### Hacking the Xbox

### An Introduction to Reverse Engineering

*Penguin Random House LLC (No Starch)* Provides step-by-step instructions on basic hacking techniques and reverse engineering skills along with information on Xbox security, hardware, and software.

### The Infinite Playground

### A Player's Guide to Imagination

*MIT Press* In his final work, a visionary game designer reveals how a surprising range of play-based experiences can unlock our imagination and help us capture the power of fun and delight. Bernard De Koven (1941-2018) was a pioneering designer of games and theorist of fun. He studied games long before the field of game studies existed. For De Koven, games could not be reduced to artifacts and rules; they were about a sense of transcendent fun. This book, his last, is about the imagination: the imagination as a playground, a possibility space, and a gateway to wonder. The Infinite Playground extends a play-centered invitation to experience the power and delight unlocked by imagination. It offers a curriculum for playful learning. De Koven guides the readers through a series of observations and techniques, interspersed with games. He begins with the fundamentals of play, and proceeds through the private imagination, the shared imagination, and imagining the world—observing, “the things we imagine can become the world.” Along the way, he reminisces about playing ping-pong with basketball great Bill Russell; begins the instructions for a game called Reception Line with “Mill around”; and introduces blathering games—Blather, Group Blather, Singing Blather, and The Blather Chorale—that allow the player's consciousness to meander freely. Delivered during the last months of his life, The Infinite Playground has been painstakingly cowritten with Holly Gramazio, who worked together with coeditors Celia Pearce and Eric Zimmerman to complete the project as Bernie De Koven's illness made it impossible for him to continue writing. Other prominent game scholars and designers influenced by De Koven, including Katie Salen Tekinbaş, Jesper Juul, Frank Lantz, and members of Bernie's own family, contribute short interstitial essays.

Spoiler-sensitive: carefully designed to avoid spoilers, ensuring you can read without ever ruining your appreciation of the story. Instant searches: print navigation systems and an extensive index give you immediate access to the information you need. Concept art: direct from the development team and beautifully laid out

## Cheating

## Gaining Advantage in Videogames

*MIT Press* A cultural history of digital gameplay that investigates a wide range of player behavior, including cheating, and its relationship to the game industry. The widely varying experiences of players of digital games challenge the notions that there is only one correct way to play a game. Some players routinely use cheat codes, consult strategy guides, or buy and sell in-game accounts, while others consider any or all of these practices off limits. Meanwhile, the game industry works to constrain certain readings or activities and promote certain ways of playing. In Cheating, Mia Consalvo investigates how players choose to play games, and what happens when they can't always play the way they'd like. She explores a broad range of player behavior, including cheating (alone and in groups), examines the varying ways that players and industry define cheating, describes how the game industry itself has helped systematize cheating, and studies online cheating in context in an online ethnography of Final Fantasy XI. She develops the concept of "gaming capital" as a key way to understand individuals' interaction with games, information about games, the game industry, and other players. Consalvo provides a cultural history of cheating in videogames, looking at how the packaging and selling of such cheat-enablers as cheat books, GameSharks, and mod chips created a cheat industry. She investigates how players themselves define cheating and how their playing choices can be understood, with particular attention to online cheating. Finally, she examines the growth of the peripheral game industries that produce information about games rather than actual games. Digital games are spaces for play and experimentation; the way we use and think about digital games, Consalvo argues, is crucially important and reflects ethical choices in gameplay and elsewhere.

## The Meaning and Culture of Grand Theft Auto

## Critical Essays

*McFarland* The immensely popular Grand Theft Auto game series has inspired a range of reactions among players and commentators, and a hot debate in the popular media. These essays from diverse theoretical perspectives expand the discussion by focusing scholarly analysis on the games, particularly Grand Theft Auto III (GTA3), Grand Theft Auto: Vice City (GTA:VC), and Grand Theft Auto: San Andreas (GTA:SA). Part One of the book discusses the fears, lawsuits, legislative proposals, and other public reactions to Grand Theft Auto, detailing the conflict between the developers of adult oriented games and various new forms of censorship. Depictions of race and violence, the pleasure of the carnivalistic gameplay, and the significance of sociopolitical satire in the series are all important elements in this controversy. It is argued that the general perception of digital changed fundamentally following the release of Grand Theft Auto III. The second section of the book approaches the games as they might be studied absent of the controversy. These essays study why and how players meaningfully play Grand Theft Auto games, reflecting on the elements of daily life that are represented in the games. They discuss the connection

between game space and real space and the many ways that players mediate the symbols in a game with their minds, computers, and controllers.

## Nothing But Scrub

## Make Your Own Pixel Art

## Create Graphics for Games, Animations, and More!

*No Starch Press* **Make Your Own Pixel Art** is a complete, illustrated introduction to the creation of pixel art aimed at beginners just starting out right through to the experienced pixel artist wanting to enhance their skills. Hand anyone a pencil and paper and they can start drawing, but it's just as easy to draw digitally using a keyboard and mouse. With **Make Your Own Pixel Art**, pixel artist Jennifer Dawe and game designer Matthew Humphries walk you step-by-step through the available tools, pixel art techniques, the importance of shapes, colors, shading, and how to turn your art into animation. By the end of the book, you'll be creating art far beyond what's possible on paper! **Make Your Own Pixel Art** will teach you about: - Creating pixel art using the most popular art software and the common tools they provide - Drawing with pixels, including sculpting, shading, texture, and color use - The basics of motion and how to animate your pixel art creations - Best practices for saving, sharing, sketching, and adding emotion to your art With a dash of creativity and the help of **Make Your Own Pixel Art**, your digital drawings can be brought to life, shared with the world, and form a basis for a career in art, design, or the video games industry.

## Gaming Hacks

"O'Reilly Media, Inc." Aimed at avid and/or highly skilled video gamers, 'Gaming Hacks' offers a guide to pushing the limits of video game software and hardware using the creative exploits of the gaming gurus

## Click Here to Start (A Novel)

*Delacorte Press* Young fans of Ernie Cline's *Ready Player One* will love this classic video game inspired mystery filled with elements of *Escape from Mr. Lemoncello's Library* and *From the Mixed Up Files of Mrs. Basil E. Frankweiler*. What if playing video games was prepping you to solve an incredible real-world puzzle and locate a priceless treasure? Twelve-year-old Ted Gerson has spent most of his summer playing video games. So when his great-uncle dies and bequeaths him the all so-called treasure in his overstuffed junk shop of an apartment, Ted explores it like it's another level to beat. And to his shock, he finds that eccentric Great-Uncle Ted actually has set the place up like a real-life escape-the-room game! Using his specially honed skills, Ted sets off to win the greatest game he's ever played, with help from his friends Caleb and Isabel. Together they discover that Uncle Ted's "treasure" might be exactly that—real gold and jewels found by a Japanese American unit that served in World War II. With each puzzle Ted and his friends solve, they get closer to unraveling the mystery—but someone dangerous is hot on their heels, and he's not about to let them get away with the fortune. Praise for *Click Here to Start*: "As addictive as your favorite video game. I couldn't put it down."-Adam Gidwitz, New York Times bestselling author of *A Tale Dark and Grimm* "Humor, believable characters, and adventure...keeps readers in suspense to the end. A winner for mystery enthusiasts."-Kirkus Reviews "In this clever debut, Markell takes readers on a clue-filled adventure...[and] maintains an energetic, entertaining balance of character-driven narrative and tricky challenges."-Publishers Weekly "Markell's highly entertaining debut novel...is a well-paced read with fully realized and likable characters,...[and] should have strong appeal to gamers, fans of video game-based stories, and reluctant readers."-SLJ "This book will appeal to a wide audience. Readers who enjoyed Schreiber's *Game Over*, Pete Watson will enjoy the video game component; fans of Fitzgerald's *Under the Egg* will enjoy reading more about the *Monuments Men*; detective story aficionados will revel in the inclusion of *The Maltese Falcon* story. This is a great book to hand to just about any middle grade reader."-YA Books Central A School Library Guild selection An Amazon Best Books of the Month Selection

## Watch Dogs: Dark Clouds

*Ubisoft* Further explore the world of Watch Dogs with a new story, an entirely digital novel project created inside Ubisoft in collaboration with John Shirley, prolific author and pioneer of the cyberpunk movement John Shirley naturally transcribed Watch Dogs' atmosphere, the world of hacking and of a not that fictional Chicago, into a thriller combining high-tech crimes and a bunch of known and new characters. The novel introduces Mick Wolfe, a veteran, who get caught in a dangerous game in Chicago's hyper connected and violent underground. A tie in to the Watch\_Dogs game.

## .hack// Another Birth Volume 1

*TokyoPop* In order to save her younger brother, who lost consciousness while playing the online game "The World," Akira must enter the fantasy world herself, which she does as the character BlackRose.

## Metro 2035. English Language Edition.

### The Finale of the Metro 2033 Trilogy.

*Createspace Independent Publishing Platform* **World War Three** wiped out the humankind. The planet is empty now. Huge cities became dust and ashes. Railroads are being eaten by rust. Abandoned satellites hang lonely on the orbit. Radio is mute on all the frequencies. The only survivors of the last war were those who made it into the gates of the Metro, the subway system of Moscow city. It's there, hundreds of feet below the ground, in the vaults of what was constructed as the world's largest air-raids shelter that people try to outlive the end of the days. It's there that they created a new world for themselves. The stations of Metro became city-states, and its citizens, torn apart by religions and ideologies are fighting for the now scarce commodities: air, water, and space. This tiny underground world can only remind humans of an immense world they once were the masters of. It's been twenty years past Doomsday, and yet the survivors refuse to give up. The most stubborn of them keep cherishing a dream: when the radiation level from nuclear bombings subsides, they will be able to return to the surface and have the life their parents once had. But the most stubborn of the stubborn continues to search for other survivors in this huge emptiness that once was called Earth. His name is Artyom. He would give anything to lead his own people from the underground onto the surface. And he will. \*\*\* METRO 2035 continues and terminates the story of Artyom, the hero of the original Metro 2033 book and the Metro video games. Millions of readers across the world have been waiting for this novel for the long ten years. For those who have been following Artyom's adventures from the very beginning, Metro 2035 will deliver the concluding powerful part of the saga, with the ultimate part of the puzzle that can't be found anywhere else. For the new readers, Metro 2035 will become an excellent introduction into this unique fiction universe that has millions of fans across the world. \*\*\* Dmitry Glukhovsky's METRO novels have already sold millions of copies in 37 languages. They have also become a basis of cult video games 'Metro 2033' and 'Metro Last Light', and the film rights were optioned by a Hollywood studio. \*\*\* Behind the tense plot and the dark ambience of Metro 2035, there's yet another level: that of social dystopia and political satire. Metro metaphorically paints a pitiless picture of today's Russia, that is being overcast again by the dark shadows of its gruesome past. Do Russians need freedom? Do they want a war? Can they survive without an enemy? Who's to blame and can anything be done about it? Eternal questions. Fresh answers.

## .hack//XXXX

*TokyoPop* While playing the online game World, Kite, a dot hacker, is saved from a monster by a mysterious boy who falls into a coma and the only way Kite can save him is by logging back onto the computer game.

## Batman/Fortnite: Zero Point

"A crack splits the sky above Gotham City... a tear in reality itself. This rift pulls the Dark Knight into a bizarre and unfamiliar world, with no memory of who he is or where he came from...Batman has been drawn into Fortnite! \*\* This hardcover collection includes a bonus code unlocking seven DC-themed Fortnite digital items \*\* As he fights to recall his past and escape an endless loop of chaos and struggle, he'll come face-to-face with the likes of Renegade Raider, Fishstick, Bandolier, and more. While the world's greatest detective strives to make sense of this strange new world, he'll uncover the shocking truth about the Island, what lies beyond the Loop, and how everything is connected to the mysterious Zero Point. Batman/Fortnite: Zero Point uncovers secrets never before revealed in game or anywhere else! Every fan of Batman, Fortnite, stunning art and edge-of-your-seat excitement won't want to miss the Caped Crusader facing off against Fortnite champions on the Island, in a desperate attempt to save not only himself, but other familiar faces from the DCU...and perhaps the Multiverse itself!"--

## The Werewolf of Fever Swamp

*Scholastic Australia* What **BIG TEETH** you have! There is something weird happening in Fever Swamp. Something really horrible. It started with the strange howling at night. Then there was the rabbit, torn to shreds. Everyone thinks Grady's new dog is responsible. After all, he looks just like a wolf. And he seems a little on the wild side But Grady knows his dog is just a regular old dog. And most dogs don't howl at the moon. Or disappear at midnight. Or change into terrifying creatures when the moon is full. Or do they?

## Metro 2034

## The novels that inspired the bestselling games

*Hachette UK* The basis of three bestselling computer games Metro 2033 and Metro Last Light, and Metro: Exodus. The Metro books have put Dmitry Glukhovsky in the vanguard of Russian speculative fiction alongside the creator of Night Watch, Sergei Lukyanenko. A year after the events of METRO 2033 the last few survivors of the apocalypse, surrounded by mutants and monsters, face a terrifying new danger as they hang on for survival in the tunnels of the Moscow Metro. Featuring blistering action, vivid and tough characters, claustrophobic tension and dark satire the Metro books have become bestsellers across Europe.
