Macmillan **This book blends classroom training with actual practice. It provides case studies for the students of Management, Commerce, Chartered Accountancy, and Cost and Work Accountancy. It contains case studies pertaining to Indian conditions and their suggeste**

CASES IN FINANCIAL MANAGEMENT

Wiley **This book offers 58 cases that combine both the qualitative and quantitative aspects of financial management. The cases are based on real firms, real products, real individuals, and most importantly, real issues and offer a complete picture of the financial management process.**

WATER SERVICES IN SMALL TOWNS

EXPERIENCES FROM THE GLOBAL SOUTH

IWA Publishing **The importance of small towns is gaining increased**

recognition as a result of two developments. The first development concerns the possible role of small towns in migration flows and urbanization. Development of small towns, in the form of improved basic services and other amenities, has been promoted in order to abate the impact of urbanization on large urban centres and to alleviate service provision pressures in major urban centers, whilst stimulating rural economies and eventually prompting social transformations. The second development concerns the targets set by the SDGs in 2015. SDG6 requires countries to ensure universal and equitable water services by 2030. This inclusive target requires that the water services needs of small towns are considered in the expansion of sustainable and equitable water services. This book aims to contribute to the study of water services in small towns by critically examining different approaches and experiences of water supply in small towns. It brings together empirical testimonies of how the implementation of reductionist models and the perseverance of certain principles underlying these models in the water sector have yielded suboptimal results. Much remains to be done before achieving universal service coverage in small towns is likely. In order to do that, we should start speaking of small towns as a category on their own and continue the work in elaborating further what these are and how they work. In Focus - a book series that showcases the latest accomplishments in water research. Each book focuses on a specialist area with papers from top experts in the field. It aims to be a vehicle for in-depth understanding and inspire further conversations in the sector.

THE GREEN BOOK

APPRAISAL AND EVALUATION IN CENTRAL GOVERNMENT : TREASURY GUIDANCE

Stationery Office This new edition incorporates revised guidance from H.M Treasury which is designed to promote efficient policy development and resource allocation across government through the use of a thorough, long-term and analytically robust approach to the appraisal and evaluation of public service projects before significant funds are committed. It is the first edition to have been aided by a consultation process in order to ensure the guidance is clearer and more closely tailored to suit the needs of users.

HANDBOOK OF CONSUMER FINANCE RESEARCH

Springer This second edition of the authoritative resource summarizes the state of consumer finance research across disciplines for expert findings on—and strategies for enhancing—consumers' economic health. New and revised chapters offer current research insights into familiar concepts (retirement saving, bankruptcy, marriage and finance) as well as the latest findings in emerging areas, including healthcare costs, online shopping,

financial therapy, and the neuroscience behind buyer behavior. The expanded coverage also reviews economic challenges of diverse populations such as ethnic groups, youth, older adults, and entrepreneurs, reflecting the ubiquity of monetary issues and concerns. Underlying all chapters is the increasing importance of financial literacy training and other large-scale interventions in an era of economic transition. Among the topics covered: Consumer financial capability and well-being. Advancing financial literacy education using a framework for evaluation. Financial coaching: defining an emerging field. Consumer finance of low-income families. Financial parenting: promoting financial self-reliance of young consumers. Financial sustainability and personal finance education. Accessibly written for researchers and practitioners, this Second Edition of the Handbook of Consumer Finance Research will interest professionals involved in improving consumers' fiscal competence. It also makes a worthwhile text for graduate and advanced undergraduate courses in economics, family and consumer studies, and related fields.

FINANCIAL MANAGEMENT FOR LOCAL GOVERNMENT

Routledge This series is designed to cover all aspects of sound financial management for local governments in developed and developing countries and economies in transition. Concepts of good governance, transparency and accountability are woven into the text of every chapter, and the needs and potential obstacles to greater decentralization and democracy are highlighted. Each volume is self-contained with its own Trainer's Guide, exercises and web resources. Chapters are divided into basic and advanced concepts and the detailed relationship of each topic to the others covered in the series is explained.

OECD E-GOVERNMENT STUDIES RETHINKING E-GOVERNMENT SERVICES USER-CENTRED APPROACHES

USER-CENTRED APPROACHES

mobile applications. **Innovative Mobile Platform Developments for Electronic Services Design and Delivery** is a comprehensive look at all aspects of production management, delivery and consumption of e-services, self services, and mobile communication including business-to-business, business-to-consumer, government-to-business, government-to-consumer, and consumer-to-consumer e-services. This volume is perfect for the interest of professionals, academic educators, researchers, and industry consultants by providing the latest interdisciplinary research as a new platform for learning and research dissemination.

FINANCIAL SERVICES MARKETING

AN INTERNATIONAL GUIDE TO PRINCIPLES AND PRACTICE

Routledge This new edition balances the theoretical and the practical for advanced undergraduates, those specialising in financial services at postgraduate level, individuals undertaking professional courses such as those offered by the IFS School of Finance, and employees working within the financial services sector. Ennew & Waite draw from global business cases in both B2B and B2C marketing, taking a unique approach in terms of structure by splitting discussion between marketing for acquisition and marketing for retention. This fully updated and revised second edition features: A revised approach to the industry in the light of the global financial crisis, including ethical considerations, consumer confidence issues, and new approaches to regulation New sections on e-commerce and its impact on customer relationships New case studies and vignettes A new companion website to support teaching, including PowerPoint slides, test bank questions, additional cases and cameo video mini-lectures. **Financial Services Marketing 2e** will help the student and the practitioner to develop a firm grounding in the fundamentals of financial services strategy, customer acquisition and customer development. Reflecting the realities of financial services marketing in an increasingly complex sector, it provides the most up-to-date, international and practical guide to the subject available.

DECONSTRUCTING MONEY LAUNDERING RISK

DE-RISKING, THE RISK-BASED APPROACH AND RISK COMMUNICATION

Springer Nature This book examines the interpretation of the risk-based approach (RBA) and its application across the banking industry. It explores the ways conflicting risk interpretation and deconstruction of money laundering risk have unintended consequences across the banking industry. Furthermore, it offers a theoretical framework that can be adopted and implemented by risk practitioners to address money laundering (ML) risks. The interpretation and application of the RBA influences the way money laundering risk is perceived, presented, and managed, often resulting in misalignment among stakeholders. Moreover,

AML practitioners interpret money laundering (ML) risk as an entity that can be contained, largely in ignorance of the fact that ML risk is self-referential. The book therefore addresses complex inter-system feedback phenomena that lead to de-risking and re-risking, and offers a new ML risk communication framework on this basis. It will be of value to researchers and also to stakeholders within financial institutions, financial intelligence units and regulators in the fight against money laundering.

LOCAL FINANCING MECHANISMS FOR FOREST AND LANDSCAPE RESTORATION

A REVIEW OF LOCAL-LEVEL INVESTMENT MECHANISMS

Food & Agriculture Org. **To meet global restoration needs and recover degraded forests and landscapes, adequate public and private investments are required to support restoration activities on the ground. The new FAO publication “Local financing mechanisms for forest and landscape restoration: A review of local level investment mechanisms” examines the pathways available to financing restoration for a positive local level impact. The document provides an in-depth study of how financial mechanisms can be coordinated to maximise the leverage of finance and the adoption of practices at scale across the landscape. By examining some of the accessible investment mechanisms and planning strategies, it aims to support discussions, thinking and decision-making on how to effectively find, select and use investments to provide appropriate incentives and maximize forest and landscape restoration actions. Finally, the publication underlines how facilitators can bridge the gap between smallholders and investors, boosting investments, while promoting local ownership.**

THE HANDBOOK OF INNOVATION AND SERVICES

A MULTI-DISCIPLINARY PERSPECTIVE

Edward Elgar Publishing **'This book represents a significant step towards dealing with the lacuna constituted by the inadequacy of the literature on the services. And, as such, it approaches its task from a variety of directions.'** From the foreword by William J. Baumol, New York University, US **'The Handbook of Innovation and Services is an exceptional volume. Its contributors, including Faiz Gallouj, William Baumol, Jean Gadrey, and Pascal Petit, are among the major thinkers in both the fields of the economics of services and the economics of innovation. Selected topics include the "cost disease", services innovation in the global economy, social innovation in the services, and innovation and employment in services. The book, I am sure, will become a standard reference volume in both these fields in the ensuing years.'** Edward Wolff, New York University, US **This Handbook brings together 49 international specialists to address an issue of increasing importance for the world's post-industrial economies; innovation as it relates to services. Contemporary economies**

have two fundamental characteristics. Firstly, they are service economies in as much as services account for more than 70 per cent of the wealth and jobs in most developed countries. Secondly, they are innovation economies as recent decades have seen an unprecedented development of scientific, technological, organisational and social innovations. This Handbook expertly links these two major characteristics in order to investigate the role of innovation in services, an issue that until now has been inadequately explored and one that poses many theoretical and operational challenges. This comprehensive volume encompasses the views of eminent scholars from a range of disciplines including economics, management, sociology and geography, and draws on a number of different analytical and methodological perspectives. With its multi-disciplinary approach this Handbook will be an invaluable reference source for academics and students in the fields of economics, management and the geography of services and innovation. Public authorities and managers in the service sector will also find this book fascinating.

HANDBOOK OF RESEARCH ON GLOBAL ASPECTS OF SUSTAINABLE FINANCE IN TIMES OF CRISES

IGI Global Sustainable finance has been one of the emerging areas of finance in the last decade. With its emphasis on any form of financial services that take environmental, social and governance (ESG) considerations into account in decision-making processes, it can help to improve social well-being, preserve the ecosystems and promote sustainable economic development. Furthermore, it can contribute to economic and financial resilience, along with enabling sustainable recovery against crises arising from physical or financial shocks. The Handbook of Research on Global Aspects of Sustainable Finance in Times of Crises discusses theory and concepts, focuses on practices and strategies, addresses the recent challenges and trends, and presents future prospects regarding sustainable finance. It provides a global look at sustainable finance in a variety of contexts, along with highlighting contemporary issues in light of crises such as the climate emergency and the COVID-19 pandemic. Covering a wide range of topics such as climate finance, green finance, social finance, ESG investing and responsible banking, the book is ideal for corporate managers, portfolio managers, investors, financial analysts, researchers, academicians, students and policymakers.

VALUING FOREST ECOSYSTEM SERVICES

A TRAINING MANUAL FOR PLANNERS AND PROJECT DEVELOPERS

United Nations The aim of this manual is to enhance understanding of ecosystem services and their valuation. The specific target group comprises governmental officers in planning units and field-level officers and practitioners in key government departments in Bangladesh

responsible for project development, including the Ministry of Environment and Forests and its agencies. Most of the examples and case studies presented herein, therefore, are tailored to the Bangladesh context, but the general concepts, approaches and methods can be applied to a broad spectrum of situations. This manual focuses on valuing forest-related ecosystem services, including those provided by trees outside forests. It is expected to improve valuation efforts and help ensure the better use of such values in policymaking and decision making.

CLIMATE CHANGE ADAPTATION STRATEGIES - AN UPSTREAM-DOWNSTREAM PERSPECTIVE

Springer Climate change and the related adverse impacts are among the greatest challenges facing humankind during the coming decades. Even with a significant reduction of anthropogenic greenhouse gas emissions, it will be inevitable for societies to adapt to new climatic conditions and associated impacts and risks. This book offers insights to first experiences of developing and implementing adaptation measures, with a particular focus on mountain environments and the adjacent downstream areas. It provides a comprehensive 'state-of-the-art' of climate change adaptation in these areas through the collection and evaluation of knowledge from several local and regional case studies and by offering new expertise and insights at the global level. As such, the book is an important source for scientists, practitioners and decision makers alike, who are working in the field of climate change adaptation and towards sustainable development in the sense of the Paris Agreement and the Agenda 2030.

RISK MANAGEMENT, STRATEGIC THINKING AND LEADERSHIP IN THE FINANCIAL SERVICES INDUSTRY

A PROACTIVE APPROACH TO STRATEGIC THINKING

Springer This book presents a broad overview of risk management in the banking industry, with a special focus on strategic thinking and decision-making. It reveals the broader context behind decision models and approaches to risk management in the financial industry, linking the regulatory landscape for capital management and risk to strategic thinking, together with behavioral and cultural assessments.

SUPPLY CHAIN FINANCE AND BLOCKCHAIN TECHNOLOGY

THE CASE OF REVERSE SECURITISATION

Springer This book investigates how the Blockchain Technology (BCT) for Supply Chain Finance (SCF) programs allows businesses to come together in partnerships and accelerate cash flows throughout the supply chain. BCT promises to change the way individuals and corporations exchange value and information over the Internet, and is perfectly positioned to enable

new levels of collaboration among the supply chain actors. The book reveals new opportunities stemming from the application of BCT to SCF financing solutions, particularly reverse factoring - or approved payables financing. To do so, it first identifies the principal barriers and pain points in delivering financing solutions. Then, a possible blockchain-driven supply chain model is defined. Using this framework, the book subsequently discusses relevant use cases for the technology, which could open up new opportunities in the SCF space. It demonstrates that blockchain and distributed ledgers technologies could deliver substantial benefits for all parties involved in SCF transactions, promising to expedite the processes and lower the overall costs of financing programs. Industry giants such as IBM, Maersk, China-based Dianrong and FnConn (a Foxconn subsidiary) are currently working to digitize the global, cross-border supply chain using blockchain technology, and will likely soon create blockchain platforms for supply chain finance. These solutions aim to reduce complexity and make data sharing more secure, accurate and efficient. This book offers a highly topical resource for stakeholders across the entire supply chain, helping them prepare for the upcoming technological revolution.

THE DIGITAL BANKING REVOLUTION

[Lulu.com](https://www.lulu.com) Over the past decade financial service innovations have contributed to a completely new way in which customers can bank, threatening the status quo of traditional retail banks, and redefining a banking model which has been in place for generations. These new technological advancements have facilitated the rapid emergence of digital banking firms and FinTech companies, leading to established banks being forced to swiftly increase their pace of digital adoption to stay relevant and stop mass client attrition to these agile financial start-ups. These threats come at an inopportune time for banks due to mature markets currently experiencing stagnant growth. This coupled with decreasing profit margins due to the competitive pricing of new entrants, and financial customer loyalty becoming ever increasingly more tenuous.

SOCIAL FINANCE

[Oxford University Press](https://www.oxfordup.com) 'Social Finance' brings together rapid advances in what used to be called socially responsible investment. For example, finance for green businesses, and to support economic development both in deprived areas and developing countries.

HANDBOOK OF RESEARCH ON GLOBAL CHALLENGES FOR IMPROVING PUBLIC SERVICES AND GOVERNMENT OPERATIONS

[IGI Global](https://www.igi-global.com) As the field of public administration has been changing due to globalization, government reforms, and increasing governance practices within intergovernmental networks, research and teaching in public administration also adapted itself to these changes. Public policy research

and instruction has become transformed and has diffused into other countries with the help of international organizations and other agents of change and transfer. Research in this field is seen as an opportunity for a definitive shift from traditional models of public administration in the sense that policies may be better designed, articulated, and governed through a collaborative approach, while service provision could be enhanced in terms of proximity, representativeness, and innovativeness. The Handbook of Research on Global Challenges for Improving Public Services and Government Operations provides comprehensive approaches to the study of public administration and public policy from a comparative perspective and includes sound theories and concepts for understanding opportunities and challenges governments face when seeking to improve public services and government operations. The book is a compilation of selective high-quality chapters covering cases, experiences, and practical recommendations on topics related to public administration, public policy, social policy, public management, and public affairs. This book is ideal for policymakers, students, and researchers in the field of public administration, public policy, governance, public management, public affairs, citizen engagement, and administrative sciences and management along with practitioners, stakeholders, and academicians interested in the best practices of various countries in public administration and policy.

FINANCIAL TECHNOLOGY (FINTECH), ENTREPRENEURSHIP, AND BUSINESS DEVELOPMENT

Springer Nature

INTERNATIONAL CORPORATE FINANCE

VALUE CREATION WITH CURRENCY DERIVATIVES IN GLOBAL CAPITAL MARKETS

John Wiley & Sons As globalization is redefining the field of corporate finance, international finance is now part and parcel of the basic literacy of any financial executive. This is why International Corporate Finance is a “must” text for upper-undergraduates, MBAs aspiring to careers in global financial services and budding finance professionals. International Corporate Finance offers thorough coverage of the international monetary system, international financing, foreign exchange risk management and cross-border valuation. Additionally, the book offers keen insight on how disintermediation, deregulation and securitization are re-shaping global capital markets. What is different about International Corporate Finance? Each chapter opens with a real-life mini-case to anchor theoretical concepts to managerial situations. Provides simple decision rules and “how to do” answers to key managerial issues. Cross-border Mergers & Acquisitions, Project Finance, Islamic Finance, Asian Banking & Finance are completely new chapters that no other textbooks currently cover.

Accompanied with a comprehensive instructor support package which includes case studies, an Instructor's Manual, PowerPoint slides, Multiple Choice Questions and more.

FINANCIAL INCLUSION IN EMERGING MARKETS

A ROAD MAP FOR SUSTAINABLE GROWTH

Springer Nature This book discusses ideas for stakeholders to develop strategies to access and use financial products and services such as deposits, loans, and fund transfer mechanism, insurance, payment services, and intermediaries, distribution channels at economical prices in order to cater to the needs of the poor and underprivileged people. Financial inclusion ensures ease of access, availability, and usage of the financial products and services to all the sections of the society. The book will help in recognizing the role of financial inclusion as one of the main drivers in reducing income inequality and thus supporting sustainable economic growth of the countries, especially of an emerging economy. The book provides conceptual and practical ideas from the practitioners, best practices from the experts, and empirical views from the researchers on the best practices and how to mitigate the challenges and issues plaguing the development of the financial inclusion.

SUCCESSFUL CAMPUS OUTREACH FOR ACADEMIC LIBRARIES

BUILDING COMMUNITY THROUGH COLLABORATION

Rowman & Littlefield **Successful Campus Outreach for Academic Libraries: Building Community Through Collaboration** brings together a variety of ways academic libraries engage with communities. This edited volume is a resource for discovering new programming ideas and principles of effective marketing, and it will aid strategic thinking about outreach activities.

INTRODUCTION TO FINANCIAL TECHNOLOGY

Academic Press The financial technology environment is a dynamic, high-pressured, fast-paced world in which developing fast and efficient buy-and-sell order processing systems and order executing (clearing and settling) systems is of primary importance. The orders involved come from an ever-changing network of people (traders, brokers, market makers) and technology. To prepare people to succeed in this environment, seasoned financial technology veteran Roy Freedman presents both the technology and the finance side in this comprehensive overview of this dynamic area. He covers the broad range of topics involved in this industry--including auction theory, databases, networked computer clusters, back-office operations, derivative securities, regulation, compliance, bootstrap statistics, optimization, and risk management---in order to present an in-depth treatment of the current state-of-the-art in financial technology. Each chapter concludes with a list of exercises; a list of references; a list of

websites for further information; and case studies. A Powerpoint presentation that outlines each chapter's main points is available in a companion instructor's website, and an online instructor's manual is available. *With amazing clarity, Freedman explains both the technology side and the finance side of financial technology *Accessible to both finance professionals needing to upgrade their technology knowledge and technology specialists needing to upgrade their finance knowledge *PowerPoint slides for each chapter available on the Elsevier textbooks website

THE FINANCIAL CRISIS INQUIRY REPORT

THE FINAL REPORT OF THE NATIONAL COMMISSION ON THE CAUSES OF THE FINANCIAL AND ECONOMIC CRISIS IN THE UNITED STATES INCLUDING DISSENTING VIEWS

Cosimo, Inc. **The Financial Crisis Inquiry Report**, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. **THE FINANCIAL CRISIS INQUIRY COMMISSION** is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." **News Dissector DANNY SCHECHTER** is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. He has since written three books on the subject including *Plunder: Investigating Our Economic Calamity* (Cosimo Books, 2008), and *The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail* (Disinfo Books, 2011), a companion to his latest film *Plunder The Crime Of Our Time*. He can be reached online at www.newsdissector.com.

CLOUD COMPUTING IN FINANCIAL SERVICES

Springer Financial institutions must become more innovative in the conduct of their business. Cloud computing helps to achieve several objectives: innovative services, re-engineered processes, business agility and value optimization. Research, consultancy practice and case studies in this book consider the opportunities and risks with vendor relationships.

HANDBOOK OF RESEARCH ON CREATING SUSTAINABLE VALUE IN THE GLOBAL ECONOMY

IGI Global During the first decade of the 21st century, the world has witnessed a plethora of corporate scandals, global economic crises, and rising environmental concerns. As a result of these developments, pressure has been mounting on businesses to pay more attention to the environmental and resource consequences of the products they produce and services they deliver. The Handbook of Research on Creating Sustainable Value in the Global Economy contains a collection of pioneering research on the integration of issues of sustainability within the traditional areas of management. While highlighting topics including green marketing, circular economy, and sustainable business, this book is ideally designed for managers, executives, environmentalists, economists, business professionals, researchers, academicians, and students in disciplines including marketing, economics, finance, operations management, communication science, and information technology.

PUBLIC FUNDING SOLUTIONS FOR POLITICAL PARTIES IN MUSLIM-MAJORITY SOCIETIES

IFES

INDIVIDUAL BEHAVIORS AND TECHNOLOGIES FOR FINANCIAL INNOVATIONS

Springer This book offers comprehensive examination of research on the relevance of individual behavior and technology to financial innovations. The chapters cover current topics in finance including integrated reporting, people finance, crowdfunding, and corporate networks. It provides readers with an organized starting point to explore individual behaviors and new technologies used in financial innovations. The explicit and growing speed of the spread of new technologies has hastened the emergence of innovation in the field of finance. Topics like the Internet of Things, semantic computing and big data finance are motivating the construction of financial tools that translate into new financial mechanisms. This book strives help readers better understand the dynamic of the changes in financial systems and the proliferation of financial products. Individual Behaviors and Technologies for Financial Innovations is organized in 16 chapters, organized in three parts. Part I has eight chapters that review

the research on gender differences in attitudes about risk and propensity to purchase automobile insurance, financial literacy models for college students, wellness and attitude of university students in the use of credit cards, impact of programs income distribution and propensity to remain in employment, financial literacy and propensity to resort to informal financing channels, risk behavior in the use of credit cards by students. Part II reviews the research on financing for startups and SMEs, exploring funding through crowdfunding platform, operating credit unions, and using networks of friends to finance small businesses outside the domestic market. The four chapters of Part III describe contexts of financial innovation in listed companies, including society's demands on their behavior - we discuss motivations for companies to participate in corporate sustainability indexes, corporate performance through their profile of socially responsible investments, influence of networks of social relations in the formation of boards, and management of companies, and also the precariousness of financial decisions in large companies, as well as the role of the internet in corporate communication with the market.
