DECOMPRESSION

Random House Jola is a beautiful and privileged soap star who wants very much to be taken seriously; her partner Theo is a middle-aged author with writers' block. In an attempt to further her career, Jola is determined to land the lead role in a new film about underwater photographer and model Lotte Hass. To improve her chances, the couple travel to Lanzarote and hire diving instructor Sven, paying him a large sum for exclusive tuition. Sven is meticulously planning his most ambitious expedition yet - to an untouched wreck 100 metres down on the ocean floor. Diving calls for a cool head and, as a sinister love triangle develops, events rapidly get out of hand. But whose story do we trust - Sven's or Jola's? Deliciously claustrophobic, smart, and unrelentingly intense, this psychological thriller with shades of Patricia Highsmith will leave readers gasping for air.

GRENADA

RECENT ECONOMIC DEVELOPMENTS

International Monetary Fund This paper describes economic developments in Grenada during the 1990s. The weak growth performance since 1990 reflected largely a continuous contraction in agricultural output, which declined each year from 1989 to 1993. The construction industry experienced a major contraction in 1992 owing to the sharp fall in public investment. In 1993, output declined in the mining and quarrying, construction, and manufacturing sectors as well as in agriculture. In contrast, the hotel and restaurant sector has exhibited strong growth since the late 1980s, with real value added growing by 13.8 percent, on average, each year since 1989.

(GDI) GASOLINE DIRECT INJECTION EXPLAINED

A GASOLINE DIRECT INJECTION TECHNOLOGY SERIES

Createspace Independent Pub (GDI) Gasoline Direct Injection Explained (A Gasoline Direct Injection Technology Series) By Mandy Concepcion This

book, "(GDI) Gasoline Direct Injection Explained" covers the major points of this technology. It is a must first book for anyone interested in updating and understanding the finer points of this technology. All the major auto makers are now releasing new models with GDI injection. This technology is easy and faster to manufacture, now that the engineering has pretty much been polished. Gone are the carbon issues of the past. GDI has matured and is here to stay. This book will cover sensors and feedback programs that only GDI systems employ. There are some, but few similarities between GDI and PFI, which we'll cover here. The main differences are in the high pressures needed and the way injectors are triggered (not with 12 volts). Other issues that may render a GDI inoperative are the NOx systems, which is also covered in this book. We hope this book serves as a launching point for a complete and proper GDI Technology training regime. Enjoy.
