Lawyers in Conflict

Australian Lawyers and Legal Aid

Federation Press **This book provides a comprehensive account of the modern Australian legal aid system. It charts the twists and turns of policy and practice over the past 30 years with a particular focus on: the reaction of the legal profession to conflicts and debates about legal aid policy and services and the way in which this has both reflected and accentuated major shifts in the social and political structure of the profession itself; the development of community legal centres from radical fringe organisations to accepted legal practices, which provide a 'value for money' service and work in alliance with the big city firms; the constancy of government calls for fiscal restraint and the recurrent lack of clear objectives despite widely varying approaches by different administrations.**

Congressional Record Proceedings and Debates of the ... Congress

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Protecting the Social Service Client Legal and Structural Controls on Official Discretion

Academic Press **Protecting the Social Service Client: Legal and Structural Controls on Official Discretion** examines the treatment of clients of public and private social service agencies and highlights the role of consumer protection in dealing with the existence and abuse of administrative discretion. Of particular concern is the legal rights of these social service clients — principally the poor — and how effectively these rights are being enforced. The history of due process protection (that is, by means of appeals and court hearings) is discussed and a number of legal and structural remedies are offered. Comprised of six chapters, this book begins by setting forth the issues and reviewing the experiences of client protections under the due process model, with emphasis on discretion as a key legal issue in social services. The reader is then introduced to legal theory, particularly how constitutional and statutory law defines the legal

interests of social service clients and what system of protection is provided by the law. Subsequent chapters focus on the protection of client rights in practice as well as several different legal and structural remedies to client protections. The legal protection of clients is analyzed, first from the client perspective and then from the point of view of the policymaker. This monograph is intended for social work professionals, administrators, policymakers, and advocates of the rights of people who deal with social welfare agencies.
