COLUMBIA LAW REVIEW

Columbia Law Review publishes articles and book reviews of scholarly and professional interest by academic authors and practicing attorneys, as well as notes written by members of the review.

PROBLEMS AND MATERIALS ON COMMERCIAL LAW

Aspen Publishers A straightforward look at all relevant statutes and major cases in the law, Problems and Materials on Commercial Law features complete materials and problems on sales, payment systems, and secured transactions. The text continues to be up-to-date, covering the latest changes in U.C.C. Articles 2, 3, 4, and 9--as well as other relevant laws--and the cases related to each. Interesting, well-crafted problems progress from easy to more complex, sharpening students' skills and enabling them to understand the field's complexities and difficult statutory language. A sensible modular organization follows the order of the U.C.C., allowing for greater flexibility in teaching. This effective format and manageable length makes Problems and Materials on Commercial Law concise and efficient. New co-author Stephen M. McJohn brings his considerable experience and expertise to the Tenth Edition. A professor of law at Suffolk University, McJohn has written many law review articles on copyright and commercial law and is the author or co-author of major texts in the field. Important new cases and developments are presented as well as new and revised Problems. Thoroughly updated, the revised Tenth Edition presents: New co-author Stephen M. McJohn considerable experience and expertise professor of law at Suffolk University has written numerous law review articles on copyright and commercial law author or co-author of major texts in the field important new cases and developments new and revised Problems

CORPORATIONS AND OTHER BUSINESS ORGANIZATIONS

CASES AND MATERIALS

Foundation Press The concise version of Corporations, Tenth Edition includes materials on Limited Liability Partnerships and Limited Liability Companies. This edition continues the approach of earlier editions in emphasizing rich, full-bodied versions of the principal cases, and a functionalist approach to the problems of contract law. The new edition includes a great number of new principal cases and case notes, as well as longer, analytical notes The emphasis of previous editions on international contract law continues.

BUSINESS ASSOCIATIONS, CASES AND MATERIALS ON AGENCY, PARTNERSHIPS, AND CORPORATIONS

Foundation Press This title is a part of our CasebookPlus(tm) offering as ISBN 9781634595216. Learn more at CasebookPlus.com. With the prior edition of this concise, up-to-date casebook having been adopted at over 100 law schools, the ninth edition preserves the authors' tradition of providing a comprehensive overview of agency, partnership, and corporation law. It also continues to emphasize six basic editorial principles: Be lean but not mean, cases edited ruthlessly to produce a readable and concise result. Facts matter, so they are included in all their potential ambiguity. Bring a planner's perspective to the table through extensive use of transactionally-oriented problems. It's a casebook not a treatise. No long, stultifying textual passages. Provide the cases and let the individual teacher use them as he or she sees fit. Try to find cases that are fun to teach. Great facts or a clever analysis are always given first priority in case selection. Provide a teachers' manual that goes into great depth, with analysis of every case and, whenever applicable, offering the disparate views of each author. An exhaustive teachers' manual extensively discusses every case and provides answers to every question in the text. One feature that many adopters find especially helpful is that all three editors give their own approach to the cases, showing the different ways in which the same case can be taught. Annually updated PowerPoint slides cover almost all sections of the book and feature an extensive use of data, graphics, and photos. For more information and additional teaching materials, visit the companion site.

MATERIALS FOR A BASIC COURSE IN CIVIL PROCEDURE

This casebook is the Concise, and very modern, Edition of a respected classic of civil procedure casebooks. The key to its brevity is its step-by-step survey of the subject in Part One. This survey is more than an introduction. It suffices to give the students a complete and solid grounding in civil procedure. There is a tight 250-page comprehensive treatment of modern civil procedure, comprising cases and commentaries and text and questions that progress from pretrial to settlement to trial to judgment to appeal to jurisdiction to complex litigation. In our casebook, brief yet thorough coverage can be effected through its efficient and systematic step-by-step survey. The survey in the Concise Edition has been somewhat beefed up to compensate for the omission of full chapters on pretrial, trial, appeal, and complex litigation. Moreover, the Concise Edition has been revised to account for changes in the law since the casebook's Tenth Edition emerged last year. Although special topics receive coverage slightly different from that in the Field, Kaplan & Clermont casebook's complete version, the intention remains to give them full and solid treatment. Conciseness is achieved by selecting a limited number of topics rather than by retaining many topics in senselessly compact form. Teachers of civil procedure have widely shared goals. First, we want students to perceive the essence and ultimately the thematic coherence of the adversary system prevailing in U.S. courts. Second, we want to convey an understanding of the constitutional and legal structure in which those courts operate. Third, we believe that the whole course serves another purpose, namely, to develop a sense of the importance of any given procedural system in constructing the surrounding body of substantive law. The Concise Edition's retained core of materials allows accomplishing these goals efficiently. The materials' arrangement allows accomplishing the goals effectively. By utilizing the survey the teacher can fulfill the responsibility of getting across the essential information, while reserving enough time to do the more significant and palatable. However, the structure of the casebook is not a strait jacket. Some teachers especially newcomers to the casebook who are not yet comfortable with Part One?might prefer to begin with the jurisdictional materials. The suggestion of flexibility in pursuing the overall aim does not mean that the book arrives with no thought behind the order of

materials. Nor does the emphasis on brevity alone explain resort to a survey method, as a simple-minded concession to the press of time. A pedagogic theory definitely lies behind the book. This casebook's solution is not to find a seam, but to present the whole. Part One of the casebook in fact provides a series of three concentric overviews of increasing breadth and depth. Each is small enough in scope for the students to absorb when they reach it, but each stretches their minds sufficiently to prepare them for the greater effort of assimilating the succeeding materials. The casebook's approach, then, is to present the subject of civil procedure to the students in a series of waves, each successive one of greater sophistication. This allows the students to understand far more broadly and to probe far more deeply than an approach that seemingly goes neatly from area to area in covering the law of civil procedure without any doubling back. Moreover, the casebook's approach is much more effective at addressing another major problem in teaching basic civil procedure: the latency of values that marks the subject. Only after some time and considerable effort can the students perceive and weigh the fundamental values at play in any area of procedure. It would be a shame to complete the study of a particular area before the students were prepared to begin that study. One decision made by the editors in seeking conciseness was to include five (heavily edited) stories from the acclaimed *Civil Procedure Stories* (2d ed. 2008). The story of Hickman or the story of Hansberry can work wonders at quickly conveying a sense of a whole field such as pretrial discovery or class actions. At the same time, pausing for a while on one case can do a lot to counter the modern teaching tendency to rush through cases in order to lecture on the rule of the case. The teacher faces lots of temptations to go in that direction, in the pursuit of speedy coverage of the vast and rich subject and in the pursuit of delivery of knowledge rather than creation of understanding. The story method is an antidote. Studying a selected few cases with special care, criticism, and activism best allows the student to create that understanding. Inclusion of a few stories fits with the Concise Edition's mission of delivering a compact book for short courses that does not entail substantial pedagogic sacrifices, but indeed may lead to teaching an even better course.

Besterman, *A World Bibliography of Bibliographies* 3461.

EISENBERG AND COX'S CORPORATIONS AND OTHER BUSINESS ORGANIZATIONS, CASES AND MATERIALS, 10TH, 2013 SUPPLEMENT

Foundation Press This is the 2013 Supplement to the Unabridged and Concise Tenth Editions of Eisenberg and Cox's *Corporations and Other Business Organizations, Cases and Materials*.

SEALY AND WORTHINGTON'S TEXT, CASES, AND MATERIALS IN COMPANY LAW

Oxford University Press Sealy and Worthington's *Text, Cases, and Materials in Company Law* clearly explains the fundamental structure of company law and provides a concise exploration of each different aspect of the subject. The materials are carefully selected and well supported by commentary so that the logic of the doctrinal or legal argument is unambiguously shown. Notes and questions appear periodically throughout the text to provoke ongoing analysis and debate and enable students to test their understanding of the issues as the topics unfold. This text covers a wide range of sources and provides intelligent and thought provoking commentary in a succinct format. It will be invaluable to all those looking for expert observations and vital materials on company law.

BUSINESS ASSOCIATIONS

AGENCY, PARTNERSHIPS, AND CORPORATIONS : CASES AND MATERIALS

Important features of Business Associations, Fourth Edition, include: * Complete & developed materials on agency & partnership reflecting the authors' view that a good background in agency & partnership principles is important for its own sake, & for the study of corporate law * Problems helpful in illustrating material * Attention to the lawyer as planner, as opposed to litigator or critic.
