Heman Allen, M. C., of Milton and Burlington, Vermont; Captain Jonathan Bixby, Sr. of Killingly, Conn Music and History Bridging the Disciplines** Univ. Press of Mississippi This book begins with a simple question: Why haven't historians and musicologists been talking to one another? Historians frequently look to all aspects of human activity, including music, in order to better understand the past. Musicologists inquire into the social, cultural, and historical contexts of musical works and musical practices to develop theories about the meanings of compositions and the significance of musical creation. Both disciplines examine how people represent their experiences. This collection of original essays, the first of its kind, argues that the conversation between scholars in the two fields can become richer and more mutually informing. The volume features an eloquent personal essay by historian Lawrence W. Levine, whose work has inspired a whole generation of scholars working on African American music in American history. The first six essays address widely different aspects of musical culture and history ranging from women and popular song during the French Revolution to nineteenth-century music publishing in Philadelphia, Pennsylvania. Two additional essays by scholars outside of musicology and history represent a new kind of disciplinary bridging by using the methods of cultural studies to look at cross-dressing in nineteenth- and early twentieth-century opera and blues responses to lynching in the New South. The last four essays offer models for collaborative, multidisciplinary research with a special emphasis on popular music. Jeffrey H. The Worcester Directory Containing a General Directory of the Citizens, a Business Directory and the City and County Register The Real Life of Mary Ann Evans George Eliot, Her Letters and Fiction Cornell University Press Bodenheimer defines the personal paradoxes that helped to shape Eliot's fictional characters and narrative style. Bodenheimer revisits pivotal episodes in Mary Ann Evans's life and career, including the "Holy War" through which she asserted her youthful religious skepticism; her decision to elope with the married writer George Henry Lewes; and her marriage with John Cross after Lewes's death. Bodenheimer also discusses the rumor campaign that led to the discovery that "George Eliot" was a woman, and she traces the trajectory of Eliot's impassioned conflict between her ambition and her womanhood. **Catalog of Copyright Entries Third series Documents** Contains bills and other legislative documents. **The American Descendants of Henry Luce of Martha's Vineyard Social Register Scientific and Technical Aerospace Reports The Worcester Directory Masterless Mistresses The New Orleans Ursulines and the Development of a New World Society, 1727-1834** UNC Press Books During French colonial rule in Louisiana, nuns from the French Company of Saint Ursula came to New Orleans, where they educated women and girls of European, Indian, and African descent, enslaved and free, in literacy, numeracy, and the Catholic faith. Although religious women had gained acceptance and authority in seventeenth-century France, the New World was less welcoming. Emily Clark explores the transformations required of the Ursulines as their distinctive female piety collided with slave society, Spanish colonial rule, and Protestant hostility. The Ursulines gained prominence in New Orleans through the social services they provided--schooling, an orphanage, and refuge for abused and widowed women--which also allowed them a self-sustaining level of corporate wealth. Clark traces the conflicts the Ursulines encountered through Spanish colonial rule (1767-1803) and after the Louisiana Purchase, as Protestants poured into Louisiana and were dismayed to find a powerful community of self-supporting women and a church congregation dominated by African Americans. The unmarried nuns contravened both the patriarchal order of the slaveholding American South and the Protestant construction of femininity that supported it. By incorporating their story into the history of early America, *Masterless Mistresses* exposes the limits of the republican model of national unity. **Enochs Walk and Change, Opened in a Sermon at Lawrence-Jury in London, Febr. 7th. 1655. at the Funeral of ... Through a series of case-studies it investigates the applicability of the term to a wide range of historical settings. These include 'state interference', voluntary associations, economic decision-making, social and economic planning, the 'bourgeois public sphere', civil society in wartime, the 'inclusion' and 'exclusion' of women, and relations between the state, the voluntary sector, and individual citizens. The contributors suggest that the sharp distinction between civil society and the state, common in much continental thought, was of only limited application in a British context. They show how past understandings of the term were often very different from (even in some respects the exact opposite of) those held today, arguing that it makes more sense to understand civil society as a phenomenon that varies between different cultures and periods, rather than a universally applicable set of principles and procedures. **Marriages of Mobile County, Alabama, 1813-1855** Genealogical Publishing Com "This index contains an alphabetical listing of brides and grooms from three sources of information: Marriage & bond books #1-14 of Probate records of Mobile County; Index to marriages, 1813-1855, direct and indirect; Appendix Z-1, Peter J.
