The combination of Austro-Hungarian, French, German, Italian, and Turkish influences gave Yugoslavia's avant-gardes a distinct character unlike those of other Eastern and Central European avant-gardes. Censorship and suppression kept much of the work far from the eyes and ears of the Yugoslav people, while language barriers and the inaccessibility of archives caused it to remain largely unknown to Western scholars. Even at this late stage in the scholarly investigation of the avant-garde, few Westerners have heard of the movements Belgrade surrealism, signalism, Yugo-Dada, and zenitism; the groups Alfa, Exat 51, Gorgona, OHO, and Scipion Nasice Sisters Theater; or the magazines Danas, Red Pilot, Tank, Vecnost, and Zvrk. The pieces in this collection offer comparative and interpretive accounts of the avant-gardes in the former Yugoslavian countries of Croatia, Serbia, and Slovenia. The book is divided into four sections: Art and Politics; Literature; Visual Art and Architecture; and Art in Motion (covering theater, dance, music, film, and video). All of the contributors live in the region and many of them participated in the movements discussed. The book also reprints a selection of the most important manifestos generated by all phases of Yugoslav avant-garde activity. **Hrvatska bibliografija Knjige. "This book is a collection of letters I've received and answered over the years from people all over the world. The letters express deep concerns about 20 different topics—including addictions, dis-ease, family relationships, the inner child, and parenting, just to name a few. Almost all of the people who have written to me have wanted to change themselves—and their world—in some way. In my replies, I've tried to be the catalyst that helps these individuals accomplish their goals. I think of myself as a stepping-stone on a pathway of self-discovery. Perhaps you will see some aspect of yourself in these pages. It is my belief that by reading about other people's challenges and aspirations, we can see ourselves and our own problems in different ways. Sometimes we can use what we learn from others to make changes in our own lives. Antichrist **Moderna vremena Razgovori o književnosti i ostalom** K. Kresimir **Family Life The Most Important Values for Living Together and Raising Children** AuthorHouse This book captures the essence of modern family life. Much has changed since our own childhoods; the good old days. Today's parents are challenged by the need to invent their own parenting style. This can only happen from within, based on our personal values and boundaries. Jesper Juul puts it very clearly: The love we feel for our children and our partners does not in itself have any value. It has no value at all until it is converted into loving behavior. Each chapter focuses on the values that form a solid platform on which to build a family: Equal dignity, Integrity, Authenticity and Responsibility. This makes family life more meaningful and parents avoid living frantically from conflict to conflict, desperately searching for quick solutions and trying to adapt to the most popular parenting technique of the day. A book full of everyday examples and practical ideas. **Dragoljub zabavan i poučan tjednik Mazeppa A Poem Authentic Happiness Using the New Positive Psychology to Realise your Potential for Lasting Fulfilment** Hachette UK 'A practical map for a flourishing life' (Daniel Goleman, author of Emotional Intelligence) In this groundbreaking, heart-lifting and deeply useful book, Martin Seligman, internationally esteemed psychologist and the father of Positive Psychology, shows us that happiness can be learned and cultivated. Yet the Balkanization of animal research has prevented us from studying the same problem in other large-brained, long-lived animals, such as hyenas and elephants, bats and sperm whales. Social complexity turns out to be widespread indeed. For example, in many animal societies one individual's innovation, such as tool use or a hunting technique, may spread within the group, thus creating a distinct culture. As this collection of studies on a wide range of species shows, animals develop a great variety of traditions, which in turn affect fitness and survival. The editors argue that future research into complex animal societies and intelligence will change the perception of animals as gene machines, programmed to act in particular ways and perhaps elevate them to a status much closer to our own. At a time when humans are perceived more biologically than ever before, and animals as more cultural, are we about to witness the dawn of a truly unified social science, one with a distinctly cross-specific perspective? **The Wanderer** MIRA When Henry Cooper inherits property in Thunder Point, Oregon, the fate of the entire small town rests on whether he decides to stay there or move on, a decision that is influenced by his growing attraction for Sarah Dupree. **Starine na sviet izdaje Jugoslavenska akademija znanosti i umjetnosti Empowering Women Every Woman's Guide to Successful Living** ReadHowYouWant.com With the 21st century upon us, many people are talking about all the "earth changes" that will occur.
