---

### **GUARDIAN ANGEL HOUSE**

---

Second Story Press **Based on the true story of two sisters sheltered from the Nazis by a group of Catholic nuns during World War II. Mama had always told twelve-year-old Susan that there was no safe place for a Jew, especially in German-occupied Hungary in 1944. Susan is skeptical and afraid when she and her little sister, Vera, are sent to a convent to be kept "safe" from the Nazis. Susan and Vera find their lives transformed and soon discover the true nature of courage when they are sheltered by a group of nuns who risk their lives to protect them. "Guardian Angel House" was the nickname given to a convent operated by the Sisters of Charity in Budapest that sheltered over 120 Jewish children in German-occupied Hungary during World War II. This book tells the story of author Kathy Clark's mother and aunt, who were sheltered there by the nuns. Includes historical photographs and notes about the author's family and the Hungarian convent that became known as "Guardian Angel House."**

Contains all the listening material to accompany each level including chants, vocabulary songs, stories and nursery rhymes.

---

## **THE STRUGGLE FOR ABORIGINAL RIGHTS**

---

---

### **A DOCUMENTARY HISTORY**

---

Routledge **The Struggle for Aboriginal Rights** is the first book of its kind. Not only does it tell the history of the political struggle for Aboriginal rights in all parts of Australia; it does so almost entirely through a selection of historical documents created by the Aboriginal campaigners themselves, many of which have never been published. It presents Aboriginal perspectives of their dispossession and their long and continuing fight to overcome this. In charting the story of Aboriginal political activity from its beginnings on Flinders Island in the 1830s to the fight over native title today, this book aims to help Australians better understand both the continuities and the changes in Aboriginal politics over the last 150 years: in the leadership of the Aboriginal political struggle, the objectives of these campaigners for rights for Aborigines, their aspirations, the sources of their programmes for change, their methods of protest, and the outcomes of their protest. Through the words of Aboriginal activists, across 150 years, **The Struggle for Aboriginal Rights** charts the relationship between political involvement and Aboriginal identity.

---

## **LAW OF CONFESSION**

---

---

### **REVOLUTIONIZE YOUR LIFE AND REWRITE YOUR FUTURE WITH THE POWER OF WORDS**

---

Destiny Image Publishers **Just like natural laws, there are spiritual laws with cause and effect. God set the universe in motion with the power of His words and established the law of confession, but many believers have suffered needlessly by misunderstanding the power of their words. Dr. Bill Winston, pastor, Bible teacher, and host of the national television program Believer s Walk of Faith broadcast to over 100 million homes, reveals scriptural examples and vital teaching on the importance of the spoken word. Believers will uncover the enemy s deceptive plan to use their own words against them and what they can do to turn their situation around. 'One of the best things that ever happened to me, my family, and my church, was the revelation of the law of confession - we learned that the moment we win the battle over our words, we win the battle!' Dr. Bill Winston Controlling your words is one of the biggest challenges anyone will face in this life; the Bible reveals that the power of life and death are in the words you say. As you begin to change the words you speak, you will rewrite their future and revolutionize your life.**

## GENE CONTROL, SECOND EDITION

---

Garland Science The new edition of Gene Control has been updated to include significant advances in the roles of the epigenome and regulatory RNAs in gene regulation. The chapter structure remains the same: the first part consists of pairs of chapters that explain the mechanisms involved and how they regulate gene expression, and the second part deals with specific biological processes (including diseases) and how they are controlled by genes. Coverage of methodology has been strengthened by the inclusion more explanation and diagrams. The significant revision and updating will allow Gene Control to continue to be of value to students, scientists and clinicians interested in the topic of gene control.

## **EVENINGS AT HOME**

---

---

### **THE JUVENILE BUDGET OPENED: LARGE PRINT**

---

A young mouse lived in a cupboard where sweetmeats were kept; she dined every day upon biscuit, marmalade, or fine sugar. Never had any little mouse lived so well. She had often ventured to peep at the family while they sat at supper; nay, she had sometimes stolen down on the carpet, and picked up the crumbs, and nobody had ever hurt her. She would have been quite happy, but that she was sometimes frightened by the cat, and then she ran trembling to the hole behind the wainscot. One day she came running to her mother in great joy. "Mother," said she, "the good people of this family have built me a house to live in; it is in the cupboard: I am sure it is for me, for it is just big enough: the bottom is of wood, and it is covered all over with wires!
