#### **A COMPARATIVE ANALYSIS OF POLICING CONSUMER CONTRACTS IN CHINA AND THE EU**

---

Springer **This book seeks to fill a gap in the existing literature by describing the formulation, interpretation and enforcement of the rules on consumer contracts in China and the EU, and by mapping key similarities and differences. The study addresses selected issues regarding consumer contracts: sources of law in the two jurisdictions are first discussed to set the scene. Afterwards, one preliminary issue - how to define the concept of a consumer contract - and two substantive topics - unfair terms and withdrawal rights - are dealt with. Apart from the descriptive analysis, the book also provides possible explanations for these comparative findings, and argues that the differences in consumer contract rules can be primarily attributed to a disparity of markets. The book offers a valuable resource, particularly for researchers and practitioners in the fields of private law and comparative law.**

## **FOUNDATIONAL PRINCIPLES OF CONTRACT LAW**

---

[Oxford University Press](#) **Foundational Principles of Contract Law** not only sets out the principles and rules of contract law, it places more emphasis on what the principles and rules of contract law should be, based on policy, morality, and experience. A major premise of the book is that the best way to grasp contract law is to understand it from a critical perspective as an organic, dynamic subject. When contract law is approached in this way it is much easier to grasp and learn than when it is presented simply as a static collection of principles and rules. Professor Eisenberg covers almost all areas of contract law, including the enforceability of promises, remedies for breach of contract, problems of assent, form contracts, the effect of mistake and changed circumstances, interpretation, and problems of performance. Although the emphasis of the book is on the principles and rules of contract law, it also covers important theories in contract law, such as the theory of efficient breach, the theory of overreliance, the normative theory of contracts, formalism, and theories of contract interpretation.

### **THE ACTION FOR BREACH OF PROMISE OF MARRIAGE AND THE FEMININE IDEAL, 1800-1940**

---

[Oxford University Press](#) **The common law action for breach of promise of marriage originated in the mid-seventeenth century, but it was not until the nineteenth century that it rose to prominence and became a regular feature in law courts and gossip columns. By 1940 the action was defunct, it was inconceivable for a respectable woman to bring such a case before the courts. What accounts for this dramatic rise and fall? This book ties the story of the action's prominence and decline between 1800 and 1940 to changes in the prevalent conception of woman, her ideal role in society, sexual relations, and the family. It argues that the idiosyncratic breach-of-promise suit and Victorian notions of ideal femininity were inextricably, and fatally, entwined. It presents the nineteenth-century breach-of-promise action as a codification of the Victorian ideal of true womanhood and explores the longer-term implications of this infusion of mythologized femininity for the law, in particular for the position of plaintiffs. Surveying three consecutive time periods - the early nineteenth century, the high Victorian and the post-Victorian periods - and adopting an interdisciplinary approach that combines the perspectives of legal history, social history, and literary analysis, it argues that the feminizing process, by shaping a cause of action in accordance with an ideal at odds with the very notion of women going to law, imported a fatal structural inconsistency that at first remained obscured, but ultimately vulgarized and undid the cause of action. Alongside more than two hundred and fifty real-life breach-of-promise cases, the book examines literary and cinematic renditions of the breach-of-promise theme, by artists ranging from Charles Dickens to P.G. Wodehouse, to expose the subtle yet unmistakable ways in which what happened (and what changed) in the breach-of-promise courtroom influenced the changing representation of the breach-of-promise plaintiff in nineteenth- and early twentieth-century literature and film.**

## **JUSTIFYING CONTRACT IN EUROPE**

---

---

### **POLITICAL PHILOSOPHIES OF EUROPEAN CONTRACT LAW**

---

[Oxford University Press](#) **This title explores the normative foundations of European contract law. It addresses fundamental political questions on contract law in Europe from the perspective of leading contemporary political theories. Does the law of contract need a democratic basis? To what extent should it be Europeanised? What justifies the binding force**

of contract and the main remedies for breach? When should weaker parties be protected? Should market transactions be considered legally void when they are immoral? Which rules of contract law should the parties be free to opt out of? Adopting a critical lens, this book interrogates utilitarian, liberal-egalitarian, libertarian, communitarian, civic republican, and discourse-theoretical political philosophies and analyses the answers they provide to these questions. It also situates these theoretical debates within the context of the political landscape of European contract law and the divergent views expressed by lawmakers, legal academics, and other stakeholders. This work moves beyond the *acquis* positivism, market reductionism, and private law essentialism that tend to dominate these conversations and foregrounds normative complexity. It explores the principles and values behind various arguments used in the debates on European contract law and its future to highlight the normative stakes involved in the practical question of what we, as a society, should do about contract law in Europe. In so doing, it opens up democratic space for the consideration of alternative futures for contract law in the European Union, and for better justifications for those parts of the EU contract law *acquis* we wish to retain.

## **CONSUMER CAPITALISM**

### **POLITICS, PRODUCT MARKETS, AND FIRM STRATEGY IN FRANCE AND GERMANY**

---

[Cornell University Press](#) "The unfettered marketplace, in which uncertainty rules and the admonition *caveat emptor* ('let the buyer beware') dictates each consumer decision, has today virtually disappeared. Consumers have become the focus of intensive economic policymaking designed to protect them from the risks and disappointments of the market. . . . Today, arguably no other economic actor in the advanced industrial countries—not the investor, not the worker, not the welfare recipient—enjoys a more thorough set of legal and institutional protections than the modern consumer when he or she enters the corner store."—from the Introduction  
Gunnar Trumbull investigates the origins of national systems of consumer protection in France and Germany, where, in the early 1970s, consumer groups and producers organized to advance their own ideas about the identity and interests of the affluent consumer. Through a comparison of eight areas of policy—product liability law, product safety standards and recall, misleading advertising, comparative product tests, product labeling, quality standards, consumer contracts, and pricing—Trumbull shows that different conceptions of the consumer interest emerged in the two countries. The result was the development of distinctive national consumption regimes, which have in turn influenced the market strategies of domestic producers. Trumbull's findings help to clarify distinctive national approaches to recent product crises—including cases of BSE and genetically modified foods. His research suggests that, in the age of consumer capitalism, national competitiveness may hinge not only on endowments of labor and capital, but also on the institutional forms of national consumption.

## **REMEDIES FOR BREACH OF CONTRACT**

---

[Oxford University Press](#) **Studies in the Contract Laws of Asia** provides an authoritative account of the contract law regimes of selected Asian jurisdictions, including the major centres of

commerce where until now, limited critical commentaries have been available in the English language. In this new six part series of scholarly essays from leading scholars and commentators, each volume will offer an insider's perspective into specific areas of contract law, including: remedies, formation, parties, contents, vitiating factors, change of circumstances, illegality, and public policy, and will explore how these diverse jurisdictions address common problems encountered in contractual disputes. Concluding each volume will be a closing discussion of the convergences and divergences throughout each across the jurisdictions, and comparisons with European jurisdictions from which Asians well as an overview of the common themes found throughout each jurisdiction .contract law derive. Volume I of this series examines the remedies for breach of contract in the laws of China, India, Japan, Korea, Taiwan, Singapore, Malaysia, Hong Kong, Korea, and Thailand. Specifically, it addresses the readiness of each legal system in their action to insist that parties perform their obligations; the methods of enforcing the parties' agreed remedies for breach; and the ways in which monetary compensation are awarded. Each jurisdiction is discussed over two chapters; the first chapter will examine the performance remedies and agreed remedies, while the second explores the monetary remedies. A concluding chapter offers a comparative overview.

## **THE FORTHCOMING EC DIRECTIVE ON UNFAIR COMMERCIAL PRACTICES**

---

Kluwer Law International B.V. To encourage cross-border transactions in the Single Market of the European Community, the Commission has proposed general framework legislation to set general standards that forbid unfair marketing practices towards consumers, thereby increasing consumer confidence when deciding whether or not to shop abroad in the Community, either in person or through modern methods of electronic purchasing through the Internet. The essays in this volume critically examine the proposed Directive that prohibits unfair commercial practices, and in particular they consider the potential legal and economic implications of a legal duty to trade fairly in the context of general contract law, the protection of consumers, and the needs of competition policy. The distinguished authors of these essays, from Finland, Germany, Italy, The Netherlands, Spain, and the United Kingdom, explain the different approaches of national legal systems to the legal regulation of marketing practices, and assess the compatibility of the proposed Directive with national law and its likely success in achieving the promotion of trade in the Single Market. About the author Hugh Collins is Professor of English Law at the London School of Economics. He studied law at Oxford and Harvard. He has published extensively in the field of contract law including The Law of Contract 4th ed (London, Butterworths, 2003), and Regulating Contracts (Oxford, Oxford University Press, 1999).

### **THE NATURE AND ENFORCEMENT OF CHOICE OF COURT AGREEMENTS**

---

#### **A COMPARATIVE STUDY**

[Bloomsbury Publishing](#) **PRAISE FOR THE BOOK:** "This constitutes a work of impressive scholarship that will become a major reference point for future discourse on choice of court agreements. Dr Ahmed advances a firm thesis in a lucid manner that will satisfy both academics and practitioners. The discussion is supported by a monumental foundation of underpinning research. Ahmed's monograph throughout shows clear understanding of underlying substantive laws and in Chapter 11 displays a refreshing willingness to engage in intelligent speculation on the implications of Brexit." Professor David Milman, University of Lancaster "The book is an excellent attempt to understand the theoretical underpinnings of choice of court agreements in private international law ... Anyone with an interest in the theory and practice of choice of court agreements, in particular in mechanisms for their enforcement, should read this book. They will find much of value by doing so." Professor Paul Beaumont, University of Aberdeen (from the Series Editor's Preface) This book examines the fundamental juridical nature, classification and enforcement of choice of court agreements in international commercial litigation. It is the first full-length attempt to integrate the comparative and doctrinal analysis of choice of court agreements under the Brussels I Recast Regulation, the Hague Convention on Choice of Court Agreements ('Hague Convention') and the English common law jurisdictional regime into a theoretical framework. In this regard, the book analyses the impact of a multilateral and regulatory conception of private international law on the private law enforcement of choice of court agreements before the English courts. In the process, it both pre-empts and offers innovative solutions to issues that may arise under the jurisprudence of the emergent Brussels I Recast Regulation and the Hague Convention. The need to understand the nature and enforcement of choice of court agreements before the English courts from the perspective of the EU private international law regime and the Hague Convention cannot be understated. This important new study aims to fill an existing gap in the literature in relation to an account of choice of court agreements which explores and reconnects arguments drawn from international legal theory with legal practice. However, the scope of the work remains most relevant for cross-border commercial lawyers interested in crafting pragmatic solutions to the conflicts of jurisdictions.

### **AN INTRODUCTION TO THE LAW ON FINANCIAL INVESTMENT**

---

[Bloomsbury Publishing](#) Since the publication of the first edition of this book in 2005, the world of financial investment has experienced an unprecedented boom followed by a spectacular bust. Significant changes have been proposed and in some cases implemented in areas such as the structure of regulation, the organisation of markets, supervision of market participants and the protection of consumers. The second edition takes account of these developments, integrating them into an analytical framework that enables the reader to develop a critical overview of the role of general legal rules and specialised systems of regulation in financial investment. The framework focuses on the role of contract, trusts and regulation as the primary legal influences for financial investment. The first part explores the relationship between investment, law and regulation. The second part examines the nature of investments and investors, both professional and private. The third part discusses the central role of corporate finance and corporate governance in linking

investors with enterprises that require external capital. The fourth part examines the nature, operation and regulation of markets and the participants that support the functioning of the markets. The objective remains to provide a broadly-based and critical account of the role of law in financial investment. "MacNeil's eloquent and informative distillation of the regulatory fundamentals of investment law gives his book much international relevance...a timely contribution to help readers decipher the seemingly inextricable maze of financial regulation...Practitioners and legal policy advisers will..welcome it. They should find enlightening the book's careful scrutiny of the trust and contractual foundations of investment law and practice." Benjamin J Richardson *Journal of International Banking Law and Regulation*, Vol 22 Issue 1, 2007 ...a fascinating and informative book...thoroughly recommended as a learned but at the same time very readable introduction to the law of financial investment Gerard McCormack *Banking and Finance Law Review*, Volume 21 No 2, June 2006 ...very informative tool that introduces in a very friendly and accessible manner the nearly inextricable world of financial investment laws. ### **ATIYAH'S INTRODUCTION TO THE LAW OF CONTRACT**

---

OUP Oxford Atiyah's Introduction to the Law of Contract is a well-known text through which thousands of university students have first encountered the law of contract, and the new edition has long been eagerly awaited by university teachers and students. This sixth edition, updated by Stephen Smith, continues to provide readers with an introduction to the theories, policies, and ideas that underlie the law, placing an equal emphasis on the law and critical analysis. In particular, the discussion of recent cases and legislation is centred on why contract law is the way it is, whether it can be justified, and, if not, what should be done to improve it. The sixth edition has been revised to place the law of contract in a modern context and to account for recent developments in the law, as well as those in academic thinking and writing. Addressing European influences and including perspectives from comparative law, this remains a stimulating and authoritative exposition of the modern law of contract.
