The Quest for Artificial Intelligence

Cambridge University Press Artificial intelligence (AI) is a field within computer science that is attempting to build enhanced intelligence into computer systems. This book traces the history of the subject, from the early dreams of eighteenth-century (and earlier) pioneers to the more successful work of today's AI engineers. AI is becoming more and more a part of everyone's life. The technology is already embedded in face-recognizing cameras, speech-recognition software, Internet search engines, and health-care robots, among other applications. The book's many diagrams and easy-to-understand descriptions of AI programs will help the casual reader gain an understanding of how these and other AI systems actually work. Its thorough (but unobtrusive) end-of-chapter notes containing citations to important source materials will be of great use to AI scholars and researchers. This book promises to be the definitive history of a field that has captivated the imaginations of scientists, philosophers, and writers for centuries.

Poems from the Edge of Extinction

The Beautiful New Treasury of Poetry in Endangered Languages, in Association with the National Poetry Library

Hachette UK Gold Medal Winner for Poetry and Special Honours Award for Best of Anthology at the 2020 Nautilus Book Awards. One language is falling silent every two weeks. Half of the 7,000 languages spoken in the world today will be lost by the end of this century. With the loss of these languages, we also lose the unique poetic traditions of their speakers and writers. *Poems from the Edge of Extinction* gathers together 50 poems in languages from around the world that have been identified as endangered; it is a celebration of our linguistic diversity and a reminder of our commonalities and the fundamental role verbal art plays in human life around the world. With poems by influential, award-winning poets such as US poet laureate Joy Harjo, Hawad, Valzhyna Mort, and Jackie Kay, this anthology offers a unique insight into both languages and poetry, taking the reader on an emotional, life-affirming journey into the culture of these beautiful languages. Each poem appears in its original form, alongside an English translation, and is accompanied by a commentary about the language, the poet and the poem - in a vibrant celebration of life, diversity, language, and the enduring power of poetry. This timely collection is passionately edited by widely published poet and UK National Poetry Librarian, Chris McCabe, who is also the founder of the Endangered Poetry Project, a major project launched by London's Southbank Centre to collect poetry in the world's disappearing languages, and introduced by Dr Mandana Seyfeddinipur, Director of the Endangered Languages Documentation Programme and the Endangered Languages Archive at SOAS University of London, and Dr Martin Orwin, Senior Lecturer in Somali and Amharic, SOAS University of London. Languages included in the book: Assyrian; Belarusian; Chimiini; Irish Gaelic; Maori; Navajo; Patua; Rotuman; Saami; Scottish Gaelic; Welsh; Yiddish; Zoque. Poets included in the book: Joy Harjo; Hawad; Jackie Kay; Aurélie Lassaque; Nineb Lamassu; Gearóid Mac Lochlainn; Valzhyna Mort; Laura Tohe; Taniel Varoujan; Avrom Sutzkever.

Bone and Joint Infections

From Microbiology to Diagnostics and Treatment

John Wiley & Sons Infections of the bones (osteomyelitis) and joints (septic arthritis) are serious health problems which require antibiotics and often surgery. Awareness among health professionals of the causes and treatment options for various types of bone and joint infections is essential for effective resolution. *Bone and Joint Infections* takes a multidisciplinary approach in covering the diagnostic and therapeutic treatment of osteomyelitis and septic arthritis, including different types of implant-associated infections. Correct and rapid diagnosis of bone and joint infection is crucial and requires the input of a variety of specialists. *Bone and Joint Infections* takes a similarly collaborative and comprehensive approach, including chapters authored by clinicians, laboratory specialists, and surgeons. Covering the basic microbiology and clinical aspects of bone and joint infection, this book will be a valuable resource both for researchers in the lab and for physicians and surgeons seeking a comprehensive reference on osteomyelitis and septic arthritis. • Covers bone and joint infections with and without different types of implants from a multidisciplinary perspective • Each chapter covers the microbiology, clinical features, imaging procedures, diagnostics, and treatment for a given condition • Includes both adult and pediatric bone and joint infection • Discusses implant-associated infections as well as native infections

Hitler's Horses

The Incredible True Story of the Detective who Infiltrated the Nazi Underworld

Random House The true story of a detective, two bronze horses and the dictator who set the world on fire. When detective Arthur Brand is summoned to a meeting with one of the most dangerous men in the art world, he learns that a clue has emerged that could solve one of the Second World War's unexplained mysteries: what really happened to the Striding Horses, Hitler's favourite statue, which disappeared during the bombing of Berlin. As Brand goes undercover to find the horses, he discovers a terrifying world ruled by neo-Nazis and former KGB agents, where Third Reich memorabilia sells for millions of dollars. The stakes get ever higher as Brand carefully lays his trap to catch the criminal masterminds trying to sell the statue on the black market. But who are they? And will he manage to bring them to justice before they discover his real identity? With a plot worthy of John Le Carré, Hitler's Horses is a thrilling retelling of one of history's most extraordinary heists.

Biotechnology Deals

Key Strategies for M&A, Financings, and Partnerships in the Biotech Industry

Inside the Minds: Biotechnology Deals is an authoritative, insider's perspective on the issues surrounding biotech deals, including mergers and acquisitions, collaborations, and the future of doing successful deals. Featuring lawyers, CEOs of funded biotech companies, and venture capitalists who invest in them, this book provides a broad, yet comprehensive overview of the art of doing successful deals from the experts themselves. From finding and capitalizing on opportunities to completing the deal, these authors articulate the finer points around doing biotech deals now and what will hold true into the future. The different niches represented and the breadth of perspectives presented enable readers to get inside some of the great legal minds of today as experts offer up their thoughts around the keys to success within this fascinating area. About *Inside the Minds: Inside the Minds* provides readers with proven business intelligence from C-Level executives (Chairman, CEO, CFO, CMO, Partner) from the world's most respected companies nationwide, rather than third-party accounts from unknown authors and analysts. Each chapter is comparable to an essay/thought leadership piece and is a future-oriented look at where an industry, profession or topic is headed and the most important issues for the future. Through an exhaustive selection process, each author was hand-picked by the *Inside the Minds* editorial board to author a chapter for this book. This book is by: Lee R. The Patriotism of Despair

Nation, War, and Loss in Russia

Cornell University Press The sudden dissolution of the Soviet Union altered the routines, norms, celebrations, and shared understandings that had shaped the lives of Russians for generations. It also meant an end to the state-sponsored, nonmonetary support that most residents had lived with all their lives. How did Russians make sense of these historic transformations? Serguei Alex Oushakine offers a compelling look at postsocialist life in Russia. In Barnaul, a major industrial city in southwestern Siberia that has lost 25 percent of its population since 1991, many Russians are finding that what binds them together is loss and despair. *The Patriotism of Despair* examines the aftermath of the collapse of the Soviet Union, graphically described in spray paint by a graffiti artist in Barnaul: "We have no Motherland." Once socialism disappeared as a way of understanding the world, what replaced it in people's minds? Once socialism stopped orienting politics and economics, how did capitalism insinuate itself into routine practices? Serguei Alex. Oushakine offers a compelling look at postsocialist life in noncosmopolitan Russia. He introduces readers to the "neocoms": people who mourn the loss of the Soviet economy and the remonetization of transactions that had not involved the exchange of cash during the Soviet era. Moving from economics into military conflict and personal loss, Oushakine also describes the ways in which veterans of the Chechen war and mothers of soldiers who died there have connected their immediate experiences with the country's historical disruptions. The country, the nation, and traumatized individuals, Oushakine finds, are united by their vocabulary of shared pain.

Investigation Of Competition In Digital Markets

Majority Staff Report And Recommendations

Nimble Books In June 2019, the Committee on the Judiciary initiated a bipartisan investigation into the state of competition online, spearheaded by the Subcommittee on Antitrust, Commercial and Administrative Law. As part of a top-to-bottom review of the market, the Subcommittee examined the dominance of Amazon, Apple, Facebook, and Google, and their business practices to determine how their power affects our economy and our democracy. Additionally, the Subcommittee performed a review of existing antitrust laws, competition policies, and current enforcement levels to assess whether they are adequate to address market power and anticompetitive conduct in digital markets. Over the course of our investigation, we collected extensive evidence from these companies as well as from third parties totaling nearly 1.3 million documents. We held seven hearings to review the effects of market power online—including on the free and diverse press, innovation, and privacy—and a final hearing to examine potential solutions to concerns identified during the investigation and to inform this Report's recommendations. A year after initiating the investigation, we received testimony from the Chief Executive Officers of the investigated companies: Jeff Bezos, Tim Cook, Mark Zuckerberg, and Sundar Pichai. For nearly six hours, we pressed for answers about their business practices, including about evidence concerning the extent to which they have exploited, entrenched, and expanded their power over digital markets in anticompetitive and abusive ways. Their answers were often evasive and non-responsive, raising fresh questions about whether they believe they are beyond the reach of democratic oversight. Although these four corporations differ in important ways, studying their business practices has revealed common problems.

Massachusetts Superior Court Civil Practice Jury Instructions

Saul, Doeg, Nabal, and the "Son of Jesse"

Readings in 1 Samuel 16-25

A&C Black This work examines some of the stories in 1 Sam. 16-25 with the particular focus placed on Saul, Doeg, Nabal and the "son of Jesse." It seeks to discover new meaning in the structure as well as in the characters' functions in the narratives by studying the stories synchronically and diachronically. One of the mysterious characters in 1 Samuel that has puzzled many a scholar is Nabal the Calebite. This study scrutinizes the elements of his characterization in 1 Sam. 25 and considers his abuses of the "son of Jesse", the contextual role of the geographic setting and political environment during King Saul's reign. Similarly, this volume studies the function of the character of Doeg the Edomite in 1 Sam. 21 and 22 regarding his Edomite origin, his particular business in Nob and his official status in Saul's court. The phrase the "son of Jesse" is quite important in 1 Samuel and serves a particular purpose in the thematic development in the second half of the book. Viewed against the background of the Saul/David relationship, it underscores the superiority of the Davidic person in advancing the divine plan for the nation of Israel. The determination of the book's historical context is the key to understanding the multilayered messages. The roles of history and ideology in making these stories are also considered with the proposal that the making of the book(s) of Samuel after the Exile (5th c. B.C.) might have been instigated by the writer's desire to create the context needed for further development of the messianic ideas.

Strange Fire

Publisher Page "Fracking for natural gas has turned deadly in Bradford County, Pa., and not only is the water contaminated, but people are dying. Round-the-clock operations conducted by Yukon Oil and Gas may have poisoned a residential well and threatened a town's water supply. Who is contaminating water wells in Bradford County? Why are contractors disappearing? Mike Jacobs, a 29-year old impassioned environmental lawyer with Pennsylvania's Dept. of Environmental Protection, is back in this romantically-charged environmental legal thriller about fracking and drilling for natural gas."--Amazon.

Architectural Research Methods

John Wiley & Sons A practical guide to research for architects and designers—now updated and expanded! From searching for the best glass to prevent glare to determining how clients might react to the color choice for restaurant walls, research is a crucial tool that architects must master in order to effectively address the technical, aesthetic, and behavioral issues that arise in their work. Cyber Privacy

Who Has Your Data and Why You Should Care

BenBella Books "Chilling, eye-opening, and timely, Cyber Privacy makes a strong case for the urgent need to reform the laws and policies that protect our personal data. If your reaction to that statement is to shrug your shoulders, think again. As April Falcon Doss expertly explains, data tracking is a real problem that affects every single one of us on a daily basis." —General Michael V. Hayden, USAF, Ret., former Director of CIA and NSA and former Principal Deputy Director of National Intelligence You're being tracked. Amazon, Google, Facebook, governments. No matter who we are or where we go, someone is collecting our data: to profile us, target us, assess us; to predict our behavior and analyze our attitudes; to influence the things we do and buy—even to impact our vote. If this makes you uneasy, it should. We live in an era of unprecedented data aggregation, and it's never been more difficult to navigate the trade-offs between individual privacy, personal convenience, national security, and corporate profits. Technology is evolving quickly, while laws and policies are changing slowly. You shouldn't have to be a privacy expert to understand what happens to your data. April Falcon Doss, a privacy expert and former NSA and Senate lawyer, has seen this imbalance in action. She wants to empower individuals and see policy catch up. In Cyber Privacy, Doss demystifies the digital footprints we leave in our daily lives and reveals how our data is being used—sometimes against us—by the private sector, the government, and even our employers and schools. She explains the trends in data science, technology, and the law that impact our everyday privacy. She tackles big questions: how data aggregation undermines personal autonomy, how to measure what privacy is worth, and how society can benefit from big data while managing its risks and being clear-eyed about its cost. It's high time to rethink notions of privacy and what, if anything, limits the power of those who are constantly watching, listening, and learning about us. This book is for readers who want answers to three questions: Who has your data? Why should you care? And most important, what can you do about it?

Spirituality: A Very Short Introduction

OUP Oxford It has been suggested that 'spirituality' has become a word that 'can define an era'. Why? Because paradoxically, alongside a decline in traditional religious affiliations, the growing interest in spirituality and the use of the word in a variety of contexts is a striking aspect of contemporary western cultures. Indeed, spirituality is sometimes contrasted attractively with religion, although this is problematic and implies that religion is essentially dogma, moralism, institutions, buildings, and hierarchies. The notion of spirituality expresses the fact that many people are driven by goals that concern more than material satisfaction. Broadly, it refers to the deepest values and sense of meaning by which people seek to live. Sometimes these values are conventionally religious. Sometimes they are associated with what is understood as 'the sacred' in a broader sense - that is, of ultimate rather than merely instrumental importance. This Very Short Introduction, written by one of the most eminent scholars and writers on spirituality, explores the historical foundations of the thought and considers how it came to have the significance it is developing today. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Respect the Mic

Celebrating 20 Years of Poetry from a Chicagoland High School

Penguin An expansive, moving poetry anthology, representing 20 years of poetry from students and alumni of Chicago's Oak Park River Forest High School Spoken Word Club. "Poets I know sometimes joke that the poetry club at Oak Park River Forest High School is the best MFA program in the Chicagoland area. Like all great jokes, this one is dead serious." -Eve L. Ewing, award-winning poet, playwright, scholar, and sociologist For Chicago's Oak Park and River Forest High School's Spoken Word Club, there is one phrase that reigns supreme: Respect the Mic. It's been the club's call to arms since its inception in 1999. As its founder Peter Kahn says, "It's a call of pride and history and tradition and hope." This vivid new collection of poetry and prose -- curated by award-winning and bestselling poets Hanif Abdurraqib, Franny Choi, Peter Kahn, and Dan "Sully" Sullivan -- illuminates just that, uplifting the incredible legacy this community has cultivated. Among the dozens of current students and alumni, Respect the Mic features work by NBA champion Iman Shumpert, National Youth Poet Laureate Kara Jackson, National Youth Poet Laureate Kara Jackson, National Student Poet Natalie Richardson, comedian Langston Kerman, and more. In its pages, you hear the sprawling echoes of students, siblings, lovers, new parents, athletes, entertainers, scientists, and more --all sharing a deep appreciation for the power of storytelling. A celebration of the past, a balm for the present, and a blueprint for the future, Respect the Mic offers a tender, intimate portrait of American life, and conveys how in a world increasingly defined by separation, poetry has the capacity to bind us together.

The Principle of Sufficient Reason

A Reassessment

Cambridge University Press The Principle of Sufficient Reason (PSR) says that all contingent facts must have explanation. In this 2006 volume, which was the first on the topic in the English language in nearly half a century, Alexander Pruss examines the substantive philosophical issues raised by the Principle Reason. Discussing various forms of the PSR and selected historical episodes, from Parmenides, Leibnez, and Hume, Pruss defends the claim that every true contingent proposition must have an explanation against major objections, including Hume's imaginability argument and Peter van Inwagen's argument that the PSR entails modal fatalism. Pruss also provides a number of positive arguments for the PSR, based on considerations as different as the metaphysics of existence, counterfactuals and modality, negative explanations, and the everyday applicability of the PSR. Moreover, Pruss shows how the PSR would advance the discussion in a number of disparate fields, including meta-ethics and the philosophy of mathematics.

Amid Rage

A Mike Jacobs Environmental Legal Thriller

Publisher Page "A psychotic coal mine operator and cynical neighbors with an anti-mining agenda fight out a strip mine permit battle. Mike Jacobs, a 28-year old environmental prosecutor with Pennsylvania's environmental agency, DEP, is caught between the warring factions, but is ordered to "babysit" the case. All Mike wants to do is to protect the environment and neighbors from certain harm as a result of the proposed mining. Sid Feldman, the Philadelphia lawyer for the mine operator, who oozes power and privilege, offers Mike a job midway through the proceedings. Miranda Clymer, the lawyer for the neighbors, pulls out all the stops to win Mike's affection and assistance. Mike's nearest and dearest friend, Nicky Kane is by his side as his paralegal. Mike must use all of his talents as a lawyer and rely on his discretion and courage to do what is right and not anger the political bosses for whom he works. In the cataclysmic ending, someone will die, but who?"--Amazon.
