for infrastructure, entrepreneurship, skills, competition, data flows, data protection, taxation and other relevant policies. **Humanism, Capitalism, and Rhetoric in Early Modern England The Separation of the Citizen from the Self** *Walter de Gruyter GmbH & Co KG* This book offers an interdisciplinary approach to concepts of the self associated with the development of humanism in England, and to strategies for both inclusion and exclusion in structuring the early modern nation state. It addresses writings about rhetoric and behavior from 1495–1660, beginning with Erasmus' work on sermo or the conversational rhetoric between friends, which considers the reader as an 'absent audience', and following the transference of this stance to a politics whose broadening democratic constituency needed a legitimate structure for governance-at-a-distance. Unusually, the book brings together the impact on behavior of these new concepts about rhetoric, with the growth of the publishing industry, and the emergence of capitalism and of modern medicine. It explores the effects on the formation of the 'subject' and political legitimation of the early liberal nation state. It also lays new ground for scholarship concerned with what is left out of both selfhood and politics by that state, studying examples of a parallel development of the 'self' defined by friendship not only from educated male writers, but also from women writers and writers concerned with socially 'middling' and laboring people and the poor. **Tourism in National Parks and Protected Areas Planning and Management** *CABI* This book describes the state of the art of tourism planning and management in national parks and protected areas.
