CEREBRAL CIRCUS

A PSEUDO-AUTOBIOGRAPHICAL NOVEL

Xlibris Corporation CEREBRAL CIRCUS gives authentic insight into neurological training and research, told in the age-old scenario of the unpolished country boy versus the city slicker. The protagonist is Allen Flint Childress, a half-breed Cherokee lad raised in the infertile red clay hills of North Louisiana. He was drawn into medicine by his love and respect of Dr. Homer Baines Shirley, a tough old country doctor who pulled Allen into the world by a risky traumatic forceps delivery one cold December night in 1967. A straight-A scholarship student at L.S.U., Allen sailed through the premed curriculum by an indefinable instinct and ambition for neurology; attempting as a freshman to register early for senior neuroanatomy. He succeeded in this improbable drive through a risky affair with his faculty advisor, an attractive older woman. Through hard work and scholarship aid, he graduated from Cornell University Medical College in 1991, then went on to internship at Bellevue Hospital in New York, a 3,500 teaching hospital with approximately 1000 trainees. When Allen became a resident physician in neurology, he became embroiled in a longstanding conflict with Dr. Bertrand O. Stanford, senior professor of neurology; who was performing unethical dangerous neurological research because of his ambition to be awarded the Nobel Prize in Medicine. But what could Allen, a mere neurology resident do against a senior professor? Allen gained a modicum of courage when he asked himself, What would old Dr. Homer Shirley who delivered me, do if he were in my shoes?

INCREASING PRODUCTIVITY AND EFFICIENCY IN ONLINE TEACHING

IGI Global Distance learning has become very popular in recent years, making evident some of the problems inherent to online classes as they are today. High attrition rates, driven in part by student isolation and low satisfaction, have plagued online courses. For an online class to succeed, it must be built upon engaging media and meaningful interaction. *Increasing Productivity and Efficiency in Online Teaching* provides a reference for educators in virtual classrooms and enumerates strategies to foster instructor engagement and support. Because co-construction of information, opposed to rote memorization of disseminated facts, engages students and develops critical thinking skills, online education must shift to reflect this. Drawing from learning theory, this publication focuses on the ways educators can shape their online classes to best suit their students and leave them with knowledge and course satisfaction. This book is recommended for researchers, developers, students of education, administrators, and online educators in all subject areas.

UNDERSTANDING MULTIMODAL DISCOURSES IN ENGLISH LANGUAGE TEACHING TEXTBOOKS

IMPLICATIONS FOR STUDENTS AND PRACTITIONERS

Bloomsbury Publishing Textbooks are indispensable components and in some case the cornerstones of the mission of English Language Teaching (ELT). However, they are artefacts of a pedagogical culture that rarely echo the concerns of their most prolific consumers: teachers and students. This book offers a useful framework for evaluating ELT textbooks from a critical discourse perspective; one that is based on sound current research but also offers practical guidance to teachers. Building from a foundational understanding of ELT textbooks, the author presents a systematic procedure to critically

analyze their multimodal discourse, examine how those discourses are negotiated between teachers and students in class, and measure how those consumers privately value the lessons. The book provides teachers with the tools they need to select and adapt materials based on critical multimodal discourse analysis, where not only the text but the pictures, websites, audio, visual elements too are subjected to a process which can reveal underlying ideologies, assumptions, omissions and reifications. The triangulated approach, demonstrated in a series of vignettes featuring Korean university students and native-English-speaking instructors, can inform textbook choice, instigate change, and inspire lesson re-contextualization to best suit the needs of its primary consumers.
