# McCarthyism vs. Clinton Jencks

*University of Oklahoma Press* **For twenty years after World War II, the United States was in the grips of its second and most oppressive red scare. The hysteria was driven by conflating American Communists with the real Soviet threat. The anticommunist movement was named after Senator Joseph R. McCarthy, but its true dominant personality was FBI director J. Edgar Hoover, who promoted and implemented its repressive policies and laws. The national fear over communism generated such anxiety that Communist Party members and many left-wing Americans lost the laws' protections. Thousands lost their jobs, careers, and reputations in the hysteria, though they had committed no crime and were not disloyal to the United States. Among those individuals who experienced more of anticommunism's varied repressive measures than anyone else was Clinton Jencks. Jencks, a decorated war hero, adopted as his own the Mexican American fight for equal rights in New Mexico's mining industry. In 1950 he led a local of the International Union of Mine, Mill, and Smelter Workers in the famed Empire Zinc strike—memorialized in the blacklisted 1954 film *Salt of the Earth*—in which wives and mothers replaced strikers on the picket line after an injunction barred the miners themselves. But three years after the strike, Jencks was arrested and charged with falsely denying that he was a Communist and was sentenced to five years in prison. In *Jencks v. United States* (1957), the Supreme Court overturned his conviction in a landmark decision that mandated providing to an accused person previously hidden witness statements, thereby making cross-examination truly effective. In *McCarthyism vs. Clinton Jencks*, Caballero reveals for the first time that the FBI and the prosecution knew all along that Clinton Jencks was innocent. Jencks's case typified the era, exposing the injustice that many suffered at the hands of McCarthyism. The tale of Jencks's quest for justice provides a fresh glimpse into the McCarthy era's oppression, which irrevocably damaged the lives, careers, and reputations of thousands of Americans.**

## How a Family of Chinese Immigrants Led the First Fight to Desegregate Schools in the Jim Crow South

*Beacon Press* **A generation before *Brown v. Board of Education* struck down America's "separate but equal" doctrine, one Chinese family and an eccentric Mississippi lawyer fought for desegregation in one of the greatest legal battles never told. On September 15, 1924, Martha Lum and her older sister Berda were barred from attending middle school in Rosedale, Mississippi. The girls were Chinese American and considered by the school to be "colored"; the school was for whites. This event would lead to the first US Supreme Court case to challenge the constitutionality of racial segregation in Southern public schools, an astonishing thirty years before the landmark *Brown v. Board of Education* decision. Unearthing one of the greatest stories never told, journalist Adrienne Berard recounts how three unlikely heroes sought to shape a new South. A poor immigrant from southern China, Jeu Gong Lum came to America with the hope of a better future for his family. Unassuming yet boldly determined, his daughter Martha would inhabit that future and become the face of the fight to integrate schools. Earl Brewer, their lawyer and staunch ally, was once a millionaire and governor of Mississippi. When he took the family's case, Brewer was both bankrupt and a political pariah—a man with nothing left to lose. By confronting the "separate but equal" doctrine, the Lum family fought for the right to educate Chinese Americans in the white schools of the Jim Crow South. Using their groundbreaking lawsuit**

as a compass, Berard depicts the complicated condition of racial otherness in rural Southern society. In a sweeping narrative that is both epic and intimate, *Water Tossing Boulders* evokes a time and place previously defined by black and white, a time and place that, until now, has never been viewed through the eyes of a forgotten third race. In vivid prose, the Mississippi Delta, an empire of cotton and a bastion of slavery, is reimagined to reveal the experiences of a lost immigrant community. Through extensive research in historical documents and family correspondence, Berard illuminates a vital, forgotten chapter of America's past and uncovers the powerful journey of an oppressed people in their struggle for equality.
