Masterpieces of Swiss Entrepreneurship

Swiss SMEs Competing in Global Markets

Springer Nature This open access book focuses on Switzerland-based medium-sized companies with a longstanding export tradition and a proven dominance in global niche markets. Based upon in-depth documentation and analysis of 36 Swiss companies over their entire history, an expert team of authors presents several parallels in the pathways and success factors which allowed these firms to become dominant and operate from a high-cost location such as Switzerland. The book enhances these insights by providing detailed company profiles documenting the company history, development, and how their relevant global niche positions were reached. Readers will benefit from these profiles as they compile a diverse selection of industries, mainly active within the B2B sector, with mostly mature companies (60 years to older than 100 years since founding) and different types of ownership structures including family firms. 'Masterpieces of Swiss Entrepreneurship' brings unique learning opportunities to owners and leaders of SMEs in Switzerland and elsewhere. Findings are based on detailed bottom-up research of 36 companies -- without any preconceived notions. The book is both conceptual and practical. It fosters understanding for different choices in development pathways and management practices. Matti Alahuhta, Chairman DevCo Partners, ex-CEO Kone, Board member of several global listed companies, Helsinki, Finland Start-up entrepreneurs need proven models from industry which demonstrate the various paths to success. "Masterpieces of Swiss Entrepreneurship" provides deep insights highlighting these models and the important trade-offs entrepreneurial teams must consider when choosing the path of high growth or of maximum control, as they are often mutually exclusive. Gina Domanig, Managing Partner, Emerald Technology Ventures, Zurich

Building on Values

The Future of Health Care in Canada

Saskatoon : Commission on the Future of Health Care in Canada In April 2001, the Prime Minister established the Commission on the Future of Health Care in Canada. Its mandate was to review medicare, engage Canadians in a national dialogue on its future, and make recommendations to enhance the system's quality and sustainability. The 47 recommendations in this report outline actions that must be taken in 10 critical areas, starting by renewing the foundations of medicare and considering Canada's role in improving health around the world.

Patient Involvement in Health Technology Assessment

Springer This is the first book to offer a comprehensive guide to involving patients in health technology assessment (HTA). Defining patient involvement as patient participation in the HTA process and research into patient aspects, this book includes detailed explanations of approaches to participation and research, as well as case studies. Patient Involvement in HTA enables researchers, postgraduate students, HTA professionals and experts in the HTA community to study these complementary ways of taking account of patients' knowledge, experiences, needs and preferences. Part I includes chapters discussing the ethical rationale, terminology, patient-based evidence, participation and patient input. Part II sets out methodology including: Qualitative Evidence Synthesis, Discrete Choice Experiments, Analytical Hierarchy Processes, Ethnographic Fieldwork, Deliberative Methods, Social Media Analysis, Patient-Reported Outcome Measures, patients as collaborative research partners and evaluation. Part III contains 15 case studies setting out current activities by HTA bodies on five continents, health technology developers and patient organisations. Each part includes discussion chapters from leading experts in patient involvement. A final chapter reflects on the need to clearly define the goals for patient involvement within the context of the HTA to identify the optimal approach. With cohesive contributions from more than 80 authors from a variety of disciplines around the globe, it is hoped this book will serve as a catalyst for collaboration to further develop patient involvement to improve HTA. "If you're not involving patients, you're not doing HTA!" - Dr. Brian O'Rourke, President and CEO of CADTH, Chair of INAHTA

Guidance Manual for the Valuation of Regulating Services

UNEP/Earthprint

Propaganda

Ig Publishing With politics taking centre stage due to the US presidential election, the time is perfect for a reprint of this classic work from Edward Bernays, the father of public relations and political spin and the man who designed the ad campaign that got the United States involved in World War I. Written in 1928, this was the first book to discuss the manipulation of the masses and democracy by government spin and propaganda.

Implementing Inclusive Education

A Commonwealth Guide to Implementing Article 24 of the UN Convention on the Rights of Persons with Disabilities

Commonwealth Secretariat This revised and expanded second edition of Implementing Inclusive Education shows how Commonwealth countries are attempting to undertake inclusion in education, and will encourage all those charged with ensuring education for all to make certain that disabled children are fully included in all aspects of the education system.

Twelve Years a Slave

Prabhat Prakashan "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

OECD Employment Outlook 2014

OECD Publishing The OECD Employment Outlook 2014 includes chapters on recent labour market developments with a special section on earnings, job quality, youth employment, and forms of employment and employment protection.

Ageing and Pension Reform Around the World

Evidence from Eleven Countries

Edward Elgar Publishing This is an admirable example of a multi-authored comparative book. The two editors set the scene very carefully in the opening chapter and the subsequent chapters follow the framework set out and use the concepts explored there. In this never simple policy area, national systems are explained as clearly as possible by each author. *Michael Hill, Journal of Social Policy* This is an enlightening introduction to the global dimensions and complexity of pension reform. Recommended. J.F. O Connell, *Choice* Population ageing and the resulting pressures on existing pension systems constitutes one of the most important challenges modern societies will have to face over the coming decades. Although governments have responded to such pressures by adopting a plethora of pension reforms, the adaptation process is far from over. This book comprehensively documents developments in pension policy in eleven advanced industrial countries in Western Europe, East Asia and North America. In order to explore what population ageing means for the sustainability of pension systems, the authors present a detailed review of pension policy making over the past two decades and provide up-to-date analysis of current pension legislation. They examine the factors that can facilitate or impede the adaptation of pension systems and the features that shape and determine reforms. They also highlight the fact that although the path of reform taken by each country is somewhat different, the processes at work are often very similar. Ageing populations throughout the world are extremely reluctant to see their pension systems dismantled and are therefore prepared to mobilise in their defence. This process of mobilisation interacts with demographic pressures and institutional constraints to help determine the future direction of pension policy. The breadth of geographic coverage provides an almost global picture of the impact of ageing on pension reform, at least in terms of high income countries. Academics and students with an interest in economics, social policy, sociology and political science will find this a worthwhile and rewarding volume. It will also be of value to policymakers interested in how the problem of unsustainable pension systems can be resolved.

Uranium for Nuclear Power

Resources, Mining and Transformation to Fuel

Woodhead Publishing **Uranium for Nuclear Power: Resources, Mining and Transformation to Fuel** discusses the nuclear industry and its dependence on a steady supply of competitively priced uranium as a key factor in its long-term sustainability. A better understanding of uranium ore geology and advances in exploration and mining methods will facilitate the discovery and exploitation of new uranium deposits. The practice of efficient, safe, environmentally-benign exploration, mining and milling technologies, and effective site decommissioning and remediation are also fundamental to the public image of nuclear power. This book provides a comprehensive review of developments in these areas. Provides researchers in academia and industry with an authoritative overview of the front end of the nuclear fuel cycle Presents a comprehensive and systematic coverage of geology, mining, and conversion to fuel, alternative fuel sources, and the environmental and social aspects Written by leading experts in the field of nuclear power, uranium mining, milling, and geological exploration who highlight the best practices needed to ensure environmental safety

Comprehensive Health Insurance

Billing, Coding and Reimbursement with Pearson Etext for Mibc--Access Card Package

Prentice Hall "COMPREHENSIVE HEALTH INSURANCE: BILLING, CODING & REIMBURSEMENT, 2/e" provides students with the knowledge and skills needed to work in a variety of medical billing and coding positions in the medical field. Comprehensive in approach, it covers the foundations of insurance, billing, coding and reimbursement. Students learn not only the submission of claims to the insurance carrier, but also reviewing medical records, verifying patient benefits, submitting a secondary claim, posting payments and appealing the insurance carrier's decision. This edition includes new chapters devoted to HIPAA and ICD-10-CM Medical Coding, as well as outstanding coverage of electronic records. Numerous case studies and patient files are included throughout and demonstrate refunds and appeals, auditing and compliance, Medicare calculations and professionalism.

Culture Shock!

Australia

Whether you're conducting business, traveling for pleasure, or even relocating abroad, one mistake with customs or etiquette can leave a bad taste in everyone's mouth. International travelers, now more than ever, are not just individuals from the United States, but ambassadors and impression makers for the country as a whole. Newly updated, redesigned, and resized for maximum shelf appeal for travelers of all ages, Culture Shock country and city guides make up the most complete reference series for customs and etiquette you can find. These are not just travel guides; these are guides for a way of life.

World Economic Outlook, October 2015

Adjusting to Lower Commodity Prices

International Monetary Fund This issue discusses a number of factors affecting global growth, as well as growth prospects across the world's main countries and regions. It assesses the ongoing recovery from the global financial crisis in advanced and emerging market economies and evaluates risks, both upside and downside, including those associated with commodity prices, currency fluctuations, and financial market volatility. A special feature examines in detail causes and implications of the recent commodity price downturn; analytical chapters look at the effects of commodity windfalls on potential output and of exchange rate movements on trade.

Achtung-Panzer!

The Development of Armoured Forces, Their Tactics and Operational Potential

Arms & Armour This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Inclusive Wealth Report 2018

Measuring Progress Towards Sustainability

Routledge The Inclusive Wealth Index provides important insights into long-term economic growth and human well-being. The Index measures the wealth of nations through a comprehensive analysis of a country's productive base and the country's wealth in terms of progress, well-being and long-term sustainability. It measures all assets which human well-being is based upon, in particular, produced, human and natural capital to create and maintain human well-being over time.

The Historic Fort Worth Stockyards

With breathtaking color photography and absorbing historical detail, Carolyn Brown and J'Nell Pate tell the story of the Fort Worth Stockyards, the place that earned the city the nickname "Cowntown." From the rise of the stockyards as a vital railhead for the ranching industry through the postwar decline and rebirth as a National Historic District, first-time visitors and long-time acquaintances will find this chronicle engaging and enjoyable. Brown and Pate accompany readers through the early days of settlement, the cattle drives that saw thousands of head of livestock going up the trail through what was then little more than a frontier outpost, and the rising tide of industry that accompanied the arrival of the railroads. Continuing after World War II when the changes in the livestock industry led to decline of their importance, the stockyards, once a bustling, vital part of the regional culture and economy, fell into slow decay. In 1976, citizens banded together to create a National Historic District. Today, the Fort Worth Stockyards attract thousands of visitors from all over the world with restaurants, entertainment venues, and the world's only twice-daily longhorn cattle drive along East Exchange Avenue. Brown's lens captures the vibrancy of today's stockyards while Pate's research depicts the drama of the area's rise, fall, and rebirth. The Historic Fort Worth Stockyards provides a visual and factual tour of an unforgettable place where heritage is celebrated and preserved.

Report of the Department of Health

Understanding Mattessich and Ijiri

A Study of Accounting Thought

Emerald Group Publishing Richard Mattessich's *Accounting and Analytical Methods* (1964) and Yuji Ijiri's *Theory of Accounting Measurement* (1975) are two classic works of American accounting literature written by eminent scholars. Mattessich's work contributed to the debate around the role of accountants in designing systems, and it made a sweeping case for accounting as a management science within an emerging interdisciplinary movement. Ijiri focused on proposing a theory of conventional accounting as an accounting system, which has facilitated accountability among interested parties during five centuries. Understanding Mattessich and Ijiri takes a 21st-century view of these authors and their work, which was well ahead of its time in the challenges it offered to formidable institutional arrangements. This volume revivifies Mattessich's and Ijiri's emphases on processes and circumstances irreducible to rigorous study, which since the 1960s has been the primary focus of accounting literature, and it re-examines important axiomatic views as foundations for accounting research, views to which both scholars dedicated their early careers. Ultimately, this work examines how their ideas fit with emerging economic theories and technologies which neither could have foreseen, and which now compete for attention when it comes to understanding the intricacy of capital and income measurement.

The Fair Fight

Hachette UK I sat before my tambour hoop but I did not sew. I thought of split lips, flying teeth and red blood on white linen. Born in a Bristol brothel at the end of the eighteenth century, Ruth Webber, her toe upon the scratch, is ready to face all comers. Lady Charlotte Sinclair, scarred with small pox and bullied by her boorish brother, is on the verge of smashing the bonds of convention that have held her for so long. George Bowden, without inheritance or title, is prepared to do whatever it takes to make his way in the world. Let the fight begin . . .

An Integrated Approach to New Food Product Development

CRC Press New products often fail not because they are bad products, but because they don't meet consumer expectations or are poorly marketed. In other cases, the marketing is spot on, but the product itself does not perform. These failures drive home the need to understand the market and the consumer in order to deliver a product which fulfills the two equa

Action Learning in Schools

Reframing teachers' professional learning and development

Routledge Teaching is becoming increasingly complex in the 21st Century, creating a need for more sophisticated frameworks to support teachers' professional learning. Action learning is one such framework and has been used for workplace learning in business settings for many years. It is now becoming increasingly popular in school and university settings, but it is often misunderstood. This book clarifies what action learning is, linking key concepts to illustrate that it is not merely a process, but a dynamic interaction between professional learning, communities, leadership and change. The book brings together more than a decade of the authors' research in school-based action learning. Rich and diverse, the research draws on more than 100 case studies of action learning by teams of teachers in schools. The authors: provide practical advice on how to initiate and sustain action learning; explain the interaction between action learning, teacher development, professional learning, community building, leadership and change; and illustrate how action learning can link to classroom practice so closely that it becomes part of what teachers do, rather than an added impost. Addressing the highs and lows, the successes and failures, and their underlying causes, *Action Learning in Schools* provides insights into theories of cooperation, innovation, leadership and community formation to inform individual projects and large-scale school improvement initiatives. It will be of interest to teacher educators, pre-service and experienced teachers alike, as well as school and education system managers and policymakers keen to enhance teacher professional learning and educational outcomes for students.

Global Status Report on Noncommunicable Diseases 2014

This global status report on prevention and control of NCDs (2014), is framed around the nine voluntary global targets. The report provides data on the current situation, identifying bottlenecks as well as opportunities and priority actions for attaining the targets. The 2010 baseline estimates on NCD mortality and risk factors are provided so that countries can report on progress, starting in 2015. In addition, the report also provides the latest available estimates on NCD mortality (2012) and risk factors, 2010-2012. All ministries of health need to set national NCD targets and lead the development and implementation of policies and interventions to attain them. There is no single pathway to attain NCD targets that fits all countries, as they are at different points in their progress in the prevention and control of NCDs and at different levels of socioeconomic development. However all countries can benefit from the comprehensive response to attaining the voluntary global targets presented in this report.--Publisher description.

Arabs Down Under

Garnet Publishing Ibrahim, a freelance journalist from Arabia, has always been deeply aware of his rich Arabian heritage and history but has become disillusioned and disheartened by the seemingly incessant onslaught of Western suspicion, abuse and adverse media attention thrust upon his people. To Ibrahim and his family, it seems as if Western paranoia and prejudice against the Arab has become set in stone. It is to escape this climate of hostility that Ibrahim decides to take his wife, two sons and three daughters on a holiday away from the heat of the Middle Eastern summer and visit an old journalist friend, Mark, a staunch Englishman who has retired to New Zealand. There, they could assimilate a new culture, meet new people with new ideas, and see a land seldom visited by their fellow Arabs and which has therefore remained untouched by the long tentacles of the Islamic extremist. In the weeks that follow, Ibrahim discusses with his old friend the ticklish questions of Western misconception, misunderstanding and the perceived inequalities of his race. Together they are able to dispel the myths and identify the areas of ignorance that prevail in the West and which do so much damage to the image of the Arab. Above all, Ibrahim is able to nurture within his young teenage offspring the seeds of a brighter future, one within which peace and reconciliation between the worlds of Islam and the West are of paramount importance.

Autism Diagnostic Observation Schedule

ADOS : Manual Microchip Diagnostics Methods and Protocols

Humana This volume illustrates how microfluidic approaches can meet the requirement of clinical diagnosis based on molecular or cellular biomarkers. **Microchip Diagnostics: Methods and Protocols** is divided into four sections describing the business aspects of the microfluidic-based systems for diagnosis, demonstrating how versatile microfluidics can be regarding to protein bioassay integration, presenting microfluidic approaches for nucleic analysis based on mono or diphasic format, and highlighting recent contributions. Written in the highly successful *Methods in Molecular Biology* series format, chapters include introductions to their respective topics, lists of the necessary materials and reagents, step-by-step, readily reproducible laboratory protocols, and tips on troubleshooting and avoiding known pitfalls.

Green-lite

Complexity in Fifty Years of Canadian Environmental Policy, Governance, and Democracy

McGill-Queen's Press - MQUP Anchored in the core literature on natural resources, energy production, and environmental analysis, *Green-lite* is a critical examination of Canadian environmental policy, governance, and politics drawing out key policy and governance patterns to show that the Canadian story is one of complexity and often weak performance. Making a compelling argument for deeper historical analysis of environmental policy and situating environmental concerns within political and fiscal agendas, the authors provide extended discussions on three relatively new features of environmental policy: the federal-cities and urban sustainability regime, the federal-municipal infrastructure regime, and the regime of agreements with NGOs and businesses that often relegate governments to observing participants rather than being policy leaders. They probe the Harper era's muzzling of environmental science and scientists, Canada's oil sands energy and resource economy, and the government's core Alberta and Western Canadian political base. The first book to provide an integrated, historical, and conceptual examination of Canadian environmental policy over many decades, *Green-lite* captures complex notions of what environmental policy and green agendas seek to achieve in a business-dominated economy of diverse energy producing technologies, and their pollution harms and risks.
