CROSSING BORDERS

INTERNATIONAL STUDIES FOR THE 21ST CENTURY

[CQ Press](#) **Crossing Borders** helps students develop a framework for understanding the various disciplines that constitute international studies by exploring the many boundaries they knowingly (and unknowingly) cross on a daily basis. Renowned authors Harry I. Chernotsky and Heidi H. Hobbs address the diverse fields of international studies—geography, politics, economics, sociology, and anthropology—giving instructors a launching point to pursue their own disciplinary interests. This bestseller not only helps students to better grasp international affairs, but also offers advice on how they can engage with global issues through study abroad, internships, and career options. Updated thoroughly to reflect recent events and trends, the Fourth Edition assesses the COVID-19 pandemic; the use of social media to interfere in elections; the role of China in trade, investment, and finance; and the tensions surrounding persistent racial and gender inequities around the world. THE ALTERNATIVE CERTIFICATION OF TEACHERS

Criticisms of teacher education, the low economic and political costs of trying to reform schools by reforming teacher education, along with the difficulty of filling some teaching positions with persons certified in traditional ways, have fueled a movement to create alternative routes to teacher certification in the vast majority of states. This monograph seeks to inform the ongoing policy debate over when and for what purposes alternative certification of teachers should be employed and to develop lessons that might lead to increasing the effectiveness of both alternative certification and traditional programs of teacher preparation. Following an introduction, the publication consists of six articles: (1) "The Theory and Practice of Alternative Certification: Implications for the Improvement of Teaching" (Willis D. Hawley); (2) "Alternative Certification in Connecticut: Reshaping the Profession" (Traci Bliss); (3) "Alternative Certification: State

Policies in the SREB (Southern Regional Education Board) States" (Lynn M. Cornett); (4) "Los Angeles Unified School District Intern Program: Recruiting and Preparing Teachers for an Urban Context" (Trish Stoddart); (5) "Teaching and Knowledge: Policy Issues Posed by Alternate Certification for Teachers" (Linda Darling-Hammond); and (6) "The Place of Alternative Certification in the Education of Teachers" (Gary D. Fenstermacher). Selected references for each chapter are included. (LL)

NAVY COMPTROLLER MANUAL

HANDBOOK OF RESEARCH ON LESSONS LEARNED FROM TRANSITIONING TO VIRTUAL CLASSROOMS DURING A PANDEMIC

IGI Global Online instruction is rapidly expanding the way administrators and educators think about and plan instruction. In addition, due to a pandemic, online instructional practices and learning in a virtual environment are being implemented with very little training or support. Educators are learning new tools and strategies at a quick pace, and often on their own, even through resistance. It is important to explore lessons learned through the pandemic but also of importance is sharing the virtual classroom options and instruction that align to best practices when transitioning to online instruction. Sharing these will allow educators to understand and learn that virtual instruction can benefit all, even when not used out of need, and can enhance face-to-face courses in many ways. The Handbook of Research on Lessons Learned From Transitioning to Virtual Classrooms During a Pandemic is a critical reference that presents lessons instructors have learned throughout the COVID-19 pandemic including what programs and tools were found to be the most impactful and useful and how to effectively embed virtual teaching into face-to-face teaching. With difficult choices to be made and implemented, this topic and collection of writings demonstrates the learning curve in a state of survival and also lessons and resources learned that will be useful when moving back to face-to-face instruction as a tool to continue to use. Highlighted topics include the frustrations faced during the transition, lessons learned from a variety of viewpoints, resources found and used to support instruction, online learner perspectives and thoughts, online course content, and best practices in transitioning to online instruction. This book is ideal for teachers, principals, school leaders, instructional designers, curriculum developers, higher education professors, pre-service teachers, in-service teachers, practitioners, researchers, and anyone interested in developing more effective virtual and in-classroom teaching methods.
