Right here, we have countless book **Scanner Pro35 Realistic Manual Service** and collections to check out. We additionally give variant types and with type of the books to browse. The usual book, fiction, history, novel, scientific research, as with ease as various additional sorts of books are readily nearby here.

As this Scanner Pro35 Realistic Manual Service, it ends stirring inborn one of the favored books Scanner Pro35 Realistic Manual Service collections that we have. This is why you remain in the best website to look the incredible ebook to have.

KEY=REALISTIC - SAVANAH NELSON

Manual of Analogue Sound Restoration Techniques Intelligent Computing and Innovation on Data Science Proceedings of ICTIDS 2019 Springer Nature This book covers both basic and high-level concepts relating to the intelligent computing paradigm and data sciences in the context of distributed computing, big data, data sciences, high-performance computing and Internet of Things. It is becoming increasingly important to develop adaptive, intelligent computing-centric, energy-aware, secure and privacy-aware systems in high-performance computing and IoT applications. In this context, the book serves as a useful guide for industry practitioners, and also offers beginners a comprehensive introduction to basic and advanced areas of intelligent computing. Further, it provides a platform for researchers, engineers, academics and industrial professionals around the globe to showcase their recent research concerning recent trends. Presenting novel ideas and stimulating interesting discussions, the book appeals to researchers and practitioners working in the field of information technology and computer science. **Intelligent Technical Systems** Springer Science & Business Media Intelligent technical systems are networked, embedded systems incorporating real-time capacities that are able to interact with and adapt to their environments. These systems need innovative approaches in order to meet requirements like cost, size, power and memory consumption, as well as real-time compliance and security. Intelligent Technical Systems covers different levels like multimedia systems, embedded programming, middleware platforms, sensor networks and autonomous systems and applications for intelligent engineering. Each level is discussed by a set of original articles summarizing the state of the art and presenting a concrete application; they include a deep discussion of their model and explain all design decisions relevant to obtain a mature solution. **The Green Screen Handbook Real-World Production Techniques** John Wiley & Sons Changing Television Environments 6th European Conference, EuroITV 2008, Salzburg, Austria, July 3-4, 2008, Proceedings Springer Science & Business Media Since the time when interactive television emerged as a medium for the home environment, it has been permanently evolving. Changing requirements and user behavior, e.g., the demand for being mobile and have access to information and entertainment anywhere and any time, are challenging interactive TV. New kinds of interactive services have to be conceived for the increasing mobile, ubiquitous requirements of the different user groups. In these changing environments, a better understanding of emerging contexts and their implications is essential. This gave birth to the idea for the theme of the EuroITV 2008 Conference: "Changing Television Environments." EuroITV 2008, the 6th edition of the European Conference on Interactive Television, was organized and hosted by the HCI and Usability Unit, ICT&S Center, University of Salzburg, Austria. The EuroITV Conference Series started at Brighton University in 2003 and 2004. It was followed by Aalborg University in 2005, Athens University of Economics and Business in 2006 and by CWI (Centrum Voor Wiskunde en Informatica) in Amsterdam 2007. We would like to thank all former Chairs for making this great conference series happen and for providing us with the opportunity to host EuroITV 2008. **Design of Highway Bridges An LRFD Approach** John Wiley & Sons Up-to-date coverage of bridge design and analysis—revised to reflect the fifth edition of the AASHTO LRFD specifications **Design of Highway Bridges, Third Edition** offers detailed coverage of engineering basics for the design of short- and medium-span bridges. Revised to conform with the latest fifth edition of the American Association of State Highway and Transportation Officials (AASHTO) LRFD Bridge Design Specifications, it is an excellent engineering resource for both professionals and students. This updated edition has been reorganized throughout, spreading the material into twenty shorter, more focused chapters that make information even easier to find and navigate. It also features: Expanded coverage of computer modeling, calibration of service limit states, rigid method system analysis, and concrete shear Information on key bridge types, selection principles, and aesthetic issues Dozens of worked problems that allow techniques to be applied to real-world problems and design specifications A new color insert of bridge photographs, including examples of historical and aesthetic significance New coverage of the "green" aspects of recycled steel Selected references for further study From gaining a quick familiarity with the AASHTO LRFD specifications to seeking broader guidance on highway bridge design—**Design of Highway Bridges** is the one-stop, ready reference that puts information at your fingertips, while also serving as an excellent study guide and reference for the U.S. Professional Engineering Examination. **The Educators' Handbook to Interactive Videodisc** Assn for Educational This overview of interactive videodisc technology is designed to assist educators in finding the appropriate equipment and software for any specific application. The handbook may also serve as a starting point for many educators who know nothing of the technology and assist them in deciding whether this technology is worth pursuing as an educational tool in specific situations. Although not comprehensive, the listings reflect a good portion of the videodisc-related products available today and the prices provide a good indication of the general price range of specific items. The handbook contains 10 chapters: (1) Introduction to Videodiscs; (2) Overview of Laser Disc Systems; (3) Selecting a Laser Videodisc Player; (4) Video Playback Units; (5) Videodisc Interface Units; (6) Disc Player Peripherals; (7) Videodisc System Packages; (8) Educational Videodisc Software; (9) Interactive Videodisc Authoring Languages; and (10) Videodisc Care and Maintenance. Appendices include directories of laser disc players; television monitors and projects; laser disc interfaces; laser disc peripherals; laser disc system packages; videodisc software (listed by subject area); videodisc mastering options; interactive authoring languages; service information; and videodisc resources, which includes a manufacturer's index. (DJR) **Machine Learning and Knowledge Discovery in Databases. Applied Data Science Track European Conference, ECML PKDD 2021, Bilbao, Spain, September 13-17, 2021, Proceedings, Part IV** Springer Nature The multi-volume set LNAI 12975 until 12979 constitutes the refereed proceedings of the European Conference on Machine Learning and Knowledge Discovery in Databases, ECML PKDD 2021, which was held during September 13-17, 2021. The conference was originally planned to take place in Bilbao, Spain, but changed to an online event due to the COVID-19 pandemic. The 210 full papers presented in these proceedings were carefully reviewed and selected from a total of 869 submissions. The volumes are organized in topical sections as follows: Research Track: Part I: Online learning; reinforcement learning; time series, streams, and sequence models; transfer and multi-task learning; semi-supervised and few-shot learning; learning algorithms and applications. Part II: Generative models; algorithms and learning theory; graphs and networks; interpretation, explainability, transparency, safety. Part III: Generative models; search and optimization; supervised learning; text mining and natural language processing; image processing, computer vision and visual analytics. Applied Data Science Track: Part IV: Anomaly detection and malware; spatio-temporal data; e-commerce and finance; healthcare and medical applications (including Covid); mobility and transportation. Part V: Automating machine learning, optimization, and feature engineering; machine learning based simulations and knowledge discovery; recommender systems and behavior modeling; natural language processing; remote sensing, image and video processing; social media. **Portishead Radio** New Generation Publishing Portishead Radio was the world's largest long range maritime radio communications station. Originally located at a site in Devizes, Wiltshire in 1920, the transmitters were relocated to Portishead, near Bristol, shortly after the receiving station was moved to Highbridge, Somerset during the 1920s. The station, originally operated by the British Post Office, provided vital communication links both to and from ships at sea, using Wireless Telegraphy (Morse code), Radiotelephony, and latterly, Radiotelex. The developmental and war years are recounted in detail, as well as the rise (and eventual fall) of commercial maritime radio traffic over 80 years of service. The aeronautical and leisure markets are recalled, as well as other services provided by the station. The station closed in 2000, as satellite technology became the preferred method of ship-to-shore communication. This book gives both a technical and social history of the station; how it worked, what it was like to work there, and fondly recalls many of the stories and characters who became part of the station's charm. Using many photographs, staff memories, and with recently-found magazine and newspaper articles, the complete history of this important and much-missed station can be told for the first time. **Corrosion of Weldments** ASM International Corrosion failures of industrial components are commonly associated with welding. The reasons are many and varied. For example, welding may reduce the resistance to corrosion and environmentally assisted cracking by altering composition and microstructure, modifying mechanical properties, introducing residual stress, and creating physical defects. This book details the many forms of weld corrosion and the methods used to minimize weld corrosion. Chapters on specific alloys groups—carbon and alloy steels, stainless steels, high-nickel alloys, and nonferrous alloys—describe both general welding characteristics and the metallurgical factors that influence corrosion behavior. Corrosion problems associated with dissimilar metal weldments are also examined. Case histories document corrosion problems unique to specific industries including oil and gas, chemical processing, pulp and paper, and electric power. Special challenges caused by high-temperature environments are discussed. Commonly used methods to monitor weld corrosion and test methods for evaluation of intergranular, pitting, crevice, stress-corrosion cracking, and other forms of corrosion are also reviewed. **Liber rubeus de scaccario Principles of Fluorescence Spectroscopy** Springer Science & Business Media In the second edition of Principles I have attempted to maintain the emphasis on basics, while updating the examples to include more recent results from the literature. There is a new chapter providing an overview of extrinsic fluorophores. The discussion of timeresolved measurements has been expanded to two chapters. Quenching has also been expanded in two chapters. Energy transfer and anisotropy have each been expanded to three chapters. There is also a new chapter on fluorescence sensing. To enhance the usefulness of this book as a textbook, most chapters are followed by a set of problems. Sections which describe advanced topics are indicated as such, to allow these sections to be skipped in an introduction course. Glossaries are provided for commonly used acronyms and mathematical symbols. For those wanting additional information, the final appendix contains a list of recommended books which expand on various specialized topics.' from the author's Preface **Proceedings of the International Conference of Sustainable Production and Use of Cement and Concrete ICSPCC 2019** Springer This volume gathers the latest advances, innovations and applications presented by leading international researchers and engineers at the International Conference on Sustainable Production and Use of Cement and Concrete (ICSPCC 2019), held in Villa Clara, Cuba on June 23-30, 2019. It covers highly diverse topics, including sustainable production of low-carbon cements, novelties in the development of supplementary cementitious materials, new techniques for the microstructural characterization of construction materials, Portland-based and alkaline-activated cementitious systems, development of additives and additions in the sustainable production of concrete, sustainable production of high-performance concrete, durable concrete produced with recycled aggregates, development of mortars for historical patrimony restoration, environmental and economic assessment of the production and use of cement. The contributions, which were selected by means of a rigorous, international peer-review process, highlight numerous exciting ideas that will inspire novel research directions and foster multidisciplinary collaboration between different specialists. **Calcined Clays for Sustainable Concrete Proceedings of the 3rd International Conference on Calcined Clays for Sustainable Concrete** Springer Nature This volume comprises the proceedings of the Third International Conference on Calcined Clays for Sustainable Concrete held in New Delhi, India in October 2019. The papers cover topics related to geology of clay, hydration and performance of blended systems with calcined clays, alkali activated binders, and economic and environmental impacts of the use of calcined clays in cement-based materials. The book presents research on influence of processing on reactivity of calcined clays, influence of clay mineralogy on reactivity, geology of clay deposits, and the environmental impact of use of calcined clays in cement and concrete and field applications of calcined clay in concrete. Apart from giving an overview of the progress of research during the last two years, this work also covers the state-of-the art on the practical aspects of production and use of calcined clays in construction. The contents of this volume will prove useful to researchers and graduate students working in the areas of cement chemistry, cement production, and concrete design. **Diccionario Enciclopédico de Términos Técnicos, Inglés Español, Español-inglés The Fabulous Phonograph, 1877-1977** New York : Macmillan History of the phonograph in text and photographs

covering the technology advances and the business enterprises that promoted phonographs and sound recording. Carpal Tunnel Syndrome [Springer Science & Business Media](#) Covers all aspects of CTS: diagnosis - management - outcome assessment Abundantly illustrated Ionic Liquids in Synthesis [John Wiley & Sons](#) The demand for increasingly clean and efficient chemical syntheses is becoming more urgent from both an economic and an environmental standpoint. Many technologies rely on large quantities of hazardous even toxic solvents. A promising and now established approach is the development of new, ionic solvents that are fluid at room temperature. These solvents not only have the potential to increase chemical reactivity and thus lead to more efficient processes, but are also non-flammable and are less toxic than conventional solvents due to their low vapor pressure. This volume brings together the latest developments in this fascinating field, supplemented by numerous practical tips, and thus provides those working in both research and industry with an indispensable source of information. Low Vision Manual [Elsevier Health Sciences](#) .this book represents a real milestone for low vision care because it is one of the first low vision books in the world, and the first from the UK, that doesn't just give lip service to multi-disciplinary collaboration- it has a multi-disciplinary authorship. Barbara Ryan, Research Associate, School of Optometry and Vision Sciences, Cardiff University, Cardiff, UK Low Vision Manual is a comprehensive guide and up-to-date reference source, written by clinical and research experts in the fields of disease detection and management; primary and secondary optometric care; low vision optics and prescribing; counselling and rehabilitation. All these areas are explored in this book in four key sections: Section One: Definition of low vision and its epidemiology Section Two: The measurement of visual function of the visually impaired Section Three: The optics and practical tips on prescribing low vision aids Section Four: Rehabilitation strategies and techniques This is an important reference tool for all professionals involved with the visually impaired. The book covers everything a practitioner will need on a day-to-day basis. Clear layout with practical tips, worked examples and practical pearls will enable the front-line eye-care professional to provide patients with sound, research-based clinical care and rehabilitation. An essential reference for: . Ophthalmology . Optometry . Orthoptics . Ophthalmic nursing . Visual rehabilitation . Occupational therapy . Social work . Peer work . Psychology . Dispensing opticians Advanced Accountancy Volume-I, 11th Edition [Vikas Publishing House](#) Over the years Advanced Accountancy has emerged as the definitive and comprehensive textbook on accountancy as it completely meets the requirements of students preparing for BCom, MCom, MBA, BBA and professional examinations conducted by different institutions, such as the Institute of Chartered Accountants of India, the Indian Institute of Bankers, the Institute of Company Secretaries of India, and the Institute of Cost Accountants of India. New in this Edition • Basic features of the 32 Accounting Standards of India issued by the Institute of Chartered Accountants of India and 40 Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs. • Updation and convergence of Indian accounting standards with international financial reporting standards. • Strengthening and updating of the text material in the light of new accounting standards. • Latest questions and problems from examinations conducted by different professional bodies and universities. Bioinformatics for Comparative Proteomics [Humana Press](#) With the rapid development of proteomic technologies in the life sciences and in clinical applications, many bioinformatics methodologies, databases, and software tools have been developed to support comparative proteomics study. In Bioinformatics for Comparative Proteomics, experts in the field highlight the current status, challenges, open problems, and future trends for developing bioinformatics tools and resources for comparative proteomics research in order to deliver a definitive reference providing both the breadth and depth needed on the subject. Structured in three major sections, this detailed volume covers basic bioinformatics frameworks relating to comparative proteomics, bioinformatics databases and tools for proteomics data analysis, and integrated bioinformatics systems and approaches for studying comparative proteomics in the systems biology context. Written for the highly successful Methods in Molecular Biology™ series, the contributions in this book provide the meticulous, step-by-step description and implementation advice that is crucial for getting optimal results in the lab. Comprehensive and easy-to-use, Bioinformatics for Comparative Proteomics serves all readers who wish to learn about state-of-the-art bioinformatics databases and tools, novel computational methods and future trends in proteomics data analysis, and comparative proteomics in systems biology. 8th RILEM International Symposium on Testing and Characterization of Sustainable and Innovative Bituminous Materials [Springer](#) This work presents the results of RILEM TC 237-SIB (Testing and characterization of sustainable innovative bituminous materials and systems). The papers have been selected for publication after a rigorous peer review process and will be an invaluable source to outline and clarify the main directions of present and future research and standardization for bituminous materials and pavements. The following topics are covered: - Characterization of binder-aggregate interaction - Innovative testing of bituminous binders, additives and modifiers - Durability and aging of asphalt pavements - Mixture design and compaction analysis - Environmentally sustainable materials and technologies - Advances in laboratory characterization of bituminous materials - Modeling of road materials and pavement performance prediction - Field measurement and in-situ characterization - Innovative materials for reinforcement and interlayer systems - Cracking and damage characterization of asphalt pavements - Recycling and re-use in road pavements This is the proceedings of the RILEM SIB2015 Symposium (Ancona, Italy, October 7-9, 2015). Come for Me A Southern Nights Novella [Createspace Independent Publishing Platform](#) She's his wife, his everything, and God help the thugs who dared to take her hostage. When an ex-military security expert's wife is taken hostage along with her colleagues, he'll use every weapon in his arsenal to get her out safely. But when it turns out someone they both trust is working with the bad guys, she'll have to fight alongside him to gain their freedom. Olivia Brannan arrives at her Atlanta financial firm on what should be one of the best mornings of her life. But she walks into eerie silence, greeted only by bloodstains. Her quiet, civilized workplace is under attack. When she can't reach Dain, her uber-protective hero, she realizes she must stay alive on her own until help arrives. And she must decide- is she prepared to kill to save herself and the gift she has for her husband? Dain Brannan is a client security specialist at JCL Security. He's one of the best in the business. But even in his worst nightmares, he never expected to have to use his skills to rescue his beloved Livie. When thugs take her firm's personnel hostage, he'll do anything to save her- including go around or through the police. Can his team do what the SWAT teams cannot- bring her and her colleagues out alive? Southern Nights: Enigma - Come For Me (Book 1) Deceive Me (Book 2) And see where it all began with the original Southern Nights - Teach Me (Book 1) Trust Me (Book 2) Take Me (A Southern Nights Standalone) A Textbook of Cost and Management Accounting, 11th Edition [Vikas Publishing House](#) A Textbook of Cost and Management Accounting provides the students with thorough grounding in cost concepts, cost behaviour and methods, and techniques of cost and management accounting with an understanding of the uses and limitations of cost and financial data for managerial operations. The text of the subject matter has been presented in a student-friendly, simple and intelligible manner. Every discussion involving conceptual complexity is immediately illustrated by a numerical example. In addition, the book contains a liberal sprinkling of charts and diagrams so as to make the subject easily understandable and highlight its finer points. The subject matter has been organized on 'first things first' basis for its logical presentation that sustains interest. The approach of the book is examination oriented. Thus, a good number of problems and solutions have been included in its chapters. Theoretical and numerical questions have been mostly selected from various examinations. Objective type questions have been given to serve as self-test by students. This is an ideal book for self-study. An all-inclusive, ideal book for self-study, both for the students of Cost and Management Accounting as well as working professionals. Underwater Digital Video Made Easy [Hammerhead Press](#) Value-added Products from Beekeeping [Food & Agriculture Org.](#) The purpose of this bulletin is to introduce beekeepers, people considering keeping bees and those interested in processing and marketing to the large diversity of products that can be derived from beekeeping for income generation. Each product category, including cosmetics, derived from basic bee products such as honey, pollen, wax, propolis, royal jelly, venom, adult and larval honeybees, is presented in this publication, providing history, description, product quality, marketing aspects and a few selected recipes. A detailed bibliography, a list of suppliers of equipment, conversion of weights and Codex Alimentarius Standards for Honey are given in the annexes. The Story of the Solar System [Library of Alexandria](#) By the term "Solar System" it is to be understood that an Astronomer, speaking from the standpoint of an inhabitant of the Earth, wishes to refer to that object, the Sun, which is to him the material and visible centre of life and heat and control, and also to those bodies dependent on the Sun which circulate round it at various distances, deriving their light and heat from the Sun, and known as planets and comets. The statement just made may be regarded as a general truth, but as the strictest accuracy on scientific matters is of the utmost importance, a trivial reservation must perhaps be put upon the foregoing broad assertion. There is some reason for thinking that possibly one of the planets (Jupiter) possesses a little inherent light of its own which is not borrowed from the Sun; whilst of the comets it must certainly be said that, as a rule, they shine with intrinsic, not borrowed light. Respecting these reservations more hereafter. The planets are divided into "primary" and "secondary." By a "primary" planet we mean one which directly circulates round the Sun; by a "secondary" planet we mean one which in the first instance circulates round a primary planet, and therefore only in a secondary sense circulates round the Sun. The planets are also "major" or "minor"; this, however, is only a distinction of size. The secondary planets are usually termed "satellites," or, very often, in popular language, "moons," because they own allegiance to their respective primaries just as our Moon—the Moon—does to the Earth. But the use of the term "moon" is inconvenient, and it is better to stick to "satellite." There is yet another method of classifying the planets which has its advantages. They are sometimes divided into "inferior" and "superior." The "inferior" planets are those which travel round the Sun in orbits which are inside the Earth's orbit; the "superior" planets are those whose orbits are outside the Earth. Corporate Accounting, 6e [Vikas Publishing House](#) Financial Accounting provides a comprehensive coverage of course requirements for students studying to appear in the Financial Accounting paper of B.Com examinations under different Indian universities, including those that have adopted the CBCS system. It also meets the requirements of students appearing in the accounting paper at the Foundation Examinations of Institute of Chartered Accountants of India, the Institute of Company Secretaries of India and the Institute of Cost Accountants of India. Electrodeposition from Ionic Liquids [John Wiley & Sons](#) Reflecting the dramatic rise in interest shown in this field over the last few years, this book collates the widespread knowledge into one handy volume. It covers in depth all classes of ionic liquids thus far in existence, with the individual chapters written by internationally recognized experts. The text is written to suit several levels of difficulty, containing information on basic physical chemistry in ionic liquids, a theory on the conductivity as well as plating protocols suited to undergraduate courses. The whole is rounded off with an appendix providing experimental procedures to enable readers to experiment with ionic liquids for themselves. Japanese Participation in British Industry [Routledge](#) Japanese participation in British industry has increased greatly in recent years. While the new investment is welcomed for the jobs it helps create and the injection of new technology and managerial techniques, many people are fearful lest this increased participation should lead to loss of control of British industry by British nationals and adversely affect British competitors and their struggle for global markets. These concerns are made worse by lack of knowledge about just how extensive Japanese managerial participation in British industry is and about how Japanese practices differ. This book, based on extensive original research, answers these and related questions. It is the first detailed study of the extent of Japanese participation in British industry, and of its economic impact in a number of key areas. The Buffalo (Bubalis bubalis) - Production and Research [Bentham Science Publishers](#) This handbook aims at focusing on the husbandry of the common water buffalo, (Bubalis bubalis). The book covers a broad range of topics such as the buffalo's genetic evolution, cytogenetics, subspecies, breed diversification, feeding and metabolic specificity, adaptable response to environmental stress factors, welfare, dairy requirements and production, reproduction and embryo technologies, cryopreservation, sperm cell sexing, somatic cell cloning and transgenesis. Chapters presented and reviewed in this book have been contributed by renowned scientists that have devoted years of research to the understanding of this species, and highlight the most recent advances in basic and applied science to unveil the understanding of physiological facets intrinsic to this animal species. The depth of the selected topics makes this book especially suited for readers of all academic levels of study. Researchers, students and professionals will find this book a useful guide to breeding and farming the water buffalo. Practical Management Philosophy [PHPP](#) ?The founder of the Panasonic Group presents his thoughts about management from a variety of angles in this book. The ideas he mentions are not derived out of academic inquiry, but reflect the lessons he learned from his own management experience. He believes that building a business based on such a philosophy will lead to success. Konosuke Matsushita was poor, frequently got sick, and no real business experience, but did drive and passion. He started his company with one product, an electric light socket of his own design. He tells us, "There is one important thing to remember. Every manager needs to adopt an approach that makes use of their unique that best suits your own personal characteristics. Every single person has different inherent quality. Hatching that approach is the path that will lead to success. Practical Management Philosophy demonstrates how managers think about management and how important the management philosophy is when you do business. 1. First Establish a Management Philosophy 2. [PHP](#) [My Bass Practice Journal Weekly Double Bass Lesson Assignment Book for Kids](#) My Bass Practice Journal is a valuable resource for any young bassist. It will help them learn to practice effectively, making the most of their time to help them progress, all while having fun and fostering a love of music. This journal is designed to help kids stay motivated and take ownership of their own learning. Each month, they'll be guided to reflect on their wins and challenges. Then, they'll set goals for the following month and make a plan to achieve them. Each week, there is space to summarize their cello lesson, list the week's assignments, log their daily practice, and reflect on the week's progress. The journal includes space to record 52 weeks-worth of progress with their instrument, and it's undated, so start any time! By the end of the year, they will be amazed of how far they've come. The book also includes bonus material, such as a musical glossary, fingering chart, fun activity pages, space for notes, and blank staff paper. [Technical Mathematics Delmar Pub](#) [Basic Theory and Application of Electron Tubes Audio Amateur Incorporated](#) [Apple A Global History Reaktion Books](#) [Gravenstein. Coe's Golden Drop. Mendocino Cox.](#) The names sound like something from the imagination of Tolkien or perhaps the ingredients in a dubious magical potion rather than what they are—varieties of apples. But as befits their enchanting names, apples have transfixed and beguiled humans for thousands of years. [Apple: A Global History](#) explores the cultural and culinary importance of a fruit born in the mountains of Kazakhstan that has since traversed the globe to become a favorite almost everywhere. From the Garden of Eden and Homer's *Odyssey* to Johnny Appleseed, William Tell, and even Apple Computer, Erika Janik shows how apples have become a universal source of sustenance, health, and symbolism from ancient times to the present day. Featuring many mouthwatering illustrations, this exploration of the planet's most popular fruit includes a guide to selecting the best apples, in addition to apple recipes from around the world, including what is believed to be the first recorded apple recipe from Roman gourmand Marcus Apicius. And Janik doesn't let us forget that apples are not just good eating; their juice also makes for good drinking—as the history of cider in North America and Europe attests. Janik grew up surrounded by apple iconography in Washington, the "apple state," so there is no better author to tell this fascinating story. Readers will eat up this surprising and entertaining tale of a fruit intricately linked to human history.
