The Wisdom of Crowds Anchor Looks at the theory that large groups have more collective intelligence than a smaller number of experts, drawing on a wide range of disciplines to offer insight into such topics as politics, business, and the environment. Smarter Than You Think A Revolutionary Approach to Teaching and Understan Simon and Schuster Imagine a dog who listens to you, comes to you, follows you, and looks to you for guidance. This ideal relationship is possible with the techniques of veteran trainer Paul Loeb. His revolutionary philosophy is simple: your dog can learn more -- and more quickly -- if information is delivered properly. Loeb's groundbreaking theories and humane, holistic teaching style will get visible results in approximately three hours. Not only will you find step-by-step methods to teach housebreaking, paper training, and the basic commands, but you'll also discover: Why one-word commands, including "No," are ineffective Why food rewards and choke chains are not good training tools Why teaching your dog to come to you is essential -- and teaching your dog to sit is not How to adapt your dog's behavior to your lifestyle -- whether you need your dog to walk without a leash, ride politely in a car, remain on your property...or do just about anything else you can imagine! Now you can have the well-behaved dog you've always wanted -- and your dog will have an owner who understands his or her language. With Smarter Than You Think, you and your dog can share the special bond of true understanding. Your Child Is Smarter Than You Think Morgan James Publishing Through years of studying superachievers, the author concludes that there are "five factors necessary for a person to succeed in school and in life: self-confidence, getting along with others, vision or a sesense of wonder, focus, and self-reflection"--Page xvi. The Wisdom of Crowds Why the Many are Smarter Than the Few and how Collective Wisdom Shapes Business, Economies, Societies, and Nations More Than a SMART Goal Staying Focused onn Student Learning Solution Tree Press Setting data-informed, high-priority SMART goals is a critical step in school improvement that is widely acknowledged. However, goals themselves don't drive improvement; they must be aligned with the school improvement process, curriculum, instruction, assessment practices, mandates, and professional development. Understand how to properly use the SMART goal process to effect change and achieve real school improvement. We will also cover the end user features and functions for entering, reporting, and analyzing your data. You will learn: - How to build an Oracle PBCS application from start to finish - How to administer and automate your solution - How to migrate to and from on-premise Hyperion Planning - All of the end user features and functions like entering plans, running business rules, sandboxing and more **A Period is More Than a Punctuation Mark! SMART SEX STUFF For Girls Gallopade International School Smart: It's More Than Just Reading and Writing It's More Than Just Reading and Writing** Lulu.com From homework, to report cards, to spring fever, school can be tough, and not just for children. School Smart is an easy to read guidebook that steers parents and educators through a school year, touching on the significant milestones encountered and explaining how best to help children navigate those experiences. Each school year is a journey through which we have the privilege of coaching our children to make smart choices. Teachers and parents have different roles, yet both are steering toward the same destination. If we think of school as a sports game, then the child is the star player and we are the coaches on the sidelines, guiding and cheering them as they fumble, score, and pass. The author, a parent and teacher, provides valuable suggestions and tools for success while also acknowledging pitfalls every teacher, parent, and student faces. **Smart and Simple Financial Strategies for Busy People** Simon and Schuster Are you too busy to pay much attention to your money? Do you worry that maybe you haven't been doing the right things? This book is for you, from Jane Bryant Quinn, the most trusted voice in personal finance today. Her classic bestseller, **Making the Most of Your Money**, guided a generation toward smart and sensible financial choices. Here she strips away the extras, choosing the best financial ideas and products available today. They're all you need to create a successful and long-lasting financial plan. It's money management the No Worry way. To start with, she tells you to forget all the complicated stuff the financial industry sells. You don't need it, it costs too much, and some of it is downright bad. It's designed to make the banks, brokers, and insurance companies rich, not you. The best ideas

(a super-short list!) are simple, low in cost, and easy to use. They're also sophisticated and smart. The strategies shown here are followed by some of the most successful planners and money managers around today, yet they're something everyone can understand. They'll give you what you need from your money -- regular savings, financial security, long-term investment growth, personal control, and best of all, peace of mind. Once you've set up a No Worry plan, you won't have to pay much attention to it. The choices you'll find here are all good ones. All you have to do is arrange for automatic payments and contributions and then get on with the rest of your busy life. You can focus your energies on your job, family, leisure, and friends, secure in the knowledge that your finances are okay. Here's what you'll do on the No Worry plan: Save more money without feeling pinched Get rid of debt the automatic way Keep yourself safe, with the right amount of insurance at the lowest cost Zero in on the right mortgage, every time Pick the best college savings plan for your kids Understand your finances, in ways you never did before Find the smartest and simplest ways of investing money, to earn superior returns over the long run The investment ideas alone will open your eyes to the newest strategies for accumulating wealth (without making big mistakes!). Jane Bryant Quinn will change the way you think about money. She has the answers busy people need. The Advanced Smart Grid: Edge Power Driving Sustainability, Second Edition Artech House Placing emphasis on practical "how-to" guidance, this cutting-edge resource provides a first-hand, insider's perspective on the advent and evolution of smart grids in the 21st century. This book presents engineers, researchers, and students with the building blocks that comprise basic smart grids, including power plant, transmission substation, distribution, and meter automation. Moreover, this forward-looking volume explores the next step of this technology's evolution. It provides a detailed explanation of how an advanced smart grid incorporates demand response with smart appliances and management mechanisms for distributed generation, energy storage, and electric vehicles. This updated second edition focuses on the disruptive impact of DER. This new edition also includes a glossary with well over 100 acronyms and terms, acknowledging the tremendous challenge for a student of smart energy and smart grid to grasp this complex industry. Unite the Tribes Leadership Skills for Technology Managers Apress Every day, customers see the results of companies where fiefdoms have formed and silos create divisional or departmental strife: poor sales and profits, and lackluster products. It's not hard to see that such companies are headed for an early grave. Regardless of the manner in which company fractures manifest themselves, tech leaders must find a way to rid their workplaces of the divisions that threaten to undermine their company's productivity, profits, and survival. That's why, in Unite the Tribes: Leadership Skills for Technology Managers, Christopher Duncan, bestselling author of The Career Programmer, provides corporate leaders with a ten-point plan for joining their company's divided ranks together in a way that helps employees achieve their goals while also accomplishing those of the company. Using the metaphors of the company as empire and the groups that form within companies as tribes, Duncan explains that the formation of tribes within an empire is unavoidable. After all, regardless of the situation in which they find themselves, human beings are social creatures who align themselves with those whose goals and motivations match their own. That's why the accountants hang together in the break room, while developers talk shop and geek culture in a watering hole down the street. Yet the job of leaders is to build a cohesive, powerful, and enduring empire by bringing all groups together in service to a shared, inspiring mission. And that goes double for tech companies, where breakthroughs create new landscapes on a daily basis. In Unite the Tribes, you will learn: How to build alliances and a spirit of unity across all levels of the company to achieve higher employee morale, greater profits, and increased productivity. How to come up with strategies that win market share as well as the hearts and minds of your employees. How to manage conflict. Why self-interest rules the day and how knowing another's wants and needs helps you achieve goals of your own. Unite the Tribes will show you, the visionary leader, how to establish an empire by convincing your tribes of a simple but crucial truth: Alone, you are weak and vulnerable. United, you are invincible. What you'll learn Readers of Unite the Tribes will learn: Practical, down-to-earth approaches to problem solving and productivity that make sense to corporate leaders who have to do real work in the real world. How to arrive at a plan for uniting the disparate groups that operate within their company when faced with the daily reality of office politics, maneuvering, ambition, incompetence, and short-term thinking. How to convey the company's purpose to employees in a way that is realistic and meaningful so that all workers can contribute to the company's greater good. Who this book is for Those serving in leadership or managerial capacities (i.e., those overseeing one or more employees) at technology companies plagued with division and dysfunction will find the solutions they need to rally their employees to join forces in Unite the Tribes. In addition, leaders and managers of companies whose cohesion is still healthy yet is being threatened with fracture will be provided with real-world strategies for reinforcing the glue that holds their company together in this practical, applications-driven guide. Table of Contents The Myth of Absolute Power Building the Future A Lasting Empire Vision Leadership Organization Mobility Competitiveness Persuasion Strategy Brilliance Morale Unite The Sugar Smart Diet Stop Cravings and Lose Weight While Still Enjoying the Sweets You Love Rodale Shrink your sugar belly and find your path to optimum health! You will: Lose up to 16 pounds and 16 inches in just 32 days Lower cholesterol, triglycerides, and blood pressure Never feel hungry Discover surprising sugar bombs along with healthy sugar swaps Indulge in 50 delicious sugar-smart recipes Learn how to enjoy sugar without triggering fatigue or weight gain or increasing the risk of diabetes, heart disease, and other ailments Discover how all this and more is possible when you get smart about sugar! Intelligent Agents V: Agents Theories, Architectures, and Languages 5th International Workshop, ATAL'98, Paris, France, July 4-7, 1998, Proceedings Springer The leading edge of computer science research is notoriously ?ckle. New trends

come and go with alarming and unflinching regularity. In such a rapidly changing world, the fact that research interest in a subject lasts more than a year is worthy of note. The fact that, after five years, interest not only remains, but actually continues to grow is highly unusual. As 1998 marked the fifth birthday of the International Workshop on Agent Theories, Architectures, and Languages (ATAL), it seemed appropriate for the organizers of the original workshop to comment on this remarkable growth, and reflect on how the world has developed and matured. The first ATAL workshop was co-located with the Eleventh European Conference on Artificial Intelligence (ECAI-94), which was held in Amsterdam. The fact that we chose an AI conference to co-locate with is telling: at that time, we expected most researchers with an interest in agents to come from the AI community. The workshop, which was planned over the summer of 1993, attracted 32 submissions, and was attended by 55 people. ATAL was the largest workshop at ECAI-94, and the clear enthusiasm on behalf of the community made the decision to hold another ATAL workshop simple. The ATAL-94 proceedings were formally published in January 1995 under the title Intelligent Agents, and included an extensive review article, a glossary, a list of key agent systems, and — unusually for the proceedings of an academic workshop — a full subject index. The high scientific and production values embodied by the ATAL-94 proceedings appear to have been recognized by the community, and resulted in ATAL proceedings being the most successful sequence of books published in Springer-Verlag's Lecture Notes in Artificial Intelligence series.

Iowa Alumni Magazine Intelligent Motion Control Proceedings of the IEEE International Workshop on Intelligent Motion Control, Boğaziçi University, Istanbul, Turkey, 20-22 August 1990 Creating Smarter Cities Routledge Drawing upon the smart experiences of "world class" cities in North America, Canada and Europe, this book provides the evidence to show how entrepreneurship-based and market-dependent representations of knowledge production are now being replaced with a community of policy makers, academic leaders, corporate strategists and growth management alliances, with the potential to liberate cities from the stagnation which they have previously been locked into by offering communities: the freedom to develop policies, with the leadership and strategies capable of reaching beyond the idea of "creative slack"; a process of reinvention, whereby cities become "smarter," in using intellectual capital to not only meet the efficiency requirements of wealth creation, but to become centres of creative slack; the political leadership capable of not only being economically innovative, or culturally creative, but enterprising in opening-up, reflexively absorbing and discursively shaping the democratic governance of such developments; the democratic governance to sustain such developments. Drawing together the critical insights from papers from a collection of leading international experts on the transition to smart cities, this book proposes to do what has recently been asked of those responsible for creating Smarter Cities. That is: provide the definitional components, critical insights and institutional means by which to get beyond the all too often self-congratulatory tone cities across the world strike when claiming to be smart and by focussing on the critical role master-plans and design codes play in supporting the sustainable development of communities. This book was published as a special issue of Urban Technology.

The Intelligence of Dogs A Guide to the Thoughts, Emotions, and Inner Lives of Our Canine Companions Simon and Schuster A revised edition of the best-selling reference on canine psychology incorporates the latest scientific findings and interviews with top breeders and trainers to enable dog lovers to evaluate a pet's intelligence, read dog body language, and adapt a training program suited to an animal's specific needs. By the author of How Dogs Think. Original. 10,000 first printing.

James Surowiecki's the Wisdom of Crowds Why the Many Are Smarter Than the Few Macat Library In The Wisdom of Crowds, New Yorker columnist, Surowiecki, explores the question of whether the many are better than an elite few - no matter their qualifications - at solving problems, promoting innovation and making wise decisions. Surowiecki's text uses multiple case studies and touches on the arenas of pop culture, sociology, business management and behavioural economics among others. Surowiecki's is a fascinating text that is key to considerations and theorisations about economics, politics and sociology.

Dominican Republic - Culture Smart! The Essential Guide to Customs & Culture Kuperard Occupying the eastern two-thirds of island of Hispaniola, the Dominican Republic has something for almost everyone - except perhaps obsessive perfectionists. If you can relax and go with the flow you will experience a land of great environmental diversity with a rich and varied culture, a turbulent history, some infuriating idiosyncrasies, and a people whose friendliness is legendary. The Dominicans are flamboyant, irrepressible, generous, headstrong, and resilient. Their culture is a distinctive mix of an easygoing Caribbean nature coupled with Latino verve and showmanship. For those who choose to break out of the confines of all-inclusive tourist resorts, Culture Smart! Dominican Republic offers a tantalizing insight into this warm, vital, and intriguing people. It takes you on a journey from the unspoiled coastline to the agricultural interior, to the imposing mountains and to the hamlets where time appears to have stood still. It then catapults you into the twenty-first century, through poverty and opulence, to the hustle and bustle of the large cities and the lifestyles of the luxury coastal tourist resorts. It offers practical advice on what to expect and to how to behave in a Dominican home, or in social and work settings. The authors of this book, both long-term residents in the Dominican Republic, have provided a unique roadmap to the interesting and challenging experiences that await you in this beautiful, varied, and complex country.

TABLE OF CONTENTS Abstract of Chapters I. THE WORSHIP OF BAAL: An Initial Look At Marcos Wealth - Page 9 The first chapter sets the tone for the rest of the book by attempting to give an idea of the magnitude of the wealth Marcos and his cronies enjoyed. The spending behavior of the Marcos family is contrasted with the poverty of the rest of the country. It is argued that wealth and poverty are the cause and effect of each other. II. THE DEVELOPMENT OF CRONY CAPITALISM - Page 66 The regime of Marcos and Imelda was not a temporary aberration from the historically established patterns of political and social behavior. The ostentation of Imelda and the corruption of Marcos merely represented in a most developed form the two anti-social traditions of the country's social and political elite. Attempts are made to go beyond ordinary notions of corruption as a

way of explaining cronyism as the defining trait of Marcos' regime, it is suggested that the phenomenon of cronyism under Marcos be viewed as the use of state power for private interests. III. THE RELATIVES AND CRONIES - Page 91 Every major economic activity was controlled by the First Family, their relatives, or cronies. These relatives and cronies acted as either as Marcos nominees or on their own behalf in key corporations and drew money from government, private, and international sources. The national coffer, the resources of private banks, international loans from multinational banks, and aid money from the US and Japan were placed at the disposal of Marcos' money-making network. Corporations owned or manned by cronies were provided extremely liberal government incentives, selectively granted tax exemptions, assigned lucrative government contracts, granted monopolies and captive markets through presidential decree, given easy and privileged access to credit from local and international financial institutions, and monopolized access to valuable market information available only to the government. When these methods did not suffice, military force was used as a factor in economic competition. This chapter presents case studies of selected cronies by outlining the activities of the following: Benedicto, Florendo, Enrile, Cojuangco, Elizalde, Silverio, Cuenca, Velasco, Disini, Lucio Tan, Yao, Gapud, Roman Cruz, the Enriquez and Panlilio families, Bienvenido and Gliceria Tantoco, the Romualdez and the Marcos families. IV. THE OVERSEAS EMPIRE - Page 365 The Marcos family and their friends built an overseas empire which rivals the magnitude of the assets of the biggest multinational corporations. Sophisticated techniques of money laundering were used to hide and transport assets out of the country to amass fortunes in Swiss bank accounts, US real estate, as well as properties in other countries. While the previous chapter documented how wealth was extracted, this chapter discusses how the wealth was transferred overseas. - V. IN LIEU OF A CONCLUSION: Of Typewriters and Flags - Page 460 Efforts by the Aquino government to recover Marcos' wealth have had dismal results. The reasons for the failure in the recovery efforts are analyzed in this chapter. The Intelligent Buyer and the Tell-tale Seller New York : Knopf Critique of American advertising practices. How to Be Richer, Smarter, and Better-Looking Than Your Parents Penguin Striking out on your own for the first time is exhilarating. But in a culture full of bad advice, predatory banks, and splurge-now-pay-later temptations, it can also be extremely dangerous—leading you to make financial decisions that could hurt you for years to come. Combine this with a slumped economy, mounds of student loans, and dubious examples from reality TV stars to politicians to your own parents, and it's no wonder so many twenty-somethings are struggling. Twenty-three-year-old Zac Bissonnette—the author of Debt-Free U—knows exactly what you're going through. He demystifies the many traps young people fall victim to in their post-college years. He offers fresh insights on everything from job hunting to buying a car to saving for retirement that will give you a foundation for a secure, stable, and happy life. In the process, he reveals why FICO scores are overrated, online job applications are a waste of time, car loans are for suckers, and credit card rewards are a scam. With detours to discuss wine connoisseurs, Really Broke Housewives, and Lenny Dykstra, Zac shows you how to make better choices today so you can be richer, smarter (and better-looking!) for years to come. The Coursing calendar, ed. by 'Stonehenge'. The Monthly Review, Or, Literary Journal The Athenaeum Journal of Literature, Science, the Fine Arts, Music and the Drama Look Smarter Than You Are with Hyperion Essbase Lulu.com Essbase is everywhere these days.
