THE ROUTLEDGE COMPANION TO ACCOUNTING COMMUNICATION

Routledge One of the prime purposes of accounting is to communicate and yet, to date, this fundamental aspect of the discipline has received relatively little attention. The Routledge Companion to Accounting Communication represents the first collection of contributions to focus on the power of communication in accounting. The chapters have a shared aim of addressing the misconception that accounting is a purely technical, number-based discipline by highlighting the use of narrative, visual and technological methods to communicate accounting information. The contents comprise a mixture of reflective overview, stinging critique, technological exposition, clinical analysis and practical advice on topical areas of interest such as: The miscommunication that preceded the global financial crisis The failure of sustainability reporting The development of XBRL How to cut clutter With an international coterie of contributors, including a communication theorist, a Big Four practitioner and accounting academics, this volume provides an eclectic array of expert analysis and reflection. The contributors reveal how accounting communications represent, or misrepresent, the financial affairs of entities, thus presenting a state-of-the-art assessment on each of the main facets of this important topic. As such, this book will be of interest to a wide range of readers, including: postgraduate students in

management and accounting; established researchers in the fields of both accounting and communications; and accounting practitioners.

EXCEL UNIVERSITY

MICROSOFT EXCEL TRAINING FOR CPAS AND ACCOUNTING PROFESSIONALS

Createspace Independent Publishing Platform During live CPE training sessions, and through Excel articles featured in magazines such as the Journal of Accountancy and California CPA Magazine, Jeff Lenning, founder of Excel University, Inc., has shown thousands of CPAs and accounting professionals across the country how to use Excel more effectively. Drawing on his experience as an auditor, a

financial analyst in industry, an accounting manager at a public company, and a consultant, he has demonstrated how to leverage Excel in order to improve efficiency by reducing the time it takes to complete job tasks. Written to reach those he won't have the opportunity to meet in one of his CPE sessions, Lenning's series, *Excel University: Microsoft Excel Training for CPAs and Accounting Professionals*, offers a comprehensive collection of the features, functions, and techniques that are of direct benefit to accountants working in industry, public practice, consulting, or not-for-profit. Concentrating on Excel for Windows, his books offer a hands-on approach to learning and include narrative, screenshots, video content, Excel practice files, and exercises that demonstrate the practical application of the items presented in each chapter. Visit <http://www.excel-university.com> to access the Excel University video library and to download the practice files. Features, functions and techniques are presented in a sequential and progressive manner, so the books are best read in order. In Volume 1, the author presents material and information that will prove useful to every accountant, regardless of the type of work they do. Blown away by the power of Excel, readers are sure to find this series relevant, enlightening, and extremely easy-to-follow.

ACCOUNTING INFORMATION SYSTEMS FOR DECISION MAKING

Springer Science & Business Media This book contains a collection of research papers on accounting information systems including their strategic role in decision processes, within and between companies. An accounting system is a complex system composed of a mix of strictly interrelated elements such as data, information, human resources, IT tool, accounting models and procedures. Accounting information systems are often considered the instrument by default for accounting automation. This book aims to sketch a clear picture of the current state of AIS research, including design, acceptance and reliance, value-added decision making, interorganizational links, and process improvements. The contributions in this volume emphasize that AIS has grown into a powerful strategic tool. The book

provides evidence for this observation by examining a wide range of current issues ranging from theory development in AIS to practical applications of accounting information systems. In particular it focuses on themes of growing interest in the realm of XBRL and Financial Reporting, Management Information Systems, IT/IS Audit and IT/IS Compliance. The book will be of interest to financial and managerial accountants and IT/IS practitioners, including information systems managers and consultants.

INNOVATION PERFORMANCE ACCOUNTING

FINANCING DECISIONS AND RISK ASSESSMENT OF INNOVATION PROCESSES

Springer Science & Business Media For successful innovation in business the responsible managers need a consistent view of the individual processes as well as an assessment of key projects in all phases of the development. Generating new ideas, fast examination of its feasibility requires skilled methods for evaluation of these ideas, plans and especially costs and revenues. Business models, calculation methods and some assessments of certain options are presented by the authors. The ability to identify risks and appropriate responses to misperceptions are important milestones in the innovation process. From analysis of problems to the introduction of market-ready solutions, legal requirements, business demands and risk management systems are discussed. Concepts promoting uniform, binding rules for ratings in the innovation process are treated. The identification of target pricing, target costing and litigation, the evaluation of the solution to calculate risk aspects as tasks in financial

management and innovation controlling are part of the content. The authors demonstrate that any innovation in different industries requires a strategic and financial project management. Monetary assessment of the individual processes, a detailed patent portfolio and accounts management for innovation processes are of enormous importance. The book is completed by applications of the Berlin Balanced Scorecard Concept with practical examples from the innovation projects in pharmaceutical and technical business.

MASTERING PEACHTREE MADE EASY V. 2008 THROUGH 2003

TeachUcomp Inc.

ACCOUNTING AND THE GLOBAL ECONOMY AFTER SARBANES-OXLEY

Routledge This book is essential for students and practitioners in accounting, international business, finance, and economics. In a straightforward and readable style, it focuses on the changing accounting and auditing standards in national and global economies in the post-Enron/Arthur Andersen era. The authors clarify the reasons behind and consequences of the accounting profession's failure in auditing and self-regulation, as most firms placed consulting profits ahead of public audit duties. They show how Sarbanes-Oxley solutions, while not perfect, are major contributors to the profession's redemption, and have enabled it to rise to new heights of service and revenue. The book offers a detailed examination of accounting practitioners' past challenges and future prospects. It provides a realistic analysis of specific issues facing accounting and auditing firms today, including the growing problem of independence; the need for one set of international accounting standards and one set of auditing standards; adjustments facing the global financial system; and the impact of the Internet and communication systems on accounting firms.

FILEMAKER PRO 10: THE MISSING MANUAL

"O'Reilly Media, Inc." The FileMaker Pro 10 desktop database lets you do almost anything with the information you give it -- especially with this book as your guide.
