The NEW Employee Manual

A No-Holds-Barred Look at Corporate Life

Entrepreneur Press *Welcome to Corporate Life. The NEW Employee Manual is not your Dad's or Mom's employee manual. It's the new playbook for corporate survival, fitting today's realities and the challenges facing employees who join or work in large, seemingly successful companies. Those companies already issued very specific and detailed employee manuals covering everything under the sun except how to compete well in our brave new world. The NEW Employee Manual will help you navigate the Corporate (with a capital C) labyrinth. Where Corporate's manual shapes you into a dutiful cog for the good of the machine, ours helps you enhance your career for the good of, well, you ... and your company. The NEW Employee Manual should make you feel skeptical: skeptical of empty slogans, obsolete rituals, obsessive pursuits, and bigwigs' playbooks that no longer work. That alone should be worth this book's price. Skepticism, you see, is a good thing, because it is only the skeptic, only the free-thinker, only the maverick, who asks new questions and finds useful answers. So, are you a maverick or a cog?*

The Hospitalist Manual

MPPH-USA *This book is evidence-based and takes into account the modern managed care model in which the current hospitalist practices. The Hospitalist Physician is a relatively new concept within modern healthcare. As this new field evolves, so too will the educational needs of internists who have chosen to practice this discipline. This work is aimed squarely at addressing this need. Internal medicine residency programs in this country strive to equip new grads with a comprehensive set of skills for dealing with both inpatient and outpatient care. However, there remain practice management and workflow nuances that separate the traditional internist from the acute inpatient care physician, or hospitalist. These are the key areas that this work hopes to shed light upon, in addition to highlighting some of the intriguing procedural and critical care elements that hospitalist need to be strong in. It is hoped that this text will enable a physician to respond to the patients' needs in real time, providing a service which was not possible for busy primary care doctors to perform in the recent past. This book will be used as an 'in-the-field' guide for new hospitalists, focusing on two groups of readers: the new graduate from residency and the office-based internist that wishes to retrain and certify as a hospitalist physician. It is a practical text, with an illustrated procedures section, intended for use as a reference for hospital-based procedures. The Hospitalist will serve as a pocket guide for those intending to obtain rapid information on practice management principles unique to a hospitalist physician.*

Shipfitters Manual

BoD - Books on Demand "Shipfitter's Manual" has been written primarily for the benefit of student shipfitters who at the very outset of their training period realize a dire need for some suitable guide in their study of the trade. Its purpose is to provide the groundwork upon which a student may build for him-self a complete and thorough knowledge of Shipfitting by practical application of its contents. The finest book, course of instruction or staff of instructors in shipfitting can do no more than merely provide the necessary foundation for learning; the true development of a Shipfitter rests entirely with the student through individual resourcefulness, courage and initiative in solving the various trade problems that may arise and the ability to co-ordinate trade studies with practical trade experience.
