As a result there has been significant economic development impacts of backpacker tourism upon local communities especially in areas with the largest concentrations of backpackers (South and South-East Asia particularly Thailand, Indonesia, Malaysia and India), as well as increasingly in Latin America. This volume provides a focused review of the economic development impacts of backpacker tourism in developing regions furthering knowledge on how backpacker tourism can play a**

crucial role in development strategies in these areas. First, it reviews the origins of the backpackers with a detailed examination of their "hippy" predecessors on the overland trail, before discussing the emergence of modern backpackers including social and cultural aspects, and how new technologies are changing their experience. It then analyses the powerful economic development impacts of backpackers on local host communities in cities and rural areas with a special focus on coastal destinations. Extensive case study material is used from backpacker destinations across Asia, Latin America and Africa. In doing so the book provides original insights into how backpacker tourism is highly significant for poverty alleviation and effective local development since it has strong linkages to the local economy, and less economic leakage than conventional tourism. Written by a leading academic in this area, this volume will be of interest to students of Tourism and Development Studies.

Imperium Structures and Affects of Political Bodies [Verso Books](#) An investigation into what makes the consistency of political groupings What should we do with the ideals of internationalism, the withering away of state and horizontality? Probably start by thinking seriously about them. That is to say, about their conditions of possibility (or impossibility), rather than sticking to the wishful thinking which believes that for them to happen it is enough to want them. Humanity exists neither as a dust cloud of separate individuals nor as a unified world political community. It exists fragmented into distinct finite wholes, the forms of which have varied considerably throughout history - the nation-state being only one among many, and certainly not the last. What are the forces that produce this fragmentation, engender such groupings and prevent them from being perfectly horizontal, but also lead them to disappear, merge, or change form? It is questions such as these that this book explores, drawing on Spinoza's political philosophy and especially his two central concepts of multitud and imperium.

Houellebecq has become a global publishing phenomenon: his books have been translated worldwide, three film adaptations of his work have been produced, and the author has been the subject of million-euro publishing deals and of successive media scandals in France. If Houellebecq is unique in contemporary French writing, it is thanks not only to his extraordinary success, but to the unparalleled scope of his narrative ambition. In the work which most forcefully marked his breakthrough to the mainstream - *Les Particules élémentaires* - Houellebecq made a significant appeal to the science-fiction genre in order to undergird his critique of contemporary society. For Houellebecq presents humanity - at least modern, western humanity - as in a terminal state of decadence and decline and ripe for replacement by its post-human successor. His novels narrate a metaphysical mutation or paradigm shift through which humanity as we know it ceases to be the overriding value or focus of our world when it comes into conflict with a competitor in the form of a post-human or neo-human species. It is the aim of this book to appraise the global significance of Houellebecq's novelistic visions while at the same time situating them within the context of French literature, culture and society. **Prague and the Czech Republic** Includes pull-out map attached to inside back cover. **Information Technology and Tourism A Challenging Relationship** [Springer](#) Information systems in tourism, such as reservation systems, yield management systems, and tourism-marketing systems, have been among the pioneers of leading-edge technology applications and are among the most successful users of e-commerce. outside of gallery, library, archive and museum (GLAM) institutions. By its media, art in the digital sphere is processual, contextual, modular and ephemeral, and its creative process is collaborative. From artists, scholars, technicians and conservators-to preserve this contemporary art is a transdisciplinary task. This book brings together leading international experts from digital art theory and preservation, digital humanities, collection management, conservation and media art histories. In a transdisciplinary approach, theoretic and practice-based research from these stakeholders in art, research, education and exhibition are presented to create an overview of present preservation methods and discuss demands and opportunities for the future. Finally, the need for a new appropriate museum and archive infrastructure is shown to preserve the art of our time. Pathos, Poetry and Politics in Michel Houellebecq's Fiction [Brill / Rodopi](#) In Pathos, Poetry and Politics, Russell Williams examines the literary style in the work of Michel Houellebecq. Chapters also consider the employment in travel writing of the diary, the letter, visual images, maps and poetry, as well as the relationship of travel writing to fiction, science, translation and tourism. This volume explores the international backpacker phenomenon, drawing together different disciplinary perspectives on its meaning, impact and significance. Links are drawn between theory and practice, setting backpacking in its wider social, cultural and economic context. **Elite Mobilities** [Routledge](#) Small in number but great in influence, mobile elites have shaped the contours of global capitalism. Today these elites continue to flourish globally but in a changing landscape. The current economic crisis—and rising concerns about the moral legitimacy of extreme wealth—coincides with stern warnings over the risks posed by climate change and the unsustainable use of resources. Often an out-of-bounds topic in critical social science, elites are thought of as too inaccessible a group to interview and too variable a minority to measure. This groundbreaking collection sets out to challenge this perception. Through the careful examination of the movements of the one per cent through the everyday spaces of the ninety-nine per cent, **Elite Mobilities** investigates the shared zones elites inhabit alongside the commons: the executive lounge in the airport, the penthouse in the hotel, or the gated community next to the slum. Bringing together the pioneer

scholars in critical sociology today, this collection explores how social scientists can research, map, and 'track' the flows and residues of objects, wealth and power surrounding the hypermobile. **Elite Mobilities** sets a new benchmark in social science efforts to research the powerful and the privileged. It will appeal to students and scholars interested in mobilities, transport, tourism, social stratification, class, inequality, consumption, and global environmental change.

Perspectives on Travel Writing [Routledge](#) Ranging from the early modern to the postcolonial, and dealing mainly with encounters in Europe, the Americas and the Middle East, **Perspectives on Travel Writing** is a collection of new essays by international scholars that examines some of the various contexts of travel writing, as well as its generic characteristics. Contributions examine the similarities between autobiography and memoir, fiction, and travel writing, and attempt to define travel writing as a genre. Utilising a variety of approaches, the essays display a shared concern with what travel writing does and how it does it. The effects of encounter and border-crossing on gender, 'race', and national identity are considered throughout. The collection begins with a review of some of the problems and issues facing the scholar of travel writing and moves on to a detailed discussion of the qualities of travel writing and its related forms. It then presents in chronological order a number of case studies, before closing with a critical discussion of approaches to the subject. An essay collection with broad historical and geographical coverage, this volume should appeal to students and researchers of travel and travel-related literatures from across the Humanities.

Across Asia on the Cheap A Complete Guide to Making the Overland Trip **Gender and Sexuality Justice in Asia Finding Resolutions through Conflicts** [Springer](#)

Nature This book brings together a group of innovative scholars examining the contemporary issue of effecting gender and sexuality justice in the context of Asia, consonant with engendering a just, equitable and sustainable development for all. These grassroots initiatives are woven through three complementary sections of the book: gender justice in Asia, sexuality justice in Asia, and finding resolutions through conflict. The book foregrounds strategies that aim to call out and challenge existing gender and sexuality injustices with regard to women and the LGBTIQ+ community by: assessing the efficacy of gender mainstreaming policies through micro-credit schemes for women in East Java, Indonesia; proliferating the signifiers of the hijab (veil) by postmodern Malay-Muslim women or 'Hijabistas' within the consumerist culture of Malaysia; making visible the injustices of the Syariah legal system for non-Muslim women, and ground-breaking legislation that could potentially recognise same-sex marriages in Thailand; privileging the narratives of gay women diplomats within the highly masculinised field of diplomacy in the Asia-Pacific region; foregrounding the narratives of Filipino gay men, intimate partner violence among young Indonesian Christian young people, masculine-identifying lesbians in Singapore, young LGBT people in rural Vietnam, and a Chinese-Muslim Malaysian female-to-male transgender person; and proposing new ways of becoming an inclusive church through the radical act of befriending persons living with HIV and AIDS in Southeast Asia. This book celebrates diverse and inclusive voices and strategies of gender and sexual agents of change in envisioning and bringing to fruition a just and transformative society for all. It is of interest to students and scholars researching gender and sexuality in areas of development studies, international relations, socio-legal studies, and literary studies.

Advertising in Tourism and Leisure [Routledge](#) 'Advertising in Leisure and Tourism' brings together the current thinking in this area, via extensive international case studies, to provide a critical appraisal of the potential of advertising in leisure and tourism.
