## RELIGION FOR RELUCTANT BELIEVERS

---

*Wipf and Stock Publishers* This is a volume written for persons who live in the mental world of modernity--that is, in a world that cherishes (1) freedom as the core of being human; (2) critical-thinking reason as the arbiter of what to affirm or not; (3) history, process, and dynamism at the heart of human life and society; and (4) dialogue with those who think differently yet who sense that there is somehow more to life, to reality, than meets the eye: that there is a depth or spiritual dimension not captured in our everyday experiences, which is customarily called religion. Religion for Reluctant Believers explores the meaning of life: its joys, problems, and terrors, its pluses and minuses. In short, it asks the question, do you want to buy into Religion with a capital r, into a particular religion, or into no religion at all?

## TURNING DREAMS INTO REALITY

---

*Orient Paperbacks* Dr. Radhakrishnan sketches the lives of fourteen individuals who have influenced India's life and culture significantly and altered the course of its history. Among these are social reformers like Swami Dayanand and Raja Ram Mohan Roy, political thinkers and activists like Lala Lajpat Rai, Sardar Patel, Tilak and Gokhale and a giant among scientists, Jagdis Bose. All of them had one thing in common – they broke the barriers of tradition and normalcy, and strove for noble ideals... They dreamt, and had the courage and tenacity to turn their dreams into reality.

---

## ROBO VS SUPERHUMAN

---

*shiv patel* Robo vs superhuman is fantasy but a potential condition of the rational of science. How would a man first become robot slaves? And how it will be done in the way of its display. This story begins with big bang and end with humanity and humans are finished with the destruction. Due to big bang, the origins of the universe and the origin of the planets are shown. Then god showed how humans and animals were created and the best from of god is how humans are shown. Why did human develop so much? Why not animals? She has been explained when human is away from spirituality then how he lost his particular power is mentioned. Since he started developing the technology, he made a lot of reduction in this percentage of power. How the robotics technology will affect human life and how the whole world will be destroyed in this story is shown in this story. And humans will have only one option to survive the distraction is "spirituality". Which will lead to the creation of humanity again in the new creation. Robo vs superhuman shows that human beings do not understand spiritual science at the all on time and do not fall into life, their fall is fixed. Spiritual science will be the last option to sustain life on earth. This is a small story showing how important the power of spiritual science is in future events. Because it is only in the science of spiritual science which can manifest the god who is within everyone.

## QUALITY MANAGEMENT IN HIGHER EDUCATION

*SAGE Publishing India* A timely intervention as higher education in India begins to pay equal importance to Quality, alongside Access and Equity. Indian higher education is the third largest in the world. It is undergoing unprecedented expansion and reforms. Yet, no Indian university figures among the World's Top 100! The problem lies primarily with the quality of higher education. This book serves as a quality management guide for the heads of colleges and universities, focusing on issues, techniques and improvement at the institutional level. In building up a sound framework, it effectively combines generic methods and techniques with specific mechanisms of quality assurance for in-campus activities such as curriculum planning, teaching learning processes, human resource management, infrastructure management and information and communication technologies. The author's expertise as a management scientist, trainer of heads of higher education institutes and experience of institution building gives the book an extra edge.

## HANDBOOK OF THE THEOSOPHICAL CURRENT

*BRILL* The Brill Handbook of the Theosophical Current represents pioneering research into an important but under-researched current. The three sections in this volume are devoted to the Theosophical Society, Theosophically influenced religious currents, and the interaction between Theosophy and surrounding culture.

## AN IDEALIST VIEW OF LIFE

*Harper Collins* One of the most profoundly religious books of our time - The Spectator Science is a system of second causes, which cannot describe the world adequately, much less account for it. In this remarkable treatise, Radhakrishnan explores aspects of the modern intellectual debate on science vis-a-vis religion and the vain attempts to find a substitute for religion. He discusses, drawing upon the traditions of East and West, the nature and validity of religious experience. Finally, he creates a fine vision of mans evolution and the emergence of higher values. The range of subjects combined with the authors own faith, undogmatic and free of creed, makes this book a philosophical education in itself.

---

#### **DIPLOMATIC PAPERS**

---

#### **THE BHAGAVADGĪTĀ**

---

#### **RSS AND GANDHI**

---

#### **THE IDEA OF INDIA**

---

*SAGE Publishing India* **RSS and Gandhi: The Idea of India** analyses the ideas of Gandhi and the RSS to understand how and where they converge on and diverge from each other in key questions that India continues to debate even today. The discourse on Gandhi and the RSS encompasses a fascinating debate in social, civilizational, cultural, political and religious questions which affianced the Indian minds towards nation building, both before and after independence. This book also examines their positions on issues and themes, where they

may seem standing on the same page but reflect a tangential dispersion regarding means and methods. It discounts and dispels the predominant view that Gandhi and the RSS are diametrically opposed in their ideas on India and the Indian nation.

## **RADHAKRISHNAN**

---

---

### **HIS LIFE AND IDEAS**

---

*State University of New York Press* This book presents a critical and comprehensive biography of Radhakrishnan. The authors explain how Radhakrishnan, who had a British knighthood and an Oxford Professorship, and who did not participate in India's struggle for freedom, became important in the political life of Independent India. They show how this philosophy professor and vice chancellor often expressed radical views, developed rapport with national leaders, and became President of Indian under Nehru without losing the goodwill and regard of either the British intellectuals or the colonial government of India. It is the thought of Sarvepalli Radhakrishnan that is most often presented in the West as "Hinduism." Through an analysis of his autobiographical sketches, writings of those who knew him and worked with him, and documents, the authors come to grips with Radhakrishnan's complex personality which, in spite of his greatness and varied achievements, is all too human.

## **THE KASHMIR CONFLICT**

---

---

### **FROM EMPIRE TO THE COLD WAR, 1945-66**

---

*Routledge* This book presents a study of the international dimensions of the Kashmir dispute between India and Pakistan from before its outbreak in October 1947 until the Tashkent Summit in January 1966. By focusing on Kashmir's under-researched transnational dimensions, it represents a different approach to this intractable territorial conflict. Concentrating on the global context(s) in which the dispute unfolded, it argues that the dispute's evolution was determined by international concerns that existed from before and went beyond the Indian subcontinent. Based on new and diverse official and personal papers across four countries, the book foregrounds the Kashmir dispute in a twin setting of Decolonisation and the Cold War, and investigates the international understanding around it within the imperatives of these two processes. In doing so, it traces Kashmir's journey from being a residual irritant of the British Indian Empire, to becoming a Commonwealth embarrassment and its eventual metamorphosis into a security concern in the Cold War climate(s). A princely state of exceptional geo-strategic location, complex religious composition and unique significance in the context of Indian and Pakistani notions of nation and statehood,

Kashmir also complicated their relations with Britain, the United States, Soviet Union, China, the Commonwealth countries and the Afro-Arab-Asian world. This book is of interest to scholars in the field of Asian History, Cold War History, Decolonisation and South Asian Studies.

---

## **MICROBIAL DIVERSITY IN ECOSYSTEM SUSTAINABILITY AND BIOTECHNOLOGICAL APPLICATIONS**

---

### **VOLUME 1. MICROBIAL DIVERSITY IN NORMAL & EXTREME ENVIRONMENTS**

---

*Springer* This book discusses microbial diversity in various habitats and environments, its role in ecosystem maintenance, and its potential applications (e.g. biofertilizers, biocatalysts, antibiotics, other bioactive compounds, exopolysaccharides etc.). The respective chapters, all contributed by renowned experts, offer cutting-edge information in the fields of microbial ecology and biogeography. The book explains the reasons behind the occurrence of various biogeographies and highlights recent tools (e.g. metagenomics) that can aid in biogeography studies by providing information on nucleic acid sequence data, thereby directly identifying microorganisms in various habitats and environments. In turn, the book describes how human intervention results in depletion of biodiversity, and how numerous hotspots are now losing their endemic biodiversity, resulting in the loss of many ecologically important microorganisms. In closing, the book underscores the importance of microbial diversity for sustainable ecosystems.

## **INDIAN METAPHYSICS IN LAWRENCE DURRELL'S NOVELS**

---

*Cambridge Scholars Publishing* In this study of the influence of Indian metaphysics on Lawrence Durrell's novels, Professor Nambiar offers a unique milestone in the history of Durrellian criticism. Embracing Durrell's search for universal awareness through Western and Indian metaphysics, the book presents a new metaphysical reading of the writer's prose that has remained untapped until now. Exploring Durrell's quest for a new reality through fiction, Nambiar focuses in-depth on *The Avignon Quintet* and questions the complex symbolic patterns that shape the polymorphous characters' peregrinations through space and time. With much subtlety, modesty and wit, *Indian Metaphysics in Lawrence Durrell's Novels* opens up the mysterious doors of "the kingdom of the imagination".

---

## **THE PHILOSOPHY OF HINDUISM**

---

In *The Philosophy of Hinduism*, Dr S Radhakrishnan has explained the central tenets of Hinduism, its philosophical and spiritual doctrine, religious experience, ethical character and traditional faiths. He has compared Christianity, Islam and Buddhism in the light of Hinduism and stressed that the ultimate aim of these religions is the attainment of the universal self. The articles in the book analyse religions in a highly intellectual and balanced manner befitting Dr Radhakrishnan's stature as the most distinguished scholar of comparative religion and philosophy.

---

## **THE PURSUIT OF TRUTH**

---

## THE INDIAN YEARBOOK OF COMPARATIVE LAW 2019

---

*Springer Nature* This book is a compilation of thematically arranged essays that critically analyze emerging developments, issues, and perspectives in the field of comparative law, especially in the field of comparative constitutional law. The book discusses limits and challenges of comparativism, comparative aspects of arbitral awards, cross-border consumer disputes, online hate speech, authoritarian constitutions, issues related to legal transplants, the indispensability of the idea of the concept of Rechtsstaat, interdisciplinary challenges of comparative environmental law, free exercise of religions, public interest litigation, constitutional interpretation and developments, and sustainable development in model BITs. It comprises seven parts, wherein the first part focuses on general themes of comparative law, the second part discusses private law through a comparative lens, and the third, fourth, and fifth parts examine aspects of public law with special focus on constitutional law, human rights, environmental law, and economic laws. The last part of the book covers recent developments in the field of comparative law. The book intends to seamlessly tie together discussions on both public and private law aspects of comparative law. It encourages readers to gain a nuanced understanding of the working of law, legal systems, and legal cultures while aiding deliberations on the constituents of an ideal system of law.

## OIL POLLUTION IN THE MEDITERRANEAN SEA: PART I

---

---

## THE INTERNATIONAL CONTEXT

---

*Springer* This volume offers a review of oil inputs to the Mediterranean Sea from sources such as shipping, and offshore exploration and exploitation activities. It discusses international measures to prepare for, respond to, and prevent oil pollution incidents, as well as the international legal framework and agencies with a role in pollution prevention and responses. It includes chapters on modeling the fate of oil pollution, oil spill response, and oil spill beaching probability, and presents data from a range of sources, including historic data on shipping accidents and oil exploration and exploitation activities, satellite and remote sensing data, and numerical modelling data, to provide an overview of oil pollution over several years. Topics covered include modelling of oil slicks in the eastern and western Mediterranean basins, oil exploration and exploitation activities in the waters of the Levantine Basin (Eastern Mediterranean), and signatures to and ratification of the Barcelona Convention and its Protocols, for example. Together with the companion volume *Oil Pollution in the Mediterranean Sea: Part II - National Case Studies*, it addresses both national and international measures in the region, making it of relevance to the agencies and government bodies tasked with remediating or preventing oil pollution, as well as policymakers and practitioners in the fields of shipping, ports and terminals, oil extraction and marine management. It provides researchers with essential reference material on tools and techniques for monitoring oil pollution, and serves as a valuable resource for undergraduate and postgraduate students in the field of marine oil pollution.
