It presents an accessible "meta-language" (i.e. a language for talking about language) that is workable and usable for teachers and researchers from both language and content backgrounds, thus facilitating collaboration across content and language subject panels. Chapters 1 to 3 lay the theoretical foundation of this common meta-language by critically reviewing, systematically presenting and integrating key theoretical resources for teachers and researchers in this field. In turn, Chapters 4 to 7 focus on issues in pedagogy and assessment, and on school-based approaches to LAC and CLIL, drawing on both research studies and the experiences of front-line teachers and school administrators. Chapter 8 provides a critical and reflexive angle on the field by asking difficult questions regarding how LAC and CLIL are often situated in contexts characterized by inequality of access to the linguistic and cultural capitals, where the local languages of the students are usually neglected or viewed unfavourably in relation to the L2 in mainstream society, and where teachers are usually positioned as recipients of knowledge rather than makers of knowledge. In closing, Chapter 9 reviews the state of the art in the field and proposes directions for future inquiry. Handbook of Research on the Role of Human Factors in IT Project Management [IGI Global](#) The role humans play in the field of information technology continues to hold relevance even with the industry's rapid growth. People contribute heavily to the physical, cognitive, and organizational domain of computing, yet there is a lack of exploration into this phenomenon. Humanoid aspects of technology require extensive research in order to avoid marginalization and insufficient data. The Handbook of Research on the Role of Human

Factors in IT Project Management is a collection of innovative research on the methods and applications of the task of human characteristics in the design and development of new technology. While highlighting topics including digitalization, risk management, and task analysis, this book is ideally designed for IT professionals, managers, support executives, project managers, managing directors, academicians, researchers, and students seeking current research on the dynamics of human influence in technological projects. **Oswaal NEET (UG) Mock Test 15 Sample Question papers Physics, Chemistry, Biology (For 2023 Exam)** [Oswaal Books and Learning Private Limited](#) • Fully solved 15 sample question Papers as per the latest pattern of 2023 for PCB • Hints & Shortcuts given for tricky questions • Latest solved paper of 2022 fully solved. • NEET Solved Papers 2021 & 2022 fully solved • Mind Map: A single page snapshot of the entire chapter for longer retention • Mnemonics to boost memory and confidence • Oswaal QR Codes: Easy to scan QR codes for online content • Tips to crack NEET • Trend Analysis: Chapter-wise Genetic Resources as Natural Information Implications for the Convention on Biological Diversity and Nagoya Protocol [Routledge](#)

Demonstrating the shortcomings of current policy and legal approaches to access and benefit-sharing (ABS) in the Convention on Biological Diversity (CBD), this book recognizes that genetic resources are widely distributed across countries and that bilateral contracts undermine fairness and equity. The book offers a practical and feasible regulatory alternative to ensure the goal of fairness and equity is effectively and efficiently met. Through a legal analysis that also incorporates historic, economic and sociological perspectives, the book argues that genetic resources are not tangible resources but information. It shows that the existing preference for bilateralism and contracts reflects resistance on the part of many of the stakeholders involved in the CBD process to recognize them as such. ABS issues respond very well to the economics of information, yet as the author explains, these have been either sidelined or overlooked. At a time when the Nagoya Protocol on ABS has renewed interest in feasible policy options, the author provides a constructive and provocative critique. The institutional, policy and regulatory framework constitute "bounded openness" under which fairness and equity emerge. **Oswaal 35 Years' NEET UG Solved Papers Chapterwise & Topicwise Biology 1988-2022 (For 2023 Exam)** [Oswaal Books and Learning Private Limited](#) • Chapter-wise and Topic-wise presentation • Latest NEET Question Paper 2022- Fully solved • Chapter-wise & Topic-wise Previous Questions to enable quick revision • Previous Years' (1988-2022) Exam Questions to facilitate focused study • Mind Map: A single page snapshot of the entire chapter for longer retention • Mnemonics to boost memory and confidence • Revision Notes: Concept based study material • Oswaal QR Codes: Easy to scan QR codes for online content • Analytical Report: Unit-wise questions distribution in each subject • Two SQPs based on the latest pattern • Tips to crack NEET • Top 50 Medical Institutes Ranks • Trend Analysis: Chapter-wise XIV Mediterranean Conference on Medical

and Biological Engineering and Computing 2016 MEDICON 2016, March 31st-April 2nd 2016, Paphos, Cyprus [Springer](#)

This volume presents the proceedings of Medicon 2016, held in Paphos, Cyprus. Medicon 2016 is the XIV in the series of regional meetings of the International Federation of Medical and Biological Engineering (IFMBE) in the Mediterranean. The goal of Medicon 2016 is to provide updated information on the state of the art on Medical and Biological Engineering and Computing under the main theme “Systems Medicine for the Delivery of Better Healthcare Services”. Medical and Biological Engineering and Computing cover complementary disciplines that hold great promise for the advancement of research and development in complex medical and biological systems. Research and development in these areas are impacting the science and technology by advancing fundamental concepts in translational medicine, by helping us understand human physiology and function at multiple levels, by improving tools and techniques for the detection, prevention and treatment of disease. Medicon 2016 provides a common platform for the cross fertilization of ideas, and to help shape knowledge and scientific achievements by bridging complementary disciplines into an interactive and attractive forum under the special theme of the conference that is Systems Medicine for the Delivery of Better Healthcare Services. The programme consists of some 290 invited and submitted papers on new developments around the Conference theme, presented in 3 plenary sessions, 29 parallel scientific sessions and 12 special sessions.
