Gardens in the Dunes A Novel [Simon and Schuster](#) **A sweeping, multifaceted tale of a young Native American pulled between the cherished traditions of a heritage on the brink of extinction and an encroaching white culture, Gardens in the Dunes is the powerful story of one woman's quest to reconcile two worlds that are diametrically opposed. At the center of this struggle is Indigo, who is ripped from her tribe, the Sand Lizard people, by white soldiers who destroy her home and family. Placed in a government school to learn the ways of a white child, Indigo is rescued by the kind-hearted Hattie and her worldly husband, Edward, who undertake to transform this complex, spirited girl into a "proper" young lady. Bit by bit, and through a wondrous journey that spans the European continent, traipses through the jungles of Brazil, and returns to the rich desert of Southwest America, Indigo bridges the gap between the two forces in her life and teaches her adoptive parents as much as, if not more than, she learns from them. includes poetry, essays, short fiction, film, photography, and other visual art. These chapters map Silko's place in the broad context of American literary history. Further, they trace her pivotal role in prompting other Indigenous writers to enter the conversations she helped to launch. Along the way, the book engages her historical themes of land, ethnicity, race, gender, trauma, and healing, while examining her narrative craft and her mythic lyricism.

Land of Sunshine: An Environmental History of Metropolitan Los Angeles [University of Pittsburgh Press](#) Most people equate Los Angeles with smog, sprawl, forty suburbs in search of a city—the great “what-not-to-do” of twentieth-century city building. But there's much more to LA's story than this shallow stereotype. History shows that Los Angeles was intensely, ubiquitously planned. The consequences of that planning—the environmental history of urbanism—is one place to turn for the more complex lessons LA has to offer. Working forward from ancient times and ancient ecologies to the very recent past, *Land of Sunshine* is a fascinating exploration of the environmental history of greater Los Angeles. Rather than rehearsing a litany of errors or insults against nature, rather than decrying the lost opportunities of “roads not taken,” these essays, by nineteen leading geologists, ecologists, and historians, instead consider the changing dynamics both of the city and of nature. In the nineteenth century, for example, “density” was considered an evil, and reformers struggled mightily to move the working poor out to areas where better sanitation and flowers and parks “made life seem worth the living.” We now call that vision “sprawl,” and we struggle just as much to bring middle-class people back into the core of American cities. There's nothing natural, or inevitable, about such turns of events. It's only by paying very close attention to the ways metropolitan nature has been constructed and construed that meaningful lessons can be drawn. History matters. So here are the plants and animals of the Los Angeles basin, its rivers and watersheds. Here are the landscapes of fact and fantasy, the historical actors, events, and circumstances that have proved transformative over and over again. The result is a nuanced and rich portrait of Los Angeles that will serve planners, communities, and environmentalists as they look to the past for clues, if not blueprints, for enhancing the quality and viability of cities.

Storyteller [Penguin](#) Now back in print—a classic work of Native American literature by the bestselling author of *Ceremony* Leslie Marmon Silko's groundbreaking book *Storyteller*, first published in 1981, blends original short stories and poetry influenced by the traditional oral tales that she heard growing up on the Laguna Pueblo in New Mexico with autobiographical passages, folktales, family memories, and photographs. As she mixes traditional and Western literary genres, Silko examines themes of memory, alienation, power, and identity; communicates Native American notions regarding time, nature, and spirituality; and explores how stories and

storytelling shape people and communities. Storyteller illustrates how one can frame collective cultural identity in contemporary literary forms, as well as illuminates the importance of myth, oral tradition, and ritual in Silko's own work. This edition includes a new introduction by Silko and previously unpublished photographs. Oceanstory Odyssey Editions A new novella from the acclaimed author of Ceremony, and Almanac of the Dead. Leslie Marmon Silko is the author of the novels Ceremony, Almanac of the Dead, and Gardens in the Dunes. She has also written many short stories, poems and essays, and her most recent book is a memoir, The Turquoise Ledge. The recipient of a MacArthur Fellowship and an NEA fellowship, Silko lives in Tucson, Arizona, on the boundary of Saguaro National Park West. The Dynamics of Intersubjectivity Cambridge Scholars Publishing This collection revises subjectivity in the light of postmodern theories of the subject. The contributors gathered here present and discuss a number of different, but interrelated, subjectivities. As such, they reconceptualize the theory of subjectivity according to various texts and contexts, such as the subjectivity of discourses, the subject under subjugation, and the intersubjective construction of the other. It introduces a dynamic subjectivity to minority literature, colonial/postcolonial texts, and travel literature, to name but a few. The dynamics of intersubjectivity provide a space for subjectivities to negotiate and interrelate. Moreover, this collection shows that intersubjectivity is hybrid, yet flexible, by nature. Stories Through Theories/theories Through Stories North American Indian Writing, Storytelling, and Critique American Indian Studies Stories Through Theories/Theories Through Stories explores the uneasy relations--often contentious, sometimes complicit--between American Indian Literature and literary theory. This collection of essays--sometimes playfully but always insistently--changes our readings of Native works and challenges our roles as intellectual guides until we step deeper into the ambiguous territories where writer, listener, reader, and critic intersect. Taken together, these essays provide compelling evidence for looking at primary Native cultures, authors, and histories as enrichments of Native literature. The Delicacy and Strength of Lace Letters Between Leslie Marmon Silko and James Wright Graywolf Press The Delicacy and Strength of Lace The timeless exchange of advice and friendship between two of our greatest literary talents Dear Leslie: Of course I can't know whether or not the world looks strange to God. But sometimes it looks strange to me. Leslie Marmon Silko and James Wright met only twice. First, briefly, in 1975, at a writers' conference in Michigan. Their correspondence began three years later, after Wright wrote to Silko praising her book Ceremony. The letters began formally, and then each writer gradually opened to the other, sharing his or her life, work, and struggles. The second meeting between the two writers came in a hospital room, as Wright lay dying of cancer. The New York Times wrote something of Wright that applies to both writers--of qualities that this exchange of letters makes evident: "Our age desperately needs his vision of brotherly love, his transcendent sense of nature, the clarity of his courageous voice."

Leslie Marmon Silko Ceremony, Almanac of the Dead, Gardens in the Dunes [Bloomsbury Publishing](#) A major American writer at the turn of this millennium, Leslie Marmon Silko has also been one of the most powerful voices in the flowering of Native American literature since the publication of her 1977 novel *Ceremony*. With chapters written by leading scholars of Native American literature, this guide explores Silko's major novels *Ceremony*, *Almanac of the Dead* and *Gardens in the Dunes* as an entryway into the full body of her work that includes poetry, essays, short fiction, film, photography, and other visual artwork. In addition to placing Silko in the broad context of American literary history, the book serves to contextualize her pivotal role in unleashing the vast flood of other Native American, aboriginal, and Indigenous writers who have entered the conversations she helped to launch. Along the way, the book examines her tackling of such historical themes as land, ethnicity, race, gender, trauma, and healing, as well as her narrative forms and her mythic lyricism. **Yellow Woman and a Beauty of the Spirit** [Simon and Schuster](#) **Defiant essays on the culture of Native Americans and their position in society consider such topics as the earth, the weather, and the injustice of the Anglo-American legal system.** **Aspects of Transnational and Indigenous Cultures** [Cambridge Scholars Publishing](#) **Aspects of Transnational and Indigenous Cultures** addresses the issues of place and mobility, aesthetics and politics, as well as identity and community, which have emerged in the framework of Global/Transnational American and Indigenous Studies. With its ten chapters - contributions from the U.S., Germany, Australia, Canada, Japan, Korea, and Taiwan - the volume conceptualizes a comparative/trans-national paradigm for crossing over national, regional and international boundaries and, in so doing, to imagine a shared world of poetics and aesthetics in contemporary transnational scholarship. **Pink Pirates Contemporary American Women Writers and Copyright** [University of Iowa Press](#) Today, copyright is everywhere, surrounded by a thicket of no trespassing signs that mark creative work as private property. Caren Irr's *Pink Pirates* asks how contemporary novelists—represented by Ursula Le Guin, Andrea Barrett, Kathy Acker, and Leslie Marmon Silko—have read those signs, arguing that for feminist writers in particular copyright often conjures up the persistent exclusion of women from ownership. Bringing together voices from law schools, courtrooms, and the writer's desk, Irr shows how some of the most inventive contemporary feminist novelists have reacted to this history. Explaining the complex, three-century lineage of Anglo-American copyright law in clear, accessible terms and wrestling with some of copyright law's most deeply rooted assumptions, Irr sets the stage for a feminist reappraisal of the figure of the literary pirate in the late twentieth century—a figure outside the restrictive bounds of U.S. copyright statutes. Going beyond her readings of contemporary women authors, Irr's exhaustive history of how women have fared under intellectual property regimes speaks to broader political, social, and economic implications and engages digital-era excitement about the commons with the most utopian and materialist strains in

feminist criticism. **The Turquoise Ledge** A Memoir [Penguin](#) Profound reflections on family and the natural world—from the legendary Native American author. With the publication of *Ceremony* in 1978, Leslie Marmon Silko established herself as a storyteller of unique power and brilliance. Now, in her first work of nonfiction, Silko combines memoir with family history and observations on the creatures and desert landscapes that command her attention and inform her vision of the world. Ambitious in scope and full of wonderfully plainspoken and evocative lyricism, *The Turquoise Ledge* is both an exploration of Silko's experience and a moving and deeply personal contemplation of the enormous spiritual power of the natural world. *Ceremony* [Penguin](#) Tayo, a young Native American, has been a prisoner of the Japanese during World War II, and the horrors of captivity have almost eroded his will to survive. His return to the Laguna Pueblo reservation only increases his feeling of estrangement and alienation. While other returning soldiers find easy refuge in alcohol and senseless violence, Tayo searches for another kind of comfort and resolution. Tayo's quest leads him back to the Indian past and its traditions, to beliefs about witchcraft and evil, and to the ancient stories of his people. The search itself becomes a ritual, a curative ceremony that defeats the most virulent of afflictions—despair.

Neodomestic American Fiction In American literature, domestic fictions—that is, novels focused on the home and homemaking—are linked with white, middle-class women's fiction and culture. Employing a spatial lens, *Neodomestic American Fiction* joins and extends other studies in redefining domestic fiction's literary history and definition. Unlike previous redefinitions and reevaluations, *Neodomestic American Fiction* reads domestic novels alongside feminist geography and architectural history to map the links and disjunctions among a range of authors writing during the same period as well as across centuries and cultures. Kristin Jacobson's attention to domestic geographies reveals a new space and subgenre emerge in the 1980s: neodomestic fiction. In this innovative study, Kristin Jacobson identifies over thirty novels that renovate traditional forms, therefore challenging model domesticity's conservative gender, racial, and sexual politics. Rather than produce stable single-family homes, neodomestic fictions advance a politics of instability characterized by mobility, renovation and redesign, and relational space. These "alternative" domesticities—when read in the context of neodomestic fiction—are not marginal but rather central to domesticity's configurations. Such resistance, as Iris Marion Young argues, "is integral to modern political theory and is not an alternative to it." Thus, this spatial analysis of post-1980 domestic novels does not indicate a post-feminist or post-gender world. Rather, neodomestic fiction's heterogeneous, unstable spaces offer opportunities to examine contemporary hierarchies and experiment with more egalitarian homemaking. These fictions include Toni Morrison's *Paradise*, Barbara Kingsolver's *The Poisonwood Bible*, Leslie Marmon Silko's *Gardens in the Dunes*, and Chang-rae Lee's *A Gesture Life*. **AlterNative Spaces** *Constructions of Space in Native American and First Nations' Literatures* [Universitaetsverlag Winter](#) 'Space', so the

basic assumption of this study, plays a central role for transcultural processes in contemporary Native American and First Nations' literature. How is 'writing space' constitutive for cultural politics in Native American/First Nations' texts? How does it affect specific aspects of cultural politics, gender politics in particular? And are the spaces constructed in Native literature 'alterNative' in the sense that they offer 'Native alternatives' to hegemonic constructions? Building on interdisciplinary theoretical approaches to the production of space, "AlterNative Spaces" highlights the ways in which the authors under consideration - Leslie Marmon Silko, Tomson Highway, Gerald Vizenor and Thomas King - construct overlapping, ambivalent, and sometimes contradictory literary spaces by drawing on a variety of cultural codes. Contemporary Native literatures are thus read as part of a complex cultural web in which the meanings of culture and 'Native' are constantly negotiated through the construction of spaces. These constructions, this study argues, critically reposition Native writing and individual Native authors both as part of and challenge to U.S. American and Canadian cultures and literatures. **Beyond Settler Time Temporal Sovereignty and Indigenous Self-Determination** Mark Rifkin explores how Indigenous experiences with time and the dominance of settler colonial conceptions of temporality have affected Native peoplehood and sovereignty, thereby rethinking the very terms by which history is created and organized around time by. **Leslie Marmon Silko's Storyteller New Perspectives** [University of New Mexico Press](#) **As American Indian writers frequently remind their readers, storytellers wield formidable power to affect the earth and its inhabitants. This power is the same medicine power that inheres in tribal expression such as chants, prayers, and ceremonial rituals. Leslie Marmon Silko, critics point out, modifies literary genres to create the most effective medicine power. When Silko's Storyteller first appeared in 1981, critics were baffled by this complex text. Today it is a canonical work in the study of American Indian literature. The essays collected in this book, addressing both the original edition of Storyteller and the 2012 revision, use the growth in understanding of Native American literature in general and of Silko's work in particular to unpack this fascinating work and its critical reception over the years. Tributary Voices Literary and Rhetorical Exploration of the Colorado River [University of Nevada Press](#) **The Colorado River is in crisis. Persistent drought, climate change, and demands from urbanization threaten this life-source that provides water to more than forty million people in the U.S. and Mexico. Coupled with these challenges are our nation's deeply rooted beliefs about the region as a frontier, garden, and wilderness that have created competing agendas about the river as something to both exploit and preserve. Citizens and experts look to law, public policy, and science to solve worsening water problems, but today's circumstances demand additional perspectives to foster a more sustainable relationship with the river. Through literary, rhetorical, and historical analysis, Tributary Voices considers a more comprehensive approach to river management. The book examines nature writing, women's narratives, critiques of dam development,****

the Latina/o communities' appeals for river restoration, American Indian authors' and tribal nations' claims of water sovereignty, and teachings about environmental stewardship and provident living. This innovative study models an interdisciplinary approach to water governance and reinvigorates our imagination in achieving a more sustainable water ethic. **The Routledge Companion to Native American Literature** [Routledge](#) **The Routledge Companion to Native American Literature** engages the multiple scenes of tension — historical, political, cultural, and aesthetic — that constitutes a problematic legacy in terms of community identity, ethnicity, gender and sexuality, language, and sovereignty in the study of Native American literature. This important and timely addition to the field provides context for issues that enter into Native American literary texts through allusions, references, and language use. The volume presents over forty essays by leading and emerging international scholars and analyses: regional, cultural, racial and sexual identities in Native American literature key historical moments from the earliest period of colonial contact to the present worldviews in relation to issues such as health, spirituality, animals, and physical environments traditions of cultural creation that are key to understanding the styles, allusions, and language of Native American Literature the impact of differing literary forms of Native American literature. This collection provides a map of the critical issues central to the discipline, as well as uncovering new perspectives and new directions for the development of the field. It supports academic study and also assists general readers who require a comprehensive yet manageable introduction to the contexts essential to approaching Native American Literature. It is essential reading for anyone interested in the past, present and future of this literary culture. Van Alst, Jr., Tammy Wahpeconiah Yellow Woman [Rutgers University Press](#) In the past twenty-five years many Native American writers have retold the traditional stories of powerful mythological women: Corn Woman, Changing Woman, Serpent Woman, and Thought Woman, who with her sisters created all life by thinking it into being. Within and in response to these evolving traditions, Leslie Marmon Silko takes from her own tradition, the Keres of Laguna, the Yellow Woman. Yellow Woman stories, always female-centered and always from the Yellow Woman's point of view, portray a figure who is adventurous, strong, and often alienated from her own people. She is the spirit of woman. Ambiguous and unsettling, Silko's "Yellow Woman"

explores one woman's desires and changes--her need to open herself to a richer sensuality. Walking away from her everyday identity as daughter, wife and mother, she takes possession of transgressive feelings and desires by recognizing them in the stories she has heard, by blurring the boundaries between herself and the Yellow Woman of myth. Silko's decision to tell the story from the narrator's point of view is traditional, but her use of first person narration and the story's much raised ambiguity brilliantly reinforce her themes. Like traditional yellow women, the narrator is unnamed. By choosing not to reveal her name, she claims the role of Yellow Woman, and Yellow Woman's story is the one Silko clearly claims as her own. The essays in this collection compare Silko's many retellings of Yellow Woman stories from a variety of angles, looking at crucial themes like storytelling, cultural inheritances, memory, continuity, identity, interconnectedness, ritual, and tradition. This casebook includes an introduction by the editor, a chronology, an authoritative text of the story itself, critical essays, and a bibliography for further reading in both primary and secondary sources. Contributors include Kim Barnes, A. LaVonne Ruoff, Paula Gunn Allen, Patricia Clark Smith, Bernard A. Hirsch, Arnold Krupat, Linda Danielson, and Patricia Jones. In this virtuoso symphony of character and culture, Leslie Marmon Silko's breathtaking novel interweaves ideas and lives, fate and history, passion and conquest in an attempt to re-create the moral history of the Americas as told from the point of view of the conquered, not the conquerors. Touching on issues as disparate as the borderlands drug wars, ecological devastation committed for the benefit of agriculture, and the omnipresence of talking heads on American daytime television, *The Almanac of the Dead* is fiction on the grand scale, a sweeping epic of displacement, intrigue, and violent redemption. "The Events of October" Murder-suicide on a Small Campus [Wayne State University Press](#) "Griffin's astute analysis of a 1999 murder and suicide on the Kalamazoo College campus probes the links between intimate violence and larger cultural patterns, offering educators, students, and parents a map for change. Vital and disturbing, 'The Events of October' unpacks the devastating implications of the narratives we still tell ourselves about gender, love, and power."---Joy Castro, author of *The Truth Book: A Memoir* "The Events of October" powerfully accomplishes what the media fails to do in the wake of violence on college campuses: lends meaning to actions that would otherwise remain inscrutable. Griffin's book is a compelling personal reaction to a tragic event, which is supplemented with research and interviews. The result is a comprehensive and rigorous exploration of violence against women. Ezra Pound once noted that 'literature is news that stays news.' 'The Events of October' embodies exactly that kind of staying power.---Sue William Silverman, author of *Fearless Confessions: A Writer's Guide to Memoir* On a Sunday Night During Homecoming weekend in 1999, Neenef Odah lured his ex-girlfriend, Maggie Wardle, to his dorm room at Kalamazoo College and killed her at close range with a shotgun before killing himself. In "The Events of October," author and Kalamazoo College professor Gail Griffin attempts to answer the lingering question of "how could this happen?" and uses Maggie and Neenef's story to explore larger issues of intimate partner violence, gun accessibility, and depression and suicide on campus. *Continental Divides Remapping the Cultures of North America* [University of Chicago Press](#) North America is more a political and an economic invention than a place people call home. Nonetheless, the region shared by the United States and its closest neighbors, North America, is an

intriguing frame for comparative American studies. **Continental Divides** is the first book to study the patterns of contact, exchange, conflict, and disavowal among cultures that span the borders of Canada, the United States, and Mexico. Rachel Adams considers a broad range of literary, filmic, and visual texts that exemplify cultural traffic across North American borders. She investigates how our understanding of key themes, genres, and periods within U.S. cultural study is deepened, and in some cases transformed, when Canada and Mexico enter the picture. How, for example, does the work of the iconic American writer Jack Kerouac read differently when his Franco-American origins and Mexican travels are taken into account? Or how would our conception of American modernism be altered if Mexico were positioned as a center of artistic and political activity? In this engaging analysis, Adams charts the lengthy and often unrecognized traditions of neighborly exchange, both hostile and amicable, that have left an imprint on North America's varied cultures. **Gambling on Authenticity** Gaming, the Noble Savage, and the Not-So-New Indian [MSU Press](#) In the decades since the passing of the Pamajewon ruling in Canada and the Indian Gaming Regulatory Act in the United States, gaming has come to play a crucial role in how Indigenous peoples are represented and read by both Indians and non-Indians alike. This collection presents a transnational examination of North American gaming and considers the role Indigenous artists and scholars play in producing depictions of Indigenous gambling. In an effort to offer a more complete and nuanced picture of Indigenous gaming in terms of sign and strategy than currently exists in academia or the general public, **Gambling on Authenticity** crosses both disciplinary and geographic boundaries. The case studies presented offer a historically and politically nuanced analysis of gaming that collectively creates an interdisciplinary reading of gaming informed by both the social sciences and the humanities. A great tool for the classroom, **Gambling on Authenticity** works to illuminate the not-so-new Indian being formed in the public's consciousness by and through gaming. **Rich Indians** Native People and the Problem of Wealth in American History [Univ of North Carolina Press](#) Long before lucrative tribal casinos sparked controversy, Native Americans amassed other wealth that provoked intense debate about the desirability, morality, and compatibility of Indian and non-Indian economic practices. Alexandra Harmon examines seven such instances of Indian affluence and the dilemmas they presented both for Native Americans and for Euro-Americans--dilemmas rooted in the colonial origins of the modern American economy. Harmon's study not only compels us to look beyond stereotypes of greedy whites and poor Indians, but also convincingly demonstrates that Indians deserve a prominent place in American economic history and in the history of American ideas. **Night Flying Woman** An Ojibway Narrative [Minnesota Historical Society Press](#) In the accounts of the lives of several generations of Ojibway people in Minnesota is much information about their history and culture. **New Wests and Post-Wests** Literature and Film of the American West [Cambridge Scholars Publishing](#) The writers of these chapters are

often working with changing assumptions about literary and media interpretations of an American West. Here we see critical approaches to a West that never was, a West of myth so enduring that the myth dominates nearly all artistic representation about this place that never was. In this collection, we see critical approaches to a New West, a West that is a state of mind, not a geographical place but a mythic space with no boundaries and no political inevitabilities. These New Western studies accept the idea of a West that includes Canada, Mexico, Alaska, and, in the case of the US, every geographic and historical point west of the historic founding settlements. The West we study today is a post-West, an idea of the West past the traditional views of an old West dominated by white US nationalism and gendered as uncompromisingly masculine. The idea itself of a single West no longer holds validity. We now understand that all renderings of the West are renderings of multiple Wests; Wests constructed by American nationalists, Wests constructed by EuroAmerican writers and filmmakers, Wests constructed by native peoples, or Wests constructed outside the geographical boundaries of the US. This collection presents an eclectic array of new scholarship ranging freely over the New Wests and Post Wests, dealing with issues such as the literature of a 1950s California West; eco-crime genre fiction; the West of Edward Dorn and the Beat Movement; images of prostitution in California Gold Rush literature; European perspectives on film representations of the first peoples; the six shooter and the American West; German Westerns and Italian Westerns; *The Authentic Death of Hendry Jones*, by Charles Neider; and films such as *The Treasure of Sierra Madre*, *Into the Wild*, *There Will Be Blood*, and *The Last Picture Show*. A unique aspect of this collection is the range of writers interpreting the American West in film and literature; besides those writing from within the United States, five of the writers provide international perspectives from the United Kingdom, and the Universities of Tunis, Vienna, and Rome. Each chapter includes a review of scholarship on its subject and an extended bibliography for further research.

Handbook on Teaching Social Issues 2nd edition [IAP](#) **The Handbook on Teaching Social Issues, 2nd edition**, provides teachers and teacher educators with a comprehensive guide to teaching social issues in the classroom. This second edition re-frames the teaching of social issues with a dedicated emphasis on issues of social justice. It raises the potential for a new and stronger focus on social issues instruction in schools. Contributors include many of the leading experts in the field of social studies education. Issues-centered social studies is an approach to teaching history, government, geography, economics and other subject related courses through a focus on persistent social issues. The emphasis is on problematic questions that need to be addressed and investigated in-depth to increase social understanding, active participation, and social progress. Questions or issues may address problems of the past, present, or future, and involve disagreement over facts, definitions, values, and beliefs arising in the study of any of the social studies disciplines, or other aspects of human affairs. The authors and editor believe that

this approach should be at the heart of social studies instruction in schools. ENDORSEMENTS "At a time when even the world's most stable democracies are backsliding towards autocratic rule, Ronald Evans has pulled together an essential guide for teachers who want to do something about it. The 2nd edition of the Handbook on Teaching Social Issues is a brilliant and timely collection that should be the constant companion for teachers across the disciplines." Joel Westheimer University Research Chair in Democracy and Education University of Ottawa "The Handbook on Teaching Social Issues (2nd edition) is a fantastic resource for teachers, teacher educators, and professional development specialists who are interested in ensuring that social issues are at the center of the curriculum. The chapters are focused on the most important contemporary thinking about what social issues are, why they are so important for young people to learn about, and what research indicates are the most effective pedagogical approaches. The wide-ranging theoretical and practical expertise of the editor and all of the chapter authors account for why this handbook makes such an exceptional contribution to our understanding of how and why the social issues approach is so important and stimulating." Diana Hess Dean, UW-Madison School of Education Karen A. Falk Distinguished Chair of Education "Democracy, both as a form of governance and a reservoir of principles and practices, faces an existential threat. The Handbook on Teaching Social Issues is a perfectly-timed and wonderfully engaging exploration of what lies at the heart of social studies curriculum: social inquiry for democratic life. The authors provide conceptual frames, classroom strategies and deep insights about the complex and utterly crucial work of education for democratic citizenship. Education like that conceptualized and described in this volume is a curative so needed at this critical moment. Ron Evans and his colleagues have delivered, assembling an outstanding set of contributions to the field. The Handbook underscores John Dewey's now-haunting invocation that democracy must be renewed with each generation and an education worthy of its name is the handmaiden of democratic rebirth." William Gaudelli Dean and Professor Lehigh University "This volume is so timely and relevant for democratic education. Instead of retreating to separate ideological corners, the authors in this handbook invite us to engage in deliberative discourse that requires civic reasoning and often requires us to meet in a place that serves us all." Gloria Ladson-Billings, Professor Emerita Department of Curriculum & Instruction University of Wisconsin President, National Academy of Education Fellow, AERA, AAAS, and Hagler Institute @ Texas A&M "At the heart of our divisive political and social climate is the need to understand and provide clarity over polarizing concepts. Historically, confusion and resistance has hindered the nation's growth as a democratic nation. Typically, the most vulnerable in our society has suffered the most from our unwillingness to reconceptualize society. The Handbook on Teaching Social Issues, 2nd edition, is a good step in helping social studies educators, students, and laypersons realize a new society that focuses on equity. With over 30

chapters, Ronald Evans and his colleagues' centered inquiry, critical thinking, controversy, and action to challenge ideologies and connect social studies to student's lives and the real world. The first edition helped me as a young social studies teacher; I am excited to use the 2nd edition with my teacher education students!" LaGarrett King Isabella Wade Lyda and Paul Lyda Professor of Education Founding Director, CARTER Center for K-12 Black history education University of Missouri "Ronald Evans has curated a collection of informative contributions that will serve as an indispensable resource for social studies educators committed to engaging their students in the thoughtful examination of social issues. The Handbook on Teaching Social Issues, 2nd edition, articulates the historical, definitional, and conceptual foundations of social issues education. It offers clear presentations of general guidelines for unit planning, discussion methods, and assessment. It identifies specific teaching strategies, resources, and sample lessons for investigating a range of persistent and contemporary social issues on the elementary, middle, and secondary levels through the social studies disciplines. Updated with perspectives on education for social justice that have emerged since the first edition, this edition effectively situates social issues education in the contemporary sociopolitical milieu. The Handbook on Teaching Social Issues, is a timely, accessible, and practical guide to involving students in a vital facet of citizenship in a democracy." William G. Wraga, Professor Dean's Office Mary Frances Early College of Education University of Georgia "The Handbook on Teaching Social Issues, 2nd edition is a long-awaited, welcome, and timely volume. It is apparent that the foundational tenets of the first edition have served social studies professionals well over the past 25 years, given the growth of social issues scholarship showcased in this new edition. Notable is the re-framing and presentation here of scholarship through a social justice lens. I appreciate the offering of unique tools on an array of specific, critical topics that fill gaps in our pedagogical content knowledge. This volume will sit right alongside my dog-eared 1996 edition and fortify many methods courses, theses, and dissertations to come. Sincere thanks to the editor and authors for what I am certain will be an enduring, catalyzing contribution." Nancy C. Patterson Professor of Education Social Studies Content Area Coordinator Bowling Green State University "The Handbook on Teaching Social Issues is a tool that every informed social studies educator should have in their instructional repertoire. Helping students understand how to investigate and take action against problems is essential to developing a better world. The articles in this handbook provide explanations and reasonings behind issues-centered education as well as strategies to employ at every age level of learning. I look forward to using this edition with the K-12 social studies teachers in my district in order to better prepare our students for future learning and living." Kelli Hutt, Social Studies Curriculum Facilitator Dallas Center-Grimes CSD Grimes, Iowa "Ron Evans has chosen an appropriate time to create a companion publication to the first Handbook on Teaching Social Issues published in

1996. During the last few years, social studies teachers have been confronted by student inquiries on a plethora of historical and contemporary issues that implores for the implementation of an interdisciplinary approach to the teaching of anthropology, economics, geography, government, history, sociology, and psychology in order for students to make sense of the world around them and develop their own voices. This demands a student centered focus in the classroom where problematic questions must be addressed and investigated in depth in order to increase social understanding and active participation toward social progress. This volume provides crucial upgrades to the original handbook including a greater emphasis on teaching issues in the elementary grades, the inclusion of issues pertaining to human rights, genocide and sustainability to be addressed in the secondary grades, and addressing issues related to disabilities." Mark Previte, Associate Professor of Secondary Education University of Pittsburgh-Johnstown Chair, NCSS Issues Centered Education Community Other Destinies Understanding the American Indian Novel [University of Oklahoma Press](#) This first book-length critical analysis of the full range of novels written between 1854 and today by American Indian authors takes as its theme the search for self-discovery and cultural recovery. In his introduction, Louis Owens places the novels in context by considering their relationships to traditional American Indian oral literature as well as their differences from mainstream Euroamerican literature. In the following chapters he looks at the novels of John Rollin Ridge, Mourning Dove, John Joseph Mathews, D'Arcy McNickle, N. Scott Momaday, James Welch, Leslie Marmon Silko, Louise Erdrich, Michael Dorris, and Gerald Vizenor. These authors are mixedbloods who, in their writing, try to come to terms with the marginalization both of mixed-bloods and fullbloods and of their cultures in American society. Their novels are complex and sophisticated narratives of cultural survival - and survival guides for fullbloods and mixedbloods in modern America. Rejecting the stereotypes and cliches long attached to the word Indian, they appropriate and adapt the colonizers language, English, to describe the Indian experience. These novels embody the American Indian point of view; the non-Indian is required to assume the role of "other". In his analysis Owens draws on a broad range of literary theory: myth and folklore, structuralism, modernism, poststructuralism, and, particularly, postmodernism. At the same time he argues that although recent American Indian fiction incorporates a number of significant elements often identified with postmodern writing, it contradicts the primary impulse of postmodernism. That is, instead of celebrating fragmentation, ephemerality, and chaos, these authors insist upon a cultural center that is intact and recoverable, upon immutable values and ecological truths. Other Destinies provides a new critical approach to novels by American Indians. It also offers a comprehensive introduction to the novels, helping teachers bring this important fiction to the classroom. The Last Report on the Miracles at Little No Horse A Novel [Harper Collins](#) A New York Times Notable Book "Stunning. . . a moving meditation. . . infused with mystery and wonder."

—Atlanta Journal-Constitution In a masterwork that both deepens and enlarges the world of her previous novels, acclaimed author Louise Erdrich captures the essence of a time and the spirit of a woman who felt compelled by her beliefs to serve her people as a priest. *The Last Report on the Miracles at Little No Horse* deals with miracles, crises of faith, struggles with good and evil, temptation, and the corrosive and redemptive power of secrecy. For more than a half century, Father Damien Modeste has served his beloved Native American tribe, the Ojibwe, on the remote reservation of Little No Horse. Now, nearing the end of his life, Father Damien dreads the discovery of his physical identity, for he is a woman who has lived as a man. To further complicate his quiet existence, a troubled colleague comes to the reservation to investigate the life of the perplexing, possibly false saint Sister Leopolda. Father Damien alone knows the strange truth of Leopolda's piety, but these facts are bound up in his own secret. He is faced with the most difficult decision: Should he tell all and risk everything . . . or manufacture a protective history for Leopolda, though he believes her wonder-working is motivated solely by evil? *The Last Report on the Miracles at Little No Horse* is a work of an avid heart, a writer's writer, and a storytelling genius. *The Man to Send Rain Clouds* Contemporary Stories by American Indians [Penguin Books](#) Fourteen stories about the strength and passion of today's American Indian—including six from the acclaimed Leslie Marmon Silko. Anthropologists have long delighted us with the wise and colorful folktales they transcribed from their Indian informants. The stories in this collection are another matter altogether: these are white-educated Indians attempting to bear witness through a non-Indian genre, the short story. Over a two-year period, Kenneth Rosen traveled from town to town, pueblo to pueblo, to uncover the stories contained in this volume. All reveal, to varying degrees and in various ways, the preoccupations of contemporary American Indians. Not surprisingly, many of the stories are infused with the bitterness of a people and a culture long repressed. Several deal with violence and the effort to escape from the pervasive, and so often destructive, white influence and system. In most, the enduring strength of the Indian past is very much in evidence, evoked as a kind of counterpoint to the repression and aimlessness that have marked, and still mark today, the lives of so many American Indians.
